Under the new schedule there will be 14 daily passenger trains on the Pittsburgh Division, due at Meyersdale as follows:

East Bound.	
*No. 48—Accommodation	11:38 A. M.
*No. 6—Fast Line	11:30 A. M.
*No. 14—Through train	4:54 P. M.
*No. 16—Accommodation	5:31 P. M.
*No. 12—Duquesne Limited	8:35 P. M.
*No. 208—Johnstown Accommodation	7:45 P. M.
West Bound.	
*No. 11—Duquesne	5:58 A. M.
*No. 15—Accommodation	8:18 A. M.
*No. 16—Through train	11:30 A. M.
*No. 5—Fast Line	4:28 P. M.
*No. 49—Accommodation	4:50 P. M.
*No. 207—Johnstown Accommodation	6:20 A. M.

Ask telephone central for time of trains.
Daily except Sunday.
W. D. STILWELL, Agent.

When you take a drink for pleasure's sake, take one also for health's sake.

DR. C. BOUVIER'S BUCHU GIN

combines these purposes. It is just as beneficial to the kidneys and bladder, as it is exhilarating and delightful in its immediate effects. Better for you than any medicine.

DR. C. BOUVIER'S SPECIALTY CO., INC.
LOUISVILLE, KY.
On All Bars—Take No Other

LANZ'S RED KIDNEY PILLS
The greatest remedy ever put on the market for diseases of the Urinary Organs. Price 50 Cents.

FACTS ABOUT YOUR KIDNEYS.

The kidneys are the most important organs of the body. Nine-tenths of the sickness is caused by impure blood. Impure blood is caused by diseased kidneys.

Dr. Cole, Ohio. "Kindly send me 1,000 Kidney Pills. Give this your earliest attention. Am entirely out and cannot do my patients justice without them. They are the best for any and all Kidney and Bladder troubles that I ever used."

Druggist L. G. Kramer, Michigan City, Ind., states: "I am getting good reports from them. One box sells another."

If your druggist does not keep them send direct to us, same will be sent prepaid on receipt of price.
The ANTISEPTIC REMEDY CO.,
South Bend, Ind.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.
Bottles only, \$1.00. Size holding 2 1/2 times the trial size, which sells for 50 cents.
Prepared by E. G. DeWitt & Co., CHICAGO.
SOLD BY E. H. MILLER.

Wm. L. Little's Early Risers

The famous little pills.

REAL ESTATE TRANSFERS.

Hester Fisher to J. W. Burkholder, Summit, \$1100.
W. H. Powell to C. M. Ankeny, Elk Lick, \$1000.
Chan'y Bowman to C. M. Ankeny, Jefferson, \$1.
Wm. Camp to C. L. Ankeny, Somerset township, \$1900.
W. B. Putman to C. B. Putman, Middlecreek, \$925.
John Kimmel to S. S. Kimmel, Jefferson, \$300.
W. K. DuPont et al. to A. C. Govier, Conemaugh, \$10,000.
Lizzie Holtzower to Emma Cook, Meyersdale, \$1000.
J. S. Wiltrout to T. R. Pritts, Black, \$800.
Amaniah Lohr to Federal Coal Co., Quemaboning, \$300.
Norman Newman to Ida A. Newman, Salisbury, \$1400.

TORTURE OF A PREACHER.

The story of the torture of Rev. O. D. Moore, pastor of the Baptist church, of Harpersville, N. Y., will interest you. He says: "I suffered agonies, because of a persistent cough, resulting from the grip. I had to sleep sitting up in bed. I tried many remedies, without relief, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which entirely cured my cough, and saved me from consumption." A grand cure for diseased conditions of Throat and Lungs. At E. H. Miller's, druggist; price 50c. and \$1.00, guaranteed. Trial bottle free.

The Wabash Coming.

A small army of engineers has been on a "forced march" up the Yough and Casselman valleys for several weeks past, running lines of survey, but for whom and what, has been the question of the hour. By some it was claimed to be the P. & L. E., intending to extend its lines from New Haven eastward. Our first reliable information as to identity of the work, was in the fact that certain supplies were furnished by the Western Md. Ry., which, of course, is a Wabash property, which convinced us that the work here is in the interest of the Wabash. That information we obtained several weeks ago. Since then the Western Md. has bought the George's Creek Ry., which connects it with Frostburg, and the engineers who ran the survey eastward from here, moved a few days ago from Confluence to Mt. Savage, which is about 12 miles air line from Meyersdale. It is a very practical, comparatively easy, and shorter route, thus to follow up the Yough and Casselman to Meyersdale, and thence to where the George's Creek is reached, than any other route thinkable. Surely it is only a question of time when some corporation will cover that route, whatever may be the purpose of the present surveys.—Turkeyfoot News.

