Slot Machines Prospering.

Since the Legislature in Nevada legalized slot machines they have been doing a great business, and most of the nickels have disappeared from circulation into the machines. This has occasioned such inconvenience among the public that the banks of Nevada have had to send to the mint for a new supply.

Indians Growing Rich.

The little tribe of Quapaw Indians is destined to be the richest in the world. About two years ago an adopted member of the tribe was digging a well in the Quapaw Nation, about four miles south of Baxter Springs, Kan., when he struck what proved to be a rich body of "jack," or zinc ore. This was quickly developed, and over this well now stands a large concentrating plant, producing weekly 120,000 pounds of zinc and 4,000 pounds of pure lead.

Many thousand acres of the adjoining lands have been leased from the Indians by white men, says the Four-Track News. Over 200 drill holes have been sunk, and in nearly every instance lead and zinc have been found in paying quantities. The field is not only a large one, but is richer than anything in the famous Joplin district of southwestern Missouri and southeastern Kansas.

Shocks from False Teeth.

"False teeth have been known to generate electricity in the mouth and shock their wearer painfully," said a physician. "Only last week a gentleman came to me and said he feared he was getting a cancer on his tongue. 'Such severe shooting pains attack me,' he said, 'that often I utter loud oaths in the most unseemly places—at teas, before the minister, and so on. It is like knife thrusts. Do you think I am going to lose my tongue?' I found that two different meals had been used in fixing the poor man's false teeth. These metals, combining with the saliva, had formed a small battery. Electricity generated in the battery continually, and shock after shock was administered to the tongue. I painted the metals with an insulating varnish. Thereafter the man had no more trouble."

TWICE-TOLD TESTIMONY.

A Woman Who Has Suffered Tells How to Find Relief.

The thousands of women who suffer backache, languor, urinary disorders and other kidney ills, will find comfort in the words of Mrs. Jane Farrell, of 606 Ocean Ave., Jersey City, N. J., who says: "I reiterate all I have said before in praise of Doan's Kidney Pills. I had been having heavy backache and my general health was affected when I began using them. My feet were swollen, my eyes puffed, and dizzy spells were frequent. Kidney action was irregular and the secretions highly colored. To-day, however, I am a well woman, and I am confident that Doan's Kidney Pills have made me so, and are keeping me well."

FINANCE AND TRADE REVIEW

DUN'S WEEKLY SUMMARY

Steel and Iron Mills Continue Active. Buyers are Preparing for the Future.

R. G. Dun & Co.'s "Weekly Review of Trade" says: Fundamental conditions are unchanged, although higher temperature at many points again checked retail sales of heavyweight wearing apparel and other seasonable merchandise. Labor conditions in the building trades have not improved, and another serious struggle may occur which would be most unfortunate in view of the large operations under way and contemplated. Otherwise the situation is satisfactory, with mercantile collections steadily improving. Holiday trade gathers impetus as the season advances. Comparisons with last year's figures continue favorable, this week's gains being swelled by the holiday a year ago.

Leading industrial undertakings report little idle machinery and there is less complaint regarding car shortage, railway earnings thus far available for November exceeding last year's by 6.4 per cent. Foreign commerce at New York for the week showed a loss of $1,089,032 in exports and a gain of $53,177 in imports as compared with the same week last year. It is customary at this time of year to find a general quieting down in the iron and steel business, but normal conditions do not prevail this season.

Although the leading interests have prevented any sensational inflation of prices, all divisions of the market have hardened sufficiently to accelerate the operations of consumers who believe that it is the part of wisdom to prepare for future requirements. Failures this week numbered 228 in the United States against 205 last year and 34 in Canada compared with 39 a year ago.

The Dog and His Master.

Men and women are very much like clocks. Some are always on time, some are never on time, some are always in order, some are never in order. And, while you may be able to tell something of a family by its timepiece, you can tell more by the nature of the dog that greets you at the gate. A dog grows after the fashion of its master or its mistress; a kind gentleman will not have an ugly brute on his place.—Exchange.

USING FULLER'S EARTH.

An excellent way to avoid the ring left by benzine is the following French process. As soon as the spot is cleaned and while it is still entirely wet, cover it with fuller's earth. Do not rub it on, simply cover entirely the spot, letting it dry this way. When dry shake off the fuller's earth and brush lightly the cloth. If properly done there will be no ring. Sometimes the fuller's earth used alone is quite sufficient to remove the spot.

Gave Up His Gun.

The other night an Iola man bought a revolver and started out to kill another man. In his search for his man he ran into a Holiness street meeting. He stopped and listened for a few minutes. Then he walked up to the preacher, handed him over the revolver, confessed that he had started out to do murder and asked for prayers. They were given, and the would-be murderer now spends his nights in church instead of the county jail.—Kansas City Journal.

There is an unprecedented boom in mushrooms this year in England. So abundant is the crop in some parts of East Norfolk that they are being mowed down with scythes to save the labor of hand-picking.

BABY CAME NEAR DYING

From an Awful Skin Humor—Scratched Till Blood Ran—Wasted to a Skeleton—Speedily Cured by Cuticura.

"When three months old my boy broke out with an itching, watery rash all over his body, and he would scratch till the blood ran. We tried nearly everything, but he grew worse, wasting to a skeleton, and we feared he would die. He slept only when in our arms. The first application of Cuticura soothed him so that he slept in his cradle for the first time in many weeks. One set of Cuticura made a complete and permanent cure. (Signed) Mrs. M. C. Maitland, Jasper, Ontario."

Natural Sun Dial.

Greece boasts the largest sun dial on the planet. There is a large promontory in the Aegean Sea, looking to the East, which extends 3,000 feet above the level of the water. As the sun swings around the shadow of the mountain touches one by one a circle of islands separated by regular intervals, which act as hour marks.
