handling the stock.

Two common factors to interfere with the success of the college cooperative store are a lack of capital and the united opposition of the resident tradesmen, who more than once have combined to sell below cost to wipe out the venture of the students. This object attained, the prices go up again.

and the united opposition of the resident tradesmen, who more than once have combined to sell below cost to wipe out the venture of the students. This object attained, the prices go up again.

Adequate capital does not mean always a great sum of money. A rich man would consider the \$800 that sed in motion the University of Michigan's co-operative store a bagastele, yet in the first year the sales were \$8.000 that the co-operative store a bagastele, yet in the first year the sales were \$8.000 and in the fifth, \$30,000. Each year a rebate of 10 percent has been paid to the members on their purchases, and made possible the start of this. The store handles books, stationery, drawing supplies and athletic goods. Eight professors advanced \$500 each store in 1899. The university furnished a room, with heat and light, free of charge.

There was a dividend the first year and the mency lent was paid back. Since then the store has been absolutely owned by the students.

Shares are sold at \$1 each, a share entitling the purchaser to a yearly relate on goods bought by him during his course at the Michigan university. The management is under the supervision of nine directors, five from the faculty and four students. The term of each is three years, and three members are elected each year at a meeting of the shareholders.

Harvard's co-operative score to be start of this consideration and the money in the students.

The directors believe that the college co-operative store is hetefare of every of mediant to the welfare of every college and large preparatory score as in many industries, but the furture contains an element of disturbance or contains an element of disturbance of every college and large preparatory score every college and large preparatory score at the mediant conjugation and such that the co-operative store is the chird and surface operative store is the third contains an element of disturbance of the universe to the start of the co-operative store is the third college co-operative store is the third and and pre

ed a room, with heat and light, free of charge.

Shares are sold at \$1 each, a share entitiling the purchaser to a yearly rebate on goods bought by him during his course at the Michigan university. The management is under the supervision of nine directors, five from the faculty and four students. The term of each is three years, and three members are elected each year at a meeting of the shareholders.

Harvard's co-operative society began in a small way in 1882. It has attained a yearly membership of 3,000 and does a business of \$200,000.

It is conducted by officers and students of Harvard University for the benefit of the student body, and conducts a store with a service of the college does a business of \$200,000.

It is conducted by officers and students of Harvard University for the benefit of the student body, and conducts a store with a service of the student of the studen

ily. In 1895-96 the sales were \$32,136; in 1900-01, \$48,362, and in 1904-05 \$60,504.

\$60,504. A work of general good to the student body done by the co-operative stores, it is declared, is that the competition keeps down the prices of coal tradesmen. The tradesmen in the small places wage a vigorous war against the co-operative stores and when the latter are not well supplied with capital they have sometimes had to suspend.

The "co-op" stores are always run by students and their establishment has led to more than one vigorous clash between the town and gown. The local tradesmen, while complaining against cut prices, do not make a special campaign against co-operative stores in the larger college towns, but do their best to get a share of the college trade by offering special inducements in lines of goods on which they have no

lines of goods on which they have no opposition.

The lack of capital has militated against the development of co-operative stores at some of the smaller colleges, and at the large colleges there has been difficulty in disposing of stock no longer in demand through some whim of the season or because shopworn. To meet both difficulties an organization has been brought into the field to furnish the needed funds and establish commercial relations for college co-operative societies, and by finding buyers the smaller colleges relieve the large co-operative stores

COLLEGE CO-OPERATION. from any congestion of old or damaged stock.

COLLEGE CO-OPERATION.

LIKED BY THE STUDENTS, BUT
NOT BY LOCAL TRADESMEN.

Harvard Has the Biggest Store, With Annual Sales of \$300,000. —A Chain of Stores Planned to Take in Many Colleges. — Prices Lower Than in Shops.

College co-operative stores have been tried with some success. They are managed by professors and students, who divide any surplus at the end of the year among the members, who are also the customers. The goods are sold at cost, plus an amount sufficient to cover the expense of moving and handling the stock.

Two common factors to interfere with the success of the college cooperative store are a lack of capital and the united opposition of the resident tradesmen, who more than once have combined to sell below cost to wipe out the venture of the students.

It is conducted by officers and students of Harvard University for the benefit of the student body, and conducts a store with departments for the sale of books, stationery, men's furnishings, sporting and athletic goods, furniture, clothing, coal and wood. There is also a laundry.

