A HEALTHY OLD AGE OFTEN THE BEST PART OF LIFE

Help for Women Passing Through
Change of Life

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it is generally our own fault if we die prematurely.

Mrs. Mary Koehne

Nervous exhaustion invites disease. This statement is the positive truth. When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation, and you cannot bear to be crossed in anything, you are in danger; your nerves have given out; you need building up at once!

To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary L. Koehne, 371 Garfield Avenue, Chicago, Ill., writes: "I have used Lydia E. Pinkham's Vegetable Compound for years in my family and it never disappoints; so when I felt that I was nearing the change of life I commenced treatment with it. I took in all about six bottles and it did me a great deal of good. It stopped my dizzy spells, pains in my back and the headaches with which I had suffered for months before taking the Compound. I feel that if it had not been for this great medicine for women that I should not have been alive to-day. It is splendid for women, old or young, and will surely cure all female disorders."

Mrs. Pinkham, of Lynn, Mass., invites all sick and ailing women to write her for advice. Her great experience is at their service, free of cost.

The Rhodes Scholarships.

Is it possible that the Rhodes scholarships may prove a failure for want of applicants? When Mr. Rhodes' plan was first announced it was supposed that throngs of students would compete for the privilege of four years at Oxford, with \$1,500 annually for expenses. Reports of the recent examinations indicate small interest in the matter. Only three Illinois students presented themselves in the examination held in the Fine Arts building and so far as heard from, students in other States are not pressing eagerly for the scholarship prize. The Rhodes students from America, Germany and South Africa have been well received at Oxford. American students in particular have been popular, so the distinction to hold back is not for want of a cordial reception on the other side.—Chicago Chronicle.

China's Coal Fields. China's resources of coal and iron are among the largest and most favorably situated in the world. The extent of the great coal fields has been put at 400,000 square miles, twice the area of France, and more than seventy times the aggregate extent of all the coal fields of Britain. Of the quality of the deposits much has yet to be learned, but the distinguished German geologist, Baron von Richtofen, reported many years ago that both the anthracite and the bituminous varieties were equal to the best produced in Europe. It is expected that very soon Chinese coal will be delivered at Far Eastern ports at prices with which no other coal can possibly compete, and that China, in consequence of this development, will become a large exporter of iron.

Coming home from St. Louis Fair a Lyon county (Kan.) woman occupied an upper berth and it is related that she startled the whole car by looking under the bed, from force of habit.

SALT RHEUM ON HANDS Suffered Agony and Had to Wear Bandages All the Time—Another Cure by Cuticura.

Another cure by Cuticura is told of by Mrs. Caroline Cable, of Waupaca, Wis., in the following grateful letter: "My husband suffered agony with salt rheum on his hands, and I had to keep them bandaged all the time. We tried everything we could get, but nothing helped him until he used Cuticura. One set of Cuticura Soap, Ointment and Pills cured him entirely, and his hands have been as smooth as possible ever since. I hope this letter will be the means of helping other sufferers."

FINANCE AND TRADE REVIEW

PRONOUNCED PROGRESS

Liberal Pig Iron Tonnage Purchased With Business Well Distributed. Quotations Are Holding Firm.

R. G. Dun & Co.'s "Weekly Review of Trade" says: "Better weather has greatly improved trade in many sections of the country, spring merchandise being distributed freely by jobbers, while retail business and merchandise collections are more normal. Interior buyers are placing liberal orders in the large cities, and preparations for structural work are hurried. Manufacturing lines have made splendid progress since the opening of the year, especially the various divisions of the steel industry, and textile mills are well engaged. Shops have ample spring business, but orders for fall delivery are delayed by the recent advance in prices that was necessitated by higher cost of production, particularly as to the raw material. In almost every branch of business there is confidence in active trade with the appearance of settled weather. Winter what is in good condition, but cotton planting will average much later than last year. Prices of commodities are still firm.

Railway earnings for the month of February thus far were 6.2 per cent smaller than last year, and foreign commerce at this port for the last week made another phenomenal record as to imports, exceeding the same week last year by \$9,247,234, while exports were \$2,221,406 larger. Progress is most pronounced in the iron and steel industry. A very liberal tonnage of pig iron has been purchased, indicating that confidence is increasing, and the business is well distributed, while quotations are firmly held, but not advanced as yet. Steel mills are now running at nearer full capacity than at any recent date, orders coming forward continually. Railway companies seek all forms of equipment, particularly rolling stock and steel rails. There is enough of this business in sight to insure full activity for several months at the leading mills, and in many instances orders cover deliveries up to the end of the year. Evidence of conservatism in the markets for finished steel is considered the best indication of continued prosperity. Leather is irregular, owing to special sales at slightly lower prices, although list quotations are not altered. It is believed that reasonable orders at shoe factories would restore normal conditions. Failures this week numbered 252 in the United States against 240 last year and 29 in Canada, captured with 22 a year ago.

Two victims in a single day have been added to the long list of those who sought to save a few moments' time by running to catch trains. The only wonder is that there are not more such fatalities, says the Philadelphia Inquirer. It seems a simple thing to run a block, or half that distance, but to people engaged in sedentary occupations it is a dangerous act, often producing serious results, and never worth the trouble.

THE OLD FOLKS AT HOME

Are Never Without Pe-ru-na in the Home
For Catarrhal Diseases.

Remarkable Cures effected by Pe-ru-na. Under date of January 10, 1897, Dr. Hartman received the following letter: "My wife has been a sufferer from a complication of diseases for the past twenty-five years. Her case has baffled the skill of some of the most noted physicians. One of her worst troubles was chronic constipation of several years' standing, which was also passing through that most critical period in the life of a woman—change of life. "In June, 1895, I wrote to you about her case. You advised a course of Peruna and Manalin, which we at once commenced, and have to say it completely cured her. "About the same time I wrote you about my own case of catarrh, which had been of twenty-five years' standing. At times I was almost past going. I commenced to use Peruna according to your instructions and continued its use for about a year, and it has completely cured me."—John O. Atkinson. In a letter dated January 1, 1900, Mr. Atkinson says, after five years' experience with Peruna: "I will ever continue to speak a good word for Peruna. I am still cured of catarrh."—John O. Atkinson, Independence, Mo., Box 272. Mrs. Alla Schwandt, Sanborn, Minn., writes: "I have been troubled with rheumatism and catarrh for twenty-five years. Could not sleep day or night. After having used Peruna I can sleep and nothing bothers me now. If I ever am affected with any kind of sickness, Peruna will be the medicine I shall use. My son was cured of catarrh of the large bowels by Peruna."—Mrs. Alla Schwandt. When old age comes, catarrhal diseases come also. Systemic catarrh is almost universal in old people. Address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, who will be pleased to give you the benefit of his medical advice gratis.

Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, how do you know what you are getting? Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out. Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory. Lion-head on every package. Save your money. Buy Lion-heads for valuable premiums.
