Something that Ought to Interest Salisbury People Who Have Located Elsewhere.

THE STAR has for sale a limited number of very fine pictures of Salisbury, size 22x32 inches, printed on extra heavy, smooth paper, from a very fine engraving. The sketching was done by T. M. Fowler, of Morrisville, Pa., who is an expert in his line and has been following his business in many different states of the Union.

The picture is very clear and distinct, showing all the streets plainly marked, and those familiar with the town can plainly recognize every building in it. The pictures have sold like "hot cakes" here, and a limited number have been placed with THE STAR to supply those at a distance, who may desire them.

Every former citizen of Salisbury ought to have one of these fine engravings, as they show the progress the old town has been making, which has been very great in recent years. But we cannot supply them all, and those who apply first will get them. The picture includes West Salisbury, the surrounding landscape and some of the farm houses in the immediate vicinity, also a large number of the principal buildings printed around the margin of the engraving, from special drawings.

Price, \$1.50 per copy, plus 7 cents to pay postage. Address THE STAR, Elk Lick, Pa.

There is a curious plant that grows in Arabia and is known by the name of "laughing plant." This name comes from the fact that any one who eats its seeds cannot control his laughter. The natives of the district where this funny plant grows, dry the seeds and reduce them to powder. A small dose of this powder makes those who eat it act very much like the foolish people who drink more liquor than is good for them. The soberest person will dance, shout and laugh like a madman, and rush about, cutting up the most ridiculous capers for an hour. At the end of this time the reaction comes. The dancer is exhausted, and a deep sleep comes upon him. After a nap of several hours he awakens with no recollection of the antics he has performed.—Ex.

### Big Family.

Probably the largest family in West Virginia is that of Mrs. Mary Ann Johnson, of Kincaid, in Fayette county. Mrs. Johnson was the mother of ten daughters, all of whom were raised to womanhood, and nine of whom are yet living. One daughter died at the age of twenty-seven. All the other nine daughters have large families. In addition to the nine daughters, Mrs. Johnson has eighty-eight grandchildren, 186 great grandchildren and forty-nine great great grandchildren, making a total of 333 direct descendants. Mrs. Johnson was born April 1, 1810, and is now ninety-five years of age. She is still able to read, write and sometimes do her own cooking. She does all her own sewing.

### Man and Wife.

Too many men never praise their wives until they bury them.

The easiest way for a man to pack a trunk is to get his wife to do it.

There are men who go to a gymnasium for exercise while their wives are sewing wood.

Generally when a man feels the need of economy he thinks it ought to begin with his wife.

There is many a wife hungering for an occasional word of approval who will be buried in a rosewood casket.

Why is it that it tires some men more to do a little errand for a weary wife than it does to walk around a billiard table for four hours?

If men were as ungallant during courtship as they are after marriage, it is doubtful if more than one in 10,000 could ever get a wife.—Ex.

### The Sides of a Nickel.

The Washington Post relates that recently a letter was received at the Treasury Department addressed, "Uncle Sam, Washington, D. C." It reads: "Please find in close 05ct. For which I want you to tell me the side of the nickel is heads and what is tails. Use nickel for postage in return." The department replied that there was no "head or tail" officially, but an "obverse and reverse side." The writer was told to toss a coin and take his choice, and the nickel was deposited in the Treasury.

### The American Hen.

Great is the helpful hen. According to the last government census, the American hen produces annually \$281,178,247 in products. Last year she produced almost \$137,000,000 worth of marketable progeny, and over 1,250,000,000 dozen of eggs, or 203 for every inhabitant of this country. Ohio leads in value of eggs produced; Iowa in numbers. Eggs are highest in Alaska, average 43 cents per dozen; cheapest in Texas, average 7.7 cents per dozen.

### The Last Word on Rockefeller.

The eagerly awaited conclusion of Miss Tarbell's character sketch of John D. Rockefeller is in McClure's for August. It builds upon the foundations laid in the first paper a clear and interesting estimate of the most significant personality in contemporary affairs.

Eminently calm, giving him always the benefit of the doubt, the real Rockefeller, judged by his deeds, is examined and compared with the man John D. Rockefeller lets the public see in the Sunday-school, in philanthropy, and in business activity. His character is bared of all its pretences, that the lesson his life teaches may be plain.

In the years of Miss Tarbell's study of Standard Oil she has acquired minute knowledge of John D. Rockefeller's business career which gives her first advantage as his biographer, but it is through her marvellously rare and temperate view-point and her training as a historian, that this character sketch becomes a great and lasting work. The second paper leaves nothing to be said of John D. Rockefeller. It places him in his final relation to the history of his time.

### The "Square Deal" in Business.

Advertising poor goods is like going to law with a bad case. The chance of recouping the outlay is exceedingly slim. The merchant who is ashamed of his wares is not recommended to advertise them, for the more people he induces to try them the greater will be his loss in the long run. But he who sells what is honestly priced, and tells the public about it, makes hosts of new friends every time he goes into print. An "ad" that sells directly only fifty cents worth of goods may be the means of securing a permanent customer who will buy \$500 worth in a year. It is easy to influence the consumer, provided he is given a "square deal."

### The Judge's Repremand.

An English magazine tells a court story. A counsel, in the middle of his cross-examination, was handed a telegram. "Hello!" he said, as he read it. "So-and-so has won the Derby." "Mr. A.," said the Judge, severely, "It is very unseemly that in the course of solemn judicial proceedings, where a man's liberty and reputation are at stake, you should be talking of the winner of a horse race. Er—by the way, does the telegram say what was second and third?"

### Just the Way We Do at The Star Office.

The managing editor wheeled his chair around and pushed a button in the wall. The person wanted entered. "Here," said the editor, "are a number of directions from outsiders as to the best way to run a newspaper. See that they are all carried out." And the office boy, gathering them all into a large waste basket, did so.—Washington Post.

### Big Oats.

Joseph A. Kisner, of Round Glade, brought to this office on Tuesday a sample of Silver Mine oats which were grown on his place, this year, that eclipses anything we have seen in oats this year. The heads measured two feet and were well filled and very heavy. The crop of oats in this section this year is said to be above the average, and there is a very large acreage.—Oakland Republican.

### Meyersdale Merchants' Outing.

Meyersdale, July 21.—More than 200 persons made up of the merchants and business men and their families, enjoyed their annual outing in fishing for bass, boating and mountain-climbing at Ohiopyle Falls yesterday. The party was entertained at dinner at the Ferncliff hotel, returning home on a special train last evening.