GIVE YOUR STOMACH REST.

Nothing will cure indigestion that doesn't digest the food itself, and give the stomach rest. You can't expect that a weak stomach will regain its strength and get well when it is compelled to do the full work that a sound stomach should do. You wouldn't expect a sick horse to get well when it is compelled to do a full day's work every day of the week. Kodol Dyspepsia Cure is a perfect digestant and digests the food regardless of the condition of your stomach. Relieves indigestion, Belching, Sour Stomach, and all stomach disorders. Sold by E. H. Miller.

Sam Kimmel Heard From—Heading for a New Gold Field.

Under date of Dec. 23d, our friend Sam Kimmel wrote to THE STAR as follows, from Ogden, Utah:

"I expect to locate in the vicinity of Ely, Nevada. Left Roosevelt, Idaho, on the 12th. Ely is a camp just coming into prominence. A great boom is expected the coming summer. The Nevada Northern is headed for the camp; 20 miles of track is laid and 70 miles of grading done. The new camp at present is 150 miles from railroad. I want to head this boom off and try my luck there.
I wish all a merry Christmas and a happy and prosperous New Year."

THE SEASON OF INDIGESTION.

The season of indigestion is upon us. Kodol Dyspepsia Cure for Indigestion and Dyspepsia will do everything for the stomach that an over-loaded or over-worked stomach can not do for itself. Kodol Digests what you eat—gives the stomach a rest—relieves sour stomach, belching, heart-burn, indigestion, etc. Sold by E. H. Miller. 1-1

Right to Lien is Void.

Judge Porter, of New Castle, has decided that a railroad cannot hold or take a lien on merchandise for non-payment of demurrage for car service after 48 hours, holding that the right to a lien ceases when the cars are delivered on a siding or main track. The road can only recover as a common debt. The decision was made in the case of Wallace Bros., lumber dealers, who enjoined the Baltimore and Ohio railroad from retaining merchandise for demurrage.

Judge Porter said the question has been decided in other states, but never before in Pennsylvania.

PT. ARTHUR'S FLOATING MINES.

A Menace to Navigation—Many Exploded by Shots.
Floating mines from Port Arthur continue a menace to navigation. The Hinch, from Tientsin reports sighting one of these drifting dangers. The engines were stopped for upward of an hour; the captain and officers endeavored to explode it by means of rifle shots. The firing proving ineffectual, a boat was lowered in charge of Mr. Miller, the chief officer who placed the mine in tow, but after towing for two hours it exploded with a terrific report. Capt. Pratt of the steamer Yushun reports a floating mine which was exploded at 100 yards' range. This is thought a safe distance. The only thing to be careful of is to have sufficient overhead covering as a protection against falling fragments. The steamer Kumpung reports sighting a large spiked mine twenty-three miles from Howski island. Rifle shots were fired at it, and the mine exploded, several fragments of it falling upon the deck of the vessel.—Pekin Times.

The Pope's Income.

It is impossible to fix the exact income of the pope, because the sources by which his settled income is largely augmented are subject to great fluctuation. Such is the annual subsidy called "Peter's Pence," and the innumerable thank-offerings which he receives every year from all parts of the world. It is thought probable by authorities who have the best means of judging that, taking one year with another, the average annual income of the pope cannot fall short of £600,000.—Exchange.

Radium for Snake Bite.

It is worth noting that the recently reported "cure for rattlesnake venom" was based on a communication to the French Academy, announcing that snake venom exposed to the action of radium rays for fifty or sixty hours, loses its virulence. As snake bite produces its poisonous effects on man in from five minutes to an hour, the practical application of the fifty or sixty hour radium treatment is somewhat remote.

Chinese and Electricity.

As the completion of the electric tramway draws near, the rumors among ignorant natives grow apace. The latest is that 500 Chinese heads must be procured and buried under the power house before the "kreta hantu" can start running. In consequence of this "riksha coolies" refuse to take fares into the country districts at night.—Free Press, Singapore.

Social Make Believe.

There is an element of the nursery in the diversions of society. They go to Cowes and play at being sailors, having never been at sea except on a Channel steamer; they go to Ascot and play at being turfites; they go to the Opera and play at being musical critics; they go to salons and play at being politicians.—The London World.

Diamonds and Lead Poisoning.

