called independent Republicans here called independent Republicans here and there who will go along with Guf-fey, just as others of their class have voted for Democratic candidates time and time again, but they will experi-ence the usual result on election aight when the news will be fashed over the telegraph wires announcing a sweeping Memubican victory in Pennerivania.

Republican victory in Pennsylvania. Guffey to the Frent.

In commenting upon the outcome of the Democratic state convention held here last week, the Philadelphia In-guirer very aptly said: "Colonel Guffey comes to the front

with his Democratic party and makes his bow to the public. He presents to the voters the Republican candidate for the supreme bench, adopts some resolutions and adjourns in the hope that the people of Pennsylvania will elect his candidate for state treasurer, one Berry, of Chester. "His convention at Harrisburg was

called for the purpose of carrying out the little game of politics which the never victorious leader of Pennsylva-nia Democracy is engaged in. He thinks there must still be a large independent vote in the state therefore he bids for this vote. He says, in effect, 'I am an independent. In proof of my indepen-dence, see what I have had my conven-tion do. I have had it nominate a Recourt. Now you can show your inde-pendence by taking my nominee for I bought the longest pair I could state treasurer.

Pretty Little Game.

"It is a very pretty little game. By taking this step the colonel confines the campaign to a single office. He thinks there is more chance for Demo irring with the name of John Stewart, Republican, than by presenting a full Democratic ticket. It is really the besemicrate toket. It is really the be-ginning of the campaign of next year, when a governor will be elected. The colonel rightly figures that if he could but carry Pennsylvania in November next for his Democratic candidate for state treasurer he could go into the fight next year with all the enthusiasm of past victory and make a hopeful context, not only for governor, but for the legislature and for members of

congress in several close districts. "We do not think that there is very much danger that Colonel Guffey's party will make much progress. Why should there be? men and other active Republicans in the several counties. Although this is what is styled an "off year," when it is not expected that there will be many mass meet-fugs, Chairman Andrews has already got a number of applications from young Republicans and many veteran orators effering their services to the state committee to address any mass meetings that may be held under the auxplees of the state organization. men Young Men to the Front. The state organization is giving every encouragement possible to the officers of the State League of Republican Clubs who are preparing for their convention, which will be held in Easton the middle of next month. This promises to be one of the most

the clubs and a large attendance of the clubs and a large attendance of active and earnest party men-men who are in the party from conviction and principle, and not for personal gain. The league always has been found on the side of clean and agreefound on the side of clean and aggres-sive Republicanism. Most of the clubs have among the delegates who will attend the annual convention those active young men who are looking ahead for promotion in our state and local politics. They are the working volunteer force of the party. Neither faction nor dissension can swerve them from loyalty to the party which they place above and beyond men and

them from loyalty to the party which they place above and beyond men and individuals. The league is a powerful and im-portant adjunct to the state commit-tee and a political help to success. The state ticket this year is a good ticket, clean, able and Republican, and there is no reason why it should not receive the earnest and scalous sup-port of all good Republicans. It cer-tainly will have the cordial untiring support of all the clubmen over the state. Campaign of Misrepresentation.
