

KIDNEY TROUBLE DUE TO CATARRH.

The Curative Power of PER-U-NA in Kidney Disease of the Continent.

Nicholas J. Hertz, Member of Ancient Order of Workmen, Capitol Lodge, No. 140, Pearl Street Hotel, Albany, N. Y., writes: "A few months ago I contracted a heavy cold which settled in my kidneys, and each time I was exposed to inclement weather the trouble was aggravated until finally I was unable to work."

"After trying many of the advertised remedies for kidney trouble, I finally took Peruna.

"In a week the intense pains in my back were much relieved and in four weeks I was able to take up my work again.

"I still continued to use Peruna for another month and at the end of that time I was perfectly well.

"I now take a dose or two when I have been exposed and find that it is splendid to keep me well."

Hundreds of Cures.

Dr. Hartman is constantly in receipt of testimonials from people who have been cured of chronic and complicated kidney disease by Peruna.

Highest American Mountain Peak.

A question often asked and which has occupied the attention of scientists for several years appears to have been settled by the report sent to Washington by Professor Alexander McAde, head of the weather bureau service at Portland, that Mt. Whitney, situated in California, is the highest peak in the United States.

PISO'S CURE FOR CONSUMPTION

Best Where All Else Fails. Best Cough Syrup. Tastes Good. Use in Time. Sold by Druggists.

The Life Story of a Frog.....

THE frog commences existence as a black speck in a shellless egg, deposited with numerous others on rushes or weeds, or under watercress leaves.

The frog's egg is about one-sixteenth of an inch in diameter, and contains food enough to sustain the young in case for about a fortnight.

In a few days a mouth with horny jaws, but no tongue, is developed, and a digestive canal ten times as long as his body is coiled up like a watch-spring for internal use.

And he is not like some of those big pretenders we know of, who live in the water and yet are not fish, having to come to the surface to breathe atmospheric air.

By this time the eyes are perfectly formed, and the mouth is removed to the extremity of the head.

All this time he is only a tadpole with no limbs, but underneath the skin they are preparing. About the end of the third week the hind limbs appear in the shape of two little projections on the surface where the body is joined to the tail, and grow rapidly.

Towards the end of the second month the lungs come into use, and froggy sometimes rises to the surface and takes in a breath or two of air, thus for the time being becoming both a water-breather and an air-breather.

First, he ceases to feed; the outer layer of his skin falls off, the gill-closets close up and the gills are absorbed, the long tail shortens and soon completely disappears; the limbs, particularly the hind limbs, lengthen; the lungs are enlarged; the digestive canal undergoes change, and froggy is no longer a water-breathing, fish-like creature, but an air-breathing land animal.

But what becomes of the long tail? It does not drop off, as we might perhaps imagine. It is absorbed; beginning at the tip, it gradually shrinks till it disappears.

The greatest interest attaches to the frog and his transformation from the fact that in the successive stages of his development he resembles the adult form of a group of animals lower down in the scale of being.

Yes, though the present-day frog is but a pygmy compared with the giant Amphibians which roamed the land in the far off Carboniferous Period of the world's history, he is truly a wonderful little animal, and the X-rays have helped to reveal to us the marvels of his structure and the changes it undergoes.

Sixty thousand elephants are annually slaughtered to give the world its ivory.

FINANCE AND TRADE REVIEW

ACTIVITY INCREASES

Large Tonnage of New Business Insures Full Time for Steel Mills Next Year.

Favorable trade reports still predominate and there is no anxiety regarding the future. Higher temperature checked retail distribution of heavy wearing apparel and other seasonal merchandise.

Superlatives are needed in commenting on real estate transactions, building permits, bank exchanges and railway earnings, and failure statistics for the third quarter show a very low commercial death rate.

Quarterly records back to 1875 disclose no three-month period when the ratio of liabilities to solvent payments through the clearing houses was lower than the 62 cents to \$1,000 just recorded, while the average loss to each firm in business of 15.26 per cent. was less than in any year except 1881.

Industrial activity increases, a large tonnage of new business assuring full time at the steel mills still further into next year; footwear shops show much heavier shipments than in 1904, and the textile factories are well engaged.

Better crop news weakened cotton and grain prices slightly, but there will be enormous profits to the growers even if quotations go still lower.