In order to reduce the danger of lead poisoning, to which diamond-cutters are now subjected because of the alloy of lead and tin used for holding the diamonds during the cutting process, the Dutch government has offered a prize of £6,000 for a satisfactory substitute to be used instead of this alloy.

The Latest Submarine.

The latest style of submarine boat with which experiments are being made is a little English midget thirty-four feet long, armed with two torpedo tubes and carrying a crew of three men. It can be transported on a railroad truck, or hoisted over the side of a battleship with the greatest ease.

A Costly Uniform.

The most costly uniform in England is worn by the Earl Marshal, whose dress represents an outlay of \$1,250, not including jewels or ornaments. Seventeen thousand yards of embroidery are worked upon the coat in gold lace until but little of the original cloth may be seen.

An Electric Sprinkler.

The city of Hartford, Conn., has the distinction of being the first to use an electric street sprinkler. The water tank resembles that of an ordinary horse drawn street sprinkler, but the vehicle is driven by a storage battery, and is able to cover in a day twice the ground covered by a sprinkler drawn by a team of horses.—Exchange.

No Listeners.

One of the chief causes of the dullness of life is the inability to listen which you find in nine people out of ten. The extraordinary selfishness at the root of this defect is a shock to the optimist who is anxious to think well of human nature.—The Lady.

In the House of Commons.

In the British House of Commons is a red line between the benches and the matting on the floor, which no member may overstep in speaking. This line is a relic of the days when members wore swords and could not be trusted without lunging distance of the other side.

Weight of the World.

The present weight of the world is estimated at 6,666,350,000,000,000,000 tons. If the weight of the atmosphere is added to this we have a grand total of 6,666,355,519,800,000,000,000 tons.

DECADENCE OF CHEWING.

Dealer Attributes the Falling Off to War on Spitters.

"The crusade against expectorating in public places has cut into the tobacco business," said a dealer to a customer. "Some years ago I kept a tobacco cutter on my counter and a boy was so engaged in cutting plugs for the customers that he had little time for anything else.
"Now we cut up a few plugs in the regulation size and put them in a canister. Twenty-five cuts will last several days where we used to sell that many in a half day. However, what we have lost in that way is more than offset by sales of cigars and cigarettes and smoking tobacco.
"The war on spitters has stopped all that."

Largest Map in the World.

The largest map in the world is the ordnance survey map of England containing 108,000 streets, and costing \$1,000,000 a year for twenty years. The scale varies from ten feet to one-eighth of an inch to the mile. The details are so minute that maps having a scale of twenty-five inches show every hedge, fence, wall, building and even every isolated tree in the country.

Curing Facial Defects.

Professor Lassar, a famous Berlin skin specialist, has found means to restore red noses to their normal color and size. An instrument, shaped like a large tooth brush, with forty platinum wires instead of bristles is used, and this is connected with an electrical machine. The treatment consists of hammering the lurid nose till it bleeds, when the treatment is stopped for a day.

Wives Bought by the Foot.

The Chinese purchase wives by the foot, but the smaller the measurement the greater the cost. When a Chinaman of the wealthier class desires to marry he sends around for samples, and finally selects a foot that suits him and is within the reach of his purse. A difference of an inch or so in the length may make a difference of several thousand dollars.

Post Cards in Battle.

Before going into action each Japanese soldier fastens to his coat a special post card provided by the government announcing the fact of his death and addressed to the person he desires notified.

Shoddy British Lords.

The noblemen of England have queer ways of changing their names. The original cognomen of the Duke of Northumberland was Smithson, the assumed name of the family Percy; the Marquis of Lansdowne was Petty and afterward Fitzmaurice; the Marquis of Inglesey was Bayley, then Paget; Marquis Cotyng-ham was a Burton; Lord Vestry was a Moleys; Marquis of Tullibardine was a Murray, etc.

An Island of 169 Inhabitants.

Pitcairn Island is a lonely little spot of land in the southern Pacific. It has 169 inhabitants. Their only link with the outside world is a cutter of fourteen tons, which, with luck, gets to a neighboring island now and then, whence about four times a year communication may be established with Tahiti.

Revival of an Old Custom.

Showers of rose leaves figured in a recent English wedding instead of the usual rice and confetti! The old Romans made considerable use of rose leaves both at feasts and dramatic performances. They used them also as perfumes to saturate and refresh the air.

Chinese Temples for Schools.

The imperial decree regarding the appropriation of temples for schools, says the Shanghai North China Herald, is being carried out in Anhui. At Luchoufu, four very large images, servants to the god of Literature, have been torn down to make room for little Chinese boys to study English.

Value of One Fir Tree.

