He wrote the boy, however, asking what report was wanted, explaining that a volume was issued yearly. Whether he ever showed the boy's reply to his friends or not, it has leaked out. It reads: "I don't care which year it is. All I want is any old thing heavy enough to press wild flowers."

Prof. D. F. Enoch yesterday filled a long-felt want by slapping a disgusting and impudent 15-year-old brat for a series of offenses that the brat should have been slapped to sleep for long ago. The brat's irate father made a spectacle of himself by taking up for his son, abusing the professor, talking of fighting, etc., notwithstanding the fact that he wants to be a high "muck-e-muck" in church. He should have "licked" his impudent son thoroughly and thanked Prof. Enoch for giving him the slapping he deserved.

The new law concerning automobiles, passed by the last Legislature and approved by the governor, provides that such machines must be registered, and the certificate carried. A state license, if no local license is required, must be procured, costing \$3. Five-inch tags giving the number of the machine must be carried front and back. At least one light must be carried at night, showing white 100 feet forward and red light backward. A bell or horn device must be sounded at crossings. The car must be stopped at signal of drivers of frightened horses. The speed limit is ten miles an hour in towns and cities, and 20 miles in country. The penalty for first violation is fixed at a fine of \$10 to \$25 or 10 days in jail; second offense, \$25 to \$100 or 30 days in jail.

A very serious runaway occurred on Main street, Tuesday evening. Harry Maust, a prosperous young farmer living two miles west of Berlin, drove into town and hitched his horse, which was a spirited one, in front of Miller's restaurant. Some careless person threw a cannon cracker under the horse, causing him to brake away and run at full speed up Main street. He was stopped at the head of the street, led back and tied again, but so frightened was the animal that he broke his fastenings a second time and dashed off at breakneck speed. The buggy was demolished, and the horse so badly injured that it is feared he will have to be killed. If the law regarding the sale of explosives had been enforced in this town, this unfortunate and costly accident would not have occurred.—Berlin Gleaner.