Our First Joint Treaty. The first joint international treaty, with reference to a question not distinctly American, to which the government of the United States became a party, was the convention concluded on October 22, 1864, jointly with Great Britain, France, and the Netherlands.

Just think of it! None, whose output of gold for the season of 1905 is estimated at \$10,000,000, was practically unknown a few years ago, the Boston Transcript recalls. Its recent history probably surpasses the maddest dreams of the adventurers who long ago froze and starved on its then inhospitable shores.

Peacock feathers are said to bring ill luck. How Germany Captures Business. Those who are inclined to scoff at the higher education of a people as a fruitless and unnecessary expenditure of means and energy, should read a report recently made to our State department by Consul Osmund, from Stuttgart, Germany.

PATIENT'S EYES DROP OUT.

Peculiar Case Interests the Berlin Medical Profession.

The medical profession at Berlin is interested in a remarkable case of a man whose eyes drop out several times a week.

He awoke suddenly one night suffering excruciating pain, and to his horror found his left eye lying on the pillow. With the aid of a friend he was able to put it back again, the sight not being in any way affected.

He went to the Berlin hospital, and the doctors are apparently much pleased with the new record. When ever the patients lean forward an eye drops out, sometimes the left, sometimes the right.

Thimble Worth \$150. "We get some queer articles as pledges," the pawnbroker remarked, holding up a jeweled thimble. I believe, is the most costly thimble in America. It is valued at \$150. While it is solid 18-carat gold, the precious metal contained in it only stands for a small fraction of the value, the balance being represented by these three stones, sapphire, ruby and diamond.

Thanks, Awfully. The man who originated the Concord grape is to be memorialized by the people of Massachusetts who propose to erect a monument in his honor.

Some Good Advice. If the average young man would read the want ads, as closely as the baseball news he would find that he had as many "chances" as a first baseman; and by accepting some of them he would hasten the day when he could attend the games in person.

FITSPERMANTYURED. No oils or nervousness after first day's use of Dr. Kline's Great Nerve Tonic. 221 North 3rd Street, Philadelphia, Pa. Dr. H. KLINE, Ltd., 981 Arch St., Phila., Pa.

The Tokio Street Railway Company serves a population of 1,500,000.

Mrs. Winslow's Soothing Syrup for Children teething softens the gums, reduces inflammation, allays pain, cures wind colic, etc., a bottle.

The University of California operates a dairy school.

Subscription Agents Wanted. There is a splendid offer made to agents by The Four-Faces News, one of the most popular magazines in the country and one of the very best sellers.

The Japanese have bought thirty-seven steam turbines with electric generators.

Medico's Cure for Consumption is an infallible medicine for coughs and colds.

A cork tree is fifty years old before it produces a cork of a commercial value.

To Launder Colored Embroidered Linens with good results, tag work should be done quickly and carefully.

LETTER FROM MARCUS MAYER, THE GREAT Patron of Music and Drama.

Marcus R. Mayer, who brought to America Mme. Patti, Duse, Salvini, Coquelin and other famous singers and actors, writes:

Gentlemen: I wish as many suffering men and women as I can reach to know the excellence of Doan's Kidney Pills.

Doan's Kidney Pills. I was greatly benefited by this remedy and know it cured several who had kidney trouble so badly they were agonized with pain in the back, head and loins, rheumatic attacks and urinary disorders.

Gown of Postage Stamps.

More than 30,000 postage stamps were used in the making of a dress for a woman worn at a ball in Bermuda.

Years had been spent in collecting the stamps, and three weeks in making the dress, which was of the finest muslin. The lady appealed to her friends to help her, and the dress was completely covered with stamps of all nations.

The "Echo de Paris," says France has fallen from the second to the fourth place among the naval powers. The program will give her 34 battleships in 1919, whereas Germany will have 38 in 1917 and America will also exceed France in her battleships in 1919.

A HEALTHY OLD AGE OFTEN THE BEST PART OF LIFE

Help for Women Passing Through Change of Life

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it is generally our own fault if we die prematurely.

Mrs. Mary Koehne

Nervous exhaustion invites disease. This statement is the positive truth. When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and face flushes, and you grow excited and face flushes, and you grow excited and face flushes.