In the twenty-four years of its existence the society has paid more than \$100,000 in dividends. The annual membership fee is \$1. Members receive a dividend each year, based on the amount of their purchases.

Members of Harvard University, Radeliffe College and the Episcopal Theological school are eligible for membership. Graduates are also eligible, even if they do not live at Cambridge, although the first object is to reduce the cost of living at the university by affording extra racilities for the purchase of all kinds of students' supplies.

There has been a co-operative store at Yale since 1885, but for the first five years only members — that is, ticket holders—could buy at it. In 1890-91 this restriction became a dead letter and the stock was held open to all.

Two prices were marked on the goods, that for non-members being the current price in the New Haven stores, and the other price as much less as the co-operative could afford. The difference was from 5 to 25 percent. The supplies cach year is added to the capital, so that the stock now inventories about \$20,000 of salable merchandise.

Members do not receive dividends at Yale, but they buy cheaper than the Harvard "co-ops." The present membership is 1,400 and the tickets cost two dollars.

In the first college year the sales amounted to \$1,545. The second year they jumped to \$7,633, and with the cost two dollars.

In the first college year the sales amounted to \$1,545. The second year they jumped to \$7,633, and with the withdrawal of the restrictions against non-members the receipts increased to \$17,510. The business grows steadily. In 1895-96 the sales were \$32,185.

Continuing her journey north, she will go along the coast of Siberia, and stop at the Aleutian Islands, after which Alaskan waters will be entered, a visit being made to Sitka. The Galilee will then start on her homeward lap to San Diego.

ward tap to san Diego.

Two comparatively short experimental trips have already been made by the Galilee. After the various necessary alterations — substitution of the steel rigging by hemp rigging—had been made, the vessel entered upon her duties early in last August. It is believed that the survey of the entire North Pacific Ocean can be completed in three years. The total completed in three years. The total length of the course marked out is 70,000 knots. Counting eight months of continuous service per annum, the annual outlay for this work is about

DUN'S WEEKLY SUMMARY

Record-Breaking Year in Building Expected-Manufacturing Plants are Not Reducing Their Output.

Trade reports are still somewhat irregular, owing to the widely differing weather conditions, and uneasiness regarding the labor situation. In some sections of the country spring trade is facilitated by satisfactory-temperature, but at other points cold and storms retard distribution of seasonable merchandise.

Manufacturing plants are not re-

ducing output, statistics for March promising to establish new maximum records in many industries, but the future contains an element of dis-

The Earl of Halsbury, who on the change of minis ry resigned the chancellorship of England, retires at the advanced age of 80 years on a pension of \$25,000, after he had received in 16 years \$1,000,000 in salary.

## Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegstable Compound

curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have been cured trained nurses who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to see that I have fould be the Bright of Park I have I refer to great pleasure to see that I

Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe to in my practice for female difficulties.

"My oldest daughter found it very beneficial fora formale trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with pain-

The Earl of Huisbury, who on the change of minis ary resigned the change of \$25.000, after he had received in 16 years \$1,000,000 in salary.

With Irritating Skin Rumor—Hair Began to fall Out—Wonderful Result From Cutieura Remedies.

"About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that wher recommended for skin humors, but I became worse all the time. My hair began to fall out and my scaip itched all the time. Especially at night, just as soon as I would get in the intention of the perfore I could not rest night or day. A first and then apply the Cutieura Remedies, and I did, and it was not long before I could not rest night or day. A first and then apply the Cutieura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cutieura Ointment to my whole body, and I kept getting better, and by the time I used four boxes of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I was entirely cured and my hair solves of Cutieura I w

Why He Passed the Bishop.

Bishop Kemper of Kansas was the victim of a hold-up one night when he was the only passenger. The driver told the road agent, who had covered him with a six-shooter, that his only passenger was a bishop. "Well," said the robber, "wake up the old man. I want to go through his pockets." When the bishop was aroused from a sound slumber and realized the stination, he gently remonstrated with the men behind the gun. He said: "Surely you would not rob a poor bishop. I have no money worth your while, and I am engaged in the discharge of my sacred duties." "Did you say you were a bishop?" asked the road agent, "Yes; just a poor bishop," "What church?" "The Episcopal church." "The hell you are! Why, that's the church I belong to. Driver, you may pass on."—Harper's Magazine."
