Several new firms started in business in this town during the past year and tried to build up a trade without advertising, but they didn't last long. 'Twas ever thus, and the non-advertising business man is usually sized up for just what he is—no business man at all. The Bell Telephone Company is making an experiment in some sections that will doubtless soon become general. It is the placing of automatic pay stations on telephone poles in country districts. This gives the ruralite an opportunity to talk, and is also a great advantage to the traveling public, as a message may be sent on ahead, and arrangements made to transact business at a certain point at a certain time.

Typhoid fever seems to be breaking out afresh in Salisbury and vicinity. "Hello!" said the painter, "where did you get that baby?" "I don't know," replied the little girl, "but I expect my pap got it at Montgomery Ward's."

"Fellow-citizens," said a stump orator, "we have the best country in the world, and the best government. What people on the face of the earth enjoy more privileges than we do? Here we have liberty to speak, and liberty of the press, without onerous despotism. What, fellow-citizens, is more desirable than this? Do you want anything more?" Johnston and son Robert are now snugly located in their new double house on Beachy avenue, and they have been the first people in the Beachy addition to lay a pavement in front of their residence. E. Beachy addition is rapidly getting to the front as one of the most desirable residence portions of the town.

Here are a few defined words, and it may do you good to remember them: Appendicitis—a modern pain costing about \$200 more than the old-fashioned stomach-ache. Collector—a man whom few care to see, but many ask to call again. Echo—the only thing that can cheat a woman out of the last word. Evolution—clever trick performed by one Darwin, who made a monkey out of Adam. Hug—a roundabout way of expressing affection. Jury—twelve men chosen to decide who is the better lawyer. Love—a man's insane desire to become a woman's meal ticket.

The original is always the best—imitations are cheap. Bee's Laxative Honey and Tar is the original Laxative Cough Syrup. It is different from all others—it is better than all others—it is better than all others, because it cures all coughs and colds and leaves the system stronger than before. The letter B in red is on every package. Sold by Elk Lick Supply Co. 9-1

An ingenious electric train bulletin has been installed by the Chicago and Alton Railway Company in a number of its stations, and in some of the principal hotels in cities and towns through which its trains run. The device resembles a clock in appearance, a hand moves on a dial and indicates whether the train is on time, or, if not, how many hours or minutes it is late. All these bulletins in one town act simultaneously and indicate the same fact. The operator at the station controls them all, using a device similar to a telegraph key.

A venerable American institution, the camp-meeting, is on the wane. It is still far from dead, but those who know it best perceive most clearly that its sunset hour has come. As the old preacher of today recounts in the past tense the experiences of the circuit rider, that pioneering apostle of Christianity to new communities, so the preacher of tomorrow will tell on occasions of reminiscences of the former glories of the hilarious camp-meeting when people 'got religion' and were not afraid to make a noise about it. Fewer and fewer of the strongest preachers attended the camp-meetings. The more cultivated church members become, the less taste they appear to have for this sort of "old-time religion." Plainly, the camp-meeting is on the decline.—Ex.

They Still Like The Star.

In remitting for subscription to THE STAR, J. C. Mackey, Ph. D., D. D., of Carleton, Neb., takes occasion to say the following, for which we return our thanks:

"We still like THE STAR, and feel in perfect sympathy with its straightforward policy in dealing with evil persons and things. I have been delighted, since the first, with the stand you are taking in the interest of honesty and good morals generally.

Love to all at home from all, and best wishes for old Salisbury friends."

ARE YOU ENGAGED?

Engaged people should remember, that after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." E. H. Miller, druggist, sells and guarantees them, at 50c. a bottle. 10-1
