A Kansas City physician has discovered that high collars worn by women produce cancer of the throat, and the Hopkins Journal adds that low-necked dresses produce pneumonia, corsets produce heart disease and shortness of breath, long skirts gather up germs of all infectious diseases, thin soles produce consumption, tight shoes cause the toes to grow together, and looking at bright millinery causes sore eyes. Women should be careful about these things.

A. F. John, the coal operator, two weeks ago closed out the last of his coal holdings in Somerset county remaining after his sale last fall, the Quemahoning Valley Mining Company taking the property for a nice sum. Mr. John says he has not determined just what he will do. One or two local people have made him an offer for his fine Main-street home, and the owner's answer is that he will sell any property he has provided he gets his price. As for moving away to Philadelphia or any other city, Mr. John says that for the present, at least, Johnstown is good enough for him.—Johnstown Tribune.

A reliable man from Greenville township stated in the postoffice, some days ago, that the supposed victim of smallpox that was recently sent to that township from this borough had about fully recovered, that the eruption had all disappeared and left neither scales nor scars. He got the information direct from the victim's father, he said, and that ought to be good authority. One can readily imagine about how much smallpox there was about the case, and it is more than probable the whole thing was another cry of "wolf" when there was no "wolf." The families under quarantine have all been released, and we suppose the borough will be called upon to pay a needless bill.

The July "Arena" which opens the thirty-fourth volume of this magazine is one of the strongest and most thought-compelling numbers of this well-known review that has ever appeared. Perhaps the most important feature is the opening contribution in a series of papers on "The Economic Struggle in Colorado," by the eminent legal authority, the Hon. J. Warner Mills. Unlike most legal writers, Mr. Mills possesses a fascinating style, and unlike most present-day discussions of evil conditions, these papers are far more than mere historical recitals of facts. With the broad grasp of a true philosophical statesman he has laid hold of the subject, and shows the root-causes that have produced the reactionary, unrepentant and dangerous social and political conditions which are fast assuming such colossal proportions throughout the Republic. No one interested in our great nation should fail to read these papers.

Big Pay by Southern Pipe Line Company. The pipe line now being laid through this locality by the Southern Pipe Line Company has given employment to many men. On Monday and Tuesday the company paid over 500 men, at the Valley house, in this borough, and the money paid out footed up to over \$17,000. This is the fourth time the company has laid through this vicinity, and each time it has put much money in circulation here.

A SURPRISE PARTY. A pleasant surprise party may be given to your stomach and liver, by taking a medicine which will relieve their pain and discomfort, viz: Dr. King's New Life Pills. Bad Man Captured. On Monday afternoon Chief of Police M. D. Thomas made a valuable capture when he "nabbed" the notorious "Jake" Lowery who was wanted on the allegation of having had a hand in the brutal beating administered to Mr. Engle, a working miner residing north of Huntersville, on the Meyersdale road.

The beating took place last winter while Engle was on his way from work and was attacked by several striking miners. "Jake" Lowery is said to have had a hand in the beating, and as he was a fugitive from justice, Officer Thomas arrested him on sight and locked him up until the Meyersdale authorities sent Constable Swindell here to escort the captive to Meyersdale. We understand that Lowery has given bail for his appearance at court. It is said that a reward had been offered for the arrest of Lowery, and if that is the case, Officer Thomas is clearly entitled to it. Lowery had been working on the pipe line, and was captured when he came to town, Monday, for his pay.