A fir tree has been cut in Oregon recently, which made nine sawlogs averaging 14 feet in length, scaling 11,435 feet board measure. The product of this one tree will bring more than \$1,000.

Rojestrensky's Salary.

"You cannot always judge a man's brains by his salary," said Arnold White, lecturing to workmen in London recently. "Togo gets \$48 a year, while Admiral Rojestrensky's salary is \$11,000."

Sunday Sport in Hawaii.

The Hawaiian legislature has passed over the governor's veto a law allowing baseball and similar amusements on Sunday and permitting cigar and many other stores to remain open on that day.

Small Towns Decreasing.

Returns from the Massachusetts State census show a decrease in the population of the small towns since the census of 1895. Returns have been received from ninety-one small towns, showing a decrease of nearly 5 per cent.

THE ROCK OF GIBRALTAR.

A Source of Contentment Among Nations During All Ages.

Although the rock itself is less than three miles long, three quarters of a mile wide and 1,429 feet high, it has been the bone of contention among all nations during all ages. In less than 470 years fourteen sieges occurred upon its surface, one being of nearly four years' duration. During these years of deadly strife Moslem fought Christian, and Christian fought Moslem, the Spaniards finally conquering it in 1500. It remained in their possession for nearly 200 years, when an English fleet, not desiring to return home without a prize, surprised the fort and captured it. From that day (1704) on it has remained under the English crown, growing stronger and more powerful each year. Many attempts have been made to regain it, but without success.—Era Magazine.

Alfonso's Favorite Author.

King Alfonso has a fair claim to be regarded as the best educated of our crowned heads. He is a linguist, being familiar with French, Italian, German, and English. He never travels without Goethe, Schiller, and the Austrian poet Grillparzer, whose name will be new to most people. Of the ancient classics King Alfonso prefers Horace, many of whose odes he has translated into Spanish. Moreover, he reveals in mathematics and history, and adores drawing.—London Chronicle.

Fish by the Billion.

One no longer speaks of hatching thousands of young fish by artificial means but of millions and hundreds of millions. The number of eggs, fry, fingerlings and adult fish distributed by the United States Bureau of Fisheries in one year aggregated 1,500,000,000. That these fisheries are industries to-day, is due entirely to artificial propagation.

Empress of Japan's Pipe.

A silver tobacco pipe with the stem ten inches long is used by the Empress of Japan. The bowl is small; in fact, only a quantity of tobacco sufficient to give the smoker two or three whiffs can be put into it, then the ashes are knocked out and the pipe is carefully cleaned before it is refilled—a process gone through many times in the course of an afternoon.

Model Train Wreck.

In a train wreck on the Missouri Pacific Railway every car except one went into the ditch at the side of the track but not a person on the train was seriously injured. The train was running at twenty-five miles an hour, yet not a car was damaged by the sudden stopping. The cars were new and heavy and of firm steel framework.

Cemetery Censors.

Large cemeteries have a censor who prevents the erection within them of tombstones with unseemly inscriptions upon them. Atheists sometimes direct in their wills that shocking blasphemous be carved on their monuments. The censor, however, sees to it that these blasphemies do not disfigure the cemetery.

Methodist Progress.

We record with sincere delight and thankfulness that the Wesleyan Methodist Church reports the largest increase in her membership for more than twenty years. The progress which shows that there are nearly 27,000 more in the church than a year ago, is largely due to the revival in Wales.—British Weekly.

The King Edward Coin.

Of late quite a number of natives of West Africa have practically refused to accept any other coin than that having the profile of King Edward engraved upon it. They have an idea that now Queen Victoria is dead the British government may repudiate coins bearing her image.

A Whistle For Use in War.

A doctor in the Japanese Red Cross service has invented a whistle which emits a very loud sound with a very slight expenditure of breath. It is for the use of soldiers when they are wounded and desire to attract attention. It can also replace the identification tag.

Hypnotism and Crime.

A Boston scientist says that the best hypnotist in the world cannot make a really moral person do wrong. From experiments he has made he believes that 75 per cent. of the human race, if unrestrained by family pride and other like considerations, would steal.

Russians Not Ornel.

A Moscow writer, J. Novcov, says that Russians are among the least cruel peoples of Europe, instancing in proof that no popular sports of a brutal character, such as cock fights, even boxing or pugilism, are ever observed among them; much less is lynch law to be met with.

Women as Porters.

The porters who carry the baggage of tourists on the island of Capri are mostly women. The men are busy as fishers, coachmen, cobblers and coral sellers.

Cost of War.

Russia's little dispute with Japan cost her about \$7,600,000 a week.
