Resumption at Steel Mills Reflects Confidence in the Future—Improvement Over a Year Ago.

R. G. Dun & Co.'s "Weekly Review of Trade" says: Commercial tendencies are still in the direction of improvement, although progress is hampered by some inflation of prices for the raw materials of textile and footwear industries.

Foreign commerce at New York for the last week was almost identical with the results in 1904. Traffic interests begin to feel the pressure of crops, but facilities have proved ample thus far, and railway earnings in July were 9.0 per cent larger than in the same time last year.

Work and Wages. Paul Morton gets \$100,000 a year, and Admiral Togo \$3,000. That's about right. Morton has 600,000 dissatisfied policy holders to placate, and Togo has only a few thousand Russians to show how to lead a different life.

A Sailor's Burial at Cherbourg. The most impressive feature, however, of the day on which John Paul Jones' body arrived at Cherbourg was the real funeral of Seaman Rodgers of the Chattanooga, who died yesterday in the Civil hospital here from nephritis.

A Queer Thing About July. How we came to pronounce July as we do now with the accent on the second syllable is one of the unsolved mysteries of speech. Named, of course, after Julius Caesar, it should really be pronounced to rhyme with "duly."

Shaking Hands. When a stranger does not grasp the hand you offer him, you are entitled to doubt his honesty. If he favors you with a couple of fingers you may set him down as haughty. If his hand lies limply in yours, he is timid.

The Largest Lump of Ice. The largest mass of ice in the world is probably the one which fills up nearly the whole of the interior of Greenland, where it has accumulated since before the dawn of history.

What May Be Found at Skibo. The sporting attractions of Skibo, Mr. Carnegie's Highland home are thus summed up: The extent of his shooting is about 20,000 acres, of which about 10,000 acres are moor, 6,000 acres are arable and 4,000 acres wood.

Electro-Magnetic Surgery. A huge electro-magnet has been set up in a certain hospital in England. It drew out splinters of steel which had become lodged in the eyes of patients. In one instance it drew out a piece of a hammer head which had been driven into the muscles of a patient's upper arm.

EVER TREAT YOU SO? Coffee Acts the Jonah and Will Come Out. A clergyman who pursues his noble calling in a country parish in Iowa tells of his coffee experience.

Much Trouble to Himself. Gen. Sherman once had occasion to stop at a country home where a tin basin and a roller-towel on the back porch sufficed for the family's ablutions. For two mornings the small boy of the household watched in silence the visitor's efforts at making a toilet under the unfavorable auspices, but when on the third day the tooth-brush, nail-file, whisk-broom, etc., had been duly used and returned to their places in the traveler's grip, he could suppress his curiosity no longer.

The steel plant of the Carnegie Steel company at New Castle which has been closed down for a month on account of a break in the machinery, has resumed work. Twelve hundred men were given employment. The furnaces began work last week.

A barn owned by James Dickson, near Midway, was destroyed by a mysterious fire, together with adjoining buildings. The loss is about \$10,000 with little insurance.

A Modern Buccaneer

"The days of piracy may be gone, but there is a bold buccaneer in the waters of the North Pacific ocean who comes perilously near duplicating the exploits of Lafitte and Captain Kid."

MISS ELLA OFF, Indianapolis, Ind.

SUFFERED FOR MONTHS.

Pe-u-na, the Remedy That Cured

Miss Ella Off, 1127 Linden St., Indianapolis, Ind., writes:

"I suffered with a run down constitution for several months, and feared that I would have to give up my work. On seeking the advice of a physician, he prescribed a tonic. I found, however, that it did me no good. On seeking the advice of our druggist, he asked me to try Pe-u-na. In a few weeks I began to feel and act like a different person. My appetite increased, I did not have that worn-out feeling, and I could sleep peacefully. In a couple of months I was entirely recovered. I thank you for what your medicine has done for me."

15 YEARS OF TORTURE

Itching and Painful Sores Covered Head and Body—Cured in Week by Cuticura.

"For fifteen years my scalp and forehead was covered with sores. Words cannot express how I suffered from the itching and pain. I had given up hope when a friend told me to get Cuticura. After bathing with Cuticura Soap and applying Cuticura Ointment for three days my head was as clear as ever, and to my surprise and joy, one cake of soap and one box of ointment made a complete cure in one week." The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored LION COFFEE, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE.

- 1. Use LION COFFEE, because to get best results you must use the best coffee. Grind your LION COFFEE rather fine. Use "a tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white sugar (if you use a sugar) to the paste, then follow one of the following rules: 1st. WITH BOILING WATER. Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Serve promptly. 2d. WITH COLD WATER. Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve. 3. Don't let it stand more than ten minutes before serving. 4. Don't use water that has been boiled before.
