JEROME WILL BE HUMMER.

Jenner-Quemahoning Coal Company Operations Completed.

The Jenner-Quemahoning Coal Co., whose operations are located at Jerome, the new mining town, which had its birth with the inception of the new operations, last week completed a large shaft and installed the ponderous machinery which is now bringing coal to the surface.

The branch B. & O. railroad leading from a point on the S. & C. E. R., about a half mile above Holsopple to the new town, has also been completed, and as the operators have just had a large order for steel cars filled, they will be shipping coal in a short time.

The Superintendent, R. Z. Virgin, who has charge of the operations, has had a large experience in mining, extending over 20 years, 15 years being spent in an official capacity, resigning with the Briar Hill Coke Co., near Uniontown, to accept his present position. He stated to an Era representative that there is a promising future in store for the town of Jerome. Contracts have been let for a large number of new houses, twenty families already residing in the houses erected last fall. A large new store and office building has been completed, and the offices of the company have been moved from their temporary quarters to the new structure.

The new steel tippie, 300 feet in length, has just been completed, and is supported by 42 piers. The mine is operated on the three-entry system, and will be electric throughout, driven by two batteries of boilers. When the town once gets down to business things doubtless will hum.—Windber Era.

The Use of Printed Matter.

This is the time of year when business and professional men, mechanics and tradesmen generally, should provide their stationery for the year. Everybody who does a credit business should have a supply of bill heads, statements and receipts, in addition to printed letter heads and envelopes; and many farmers who make a specialty of raising stock or poultry would find that a printed letter head would be greatly beneficial. Business cards of all kinds are too little used. In this age of traveling around there is nothing that fits in so well as a printed card, which acts both as an introduction and a permanent reminder of a man and his business. It is a mistake to think that any business is too small to justify printed matter, which is really advertising. It is the small business, in fact, which needs it most.

There are very few, in fact, no matter what their work may be, who do not need the help of the printer, and now is the time to put the thought into operation.

Write us for prices and samples of anything you may need, and they will be cheerfully furnished.

CHEATED DEATH.

Kidney trouble often ends fatally, but by choosing the right medicine, E. H. Wolf, of Bear Grove, Iowa, cheated death. He says: "Two years ago I had Kidney Trouble, which caused me great pain, suffering and anxiety, but I took Electric Bitters, which effected a complete cure. I have also found them of great benefit in general debility and nerve trouble, and keep them constantly on hand, since, as I find they have no equal." E. H. Miller, the druggist, guarantees them at 50c. 5-1

often ends in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve. "A deep wound in my foot, from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at E. H. Miller's drug store. 5-1

Brethren Reunion Predicted.

Perhaps the most interesting feature of the memorial service yesterday morning in the Somerset Street Brethren church for the late Rev. Henry Ritz Holsinger was the prediction by the pastor, the Rev. W. S. Bell, that the German Baptist Brethren and the Progressive Brethren churches, which divided nearly 25 years ago, would eventually re-unite. "I believe," said the Rev. Mr. Bell, "that the time is not far distant for the re-union of the members of the great Brethren body. I believe that the two bodies will work themselves together, and that the factions of the Brethren faith will soon be formed into one whole harmonious body."

The above statement was preceded by the declaration that the German Baptists were progressing along the very lines that had caused the dissensions in the year 1882. They are now laboring with renewed vigor, are advocating a paid ministry, drawing away from the severe plainness of dress and in many other ways are taking to the liberal views of the Progressive Brethren, with whom they differed 25 years ago.—Johnstown Democrat.

Fine Tribute to Josiah Specht.

Josiah Specht, who was recently nominated for County Commissioner, by the Republicans of this county, is one of the most popular and prominent business men within fifty miles of the county-seat. The Johnstown Daily Democrat recently made the following complimentary and well deserved mention of him:

"The triumph of unusual ability reinforced by indomitable business courage is perhaps nowhere better illustrated in this section of the state than in the career of Josiah Specht, merchant of Kantner, Somerset county, who, starting out in life a farm boy, has risen by his own efforts to the head of an establishment which does annually a business of \$90,000, and is a tremendous factor in the commercial activity of the county.

Josiah Specht was born fifty-six years ago on the farm operated by his father, the late David Specht, in Shade township, about two miles west of Kantner. In 1861 David Specht bought a grist mill and farm at Kantner, his son working the farm while he looked after the milling business. The mill was burned in 1873, but was immediately rebuilt and Josiah taken in to learn the trade.

The foundation for Josiah Specht's present great retail mercantile establishment was laid in 1878, when he started a small general store. The business prospered from the start, and in 1890 a large building was erected on the site of the present store.

The greatest calamity in Mr. Specht's business career was a fire in 1893, which destroyed his entire plant, including the mill and warehouse, entailing an uninsured loss estimated at \$60,000. With his usual energy, however, Mr. Specht started right in again, and within three days was doing business in a temporary building. The present mill and mammoth store building were erected in 1896. Besides the store and grist mill, Mr. Specht now operates a planing mill and machine shop.

In addition to his own business, Mr. Specht is interested in a number of outside enterprises, being a director and heavy stockholder in the Somerset County National Bank, the Somerset Concrete Company, and the Co-operative Fire Insurance Company, of Berlin."

FRIGHTFUL SUFFERING RELIEVED.

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr. King's New Life Pills, "with the result," he writes, "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c. at E. H. Miller's drug store, guaranteed. 5-1

Samuel Turvey Captured and Jailed—Charged with Shooting Wm. Sutton.

Samuel Turvey, of Coal Run, who was arrested on the charge of shooting Wm. Sutton, near Summit Mills, Oct. 4th, 1904, was rearrested, Monday morning last, at his home in Coal Run, by Deputy Sheriffs Davis and Skinner.

It will be remembered that Mr. Sutton was on his way to work at the mines, when he was riddled with buckshot, from ambush, and Turvey was arrested soon afterward, being charged with the crime. He furnished bail for his appearance at court, but owing to the fact that Mr. Sutton was too badly wounded to attend court, Turvey has not yet had a trial.

On the 13th of last month Mr. Sutton died of his wounds, and shortly thereafter Turvey disappeared from the community. However, a sharp lookout was kept for him, until he was finally caught at his home, Monday morning, and taken to jail.

He will now have to stand trial for murder. What evidence there is against him, we do not know, but it will be made manifest at the trial. If he is guilty, hanging is too good for him; but if he is innocent, we hope his innocence will be clearly established.
