My Hair is Scraggly

Do you like it? Then why be contented with it? Have to be? Oh, no! Just put on Ayer's Hair Vigor and have long, thick hair; soft, even hair; beautiful hair, without a single gray line in it. Have a little pride. Keep young just as long as you can.

"I am fifty-seven years old, and until recently my hair was very gray. But in a few weeks Ayer's Hair Vigor restored the natural color to my hair, so now there is not a gray hair to be seen."—J. W. HANSON, Boulder Creek, Cal.

The B. & O. is buying cars by the mile and locomotives by the acre. The management is evidently preparing since its retirement from the coal business, to give every coal operator and shipper the square deal in the matter of cars and movements, says the Connellsville Courier.

The Pittsburg firm who have made a proposition to erect a nail and tack factory at Friendsville, Md., were at Friendsville for several days, last week, looking over the ground and talking the matter up with the local capital interested. Cherries dried by Mrs. Samuel Kaufman, 52 years ago, are now being used in the making of pies that are as delicious as though the fruit were of but a season's growth. Those who have tasted the pies say the cherries are reminders of the patient work done by housewives half a century ago, when fruit was dried and preserved and not canned until cured.—Johnstown Tribune.

A liquid cold cure for children that is pleasant, harmless, and effective is Bee's Laxative Honey and Tar. Superior to all other cough syrups or cold remedies because it acts on the bowels. According to apparently well-founded rumors, the Confluence & Oakland branch of the B. & O. railroad will be extended to Oakland in the near future. New mines are being opened in the vicinity of Friendsville, by the Penn-Garrett Coal Mining Co., and it is said that the coal company will ar-

range for the extension of the C. & O. to Oakland. At the present time the road stops about 10 miles north of Oakland.

DR. J. A. THORN makes all examinations of the eye in a modern dark room, with electrical instruments. Perfect vision guaranteed. Crossed eyes straightened without operation.

As soon as space will permit, THE STAR will print a most excellent account of the recent great earthquake and fire that assailed San Francisco out of existence. The write-up is from the able pen of our brother W. S. Livengood, who, with his wife and daughter, were in the stricken city at the time of the great quake and fire. The account is very thrilling and full of interest, and will be a continued story through two or three issues of THE STAR, beginning May 31st. Everybody who ever knew W. S. will want to read it, and those who are not subscribers of THE STAR can be supplied with extra copies containing the earthquake article, provided they place their orders at THE STAR office on or before Thursday, May 24th. Orders must be accompanied by 5 cents per copy, for as many papers as are wanted. W. S. and family are now located in Portland, Oregon, where William has a fine position with the Portland Daily Journal. On June 1st, however, he will accept a still better position with the Seattle Post Intelligencer.

The tar that is contained in Bee's Laxative Honey and Tar is harmless. It is not coal tar, but is obtained from the pine trees of our own native forests. Bee's Laxative Honey and Tar is the best remedy for colds because it acts on the bowels—thus expelling all colds from the system. Bee's is the original Laxative Honey and Tar, and is best for coughs, colds, croup, whooping cough, lung and bronchial affections. Sold by Elk Lick Pharmacy. 6-1

More Money for Undertakers.

At the regular meeting of the Directors of the Poor, held May 1st, 1906, the board decided to pay all undertakers in the county the sum of \$12.00 for the burial of pauper. The amount heretofore paid has been but \$9.00 in such cases. Frequent complaints have been made from all sections of the county that the amount allowed was insufficient to cover the actual cost of material. In several of the adjoining counties the poor boards are paying \$12.00 for similar services, and the action of the board has been taken with a view to conform to the custom in other counties, as well as for the reason that the expense incident to such burials has largely increased within the last few years.

A dose of Pine-ules at bed time will usually relieve backache, before morning. These beautiful little globules are soft gelatine coated, and when moistened and placed in the mouth you can't keep from swallowing them. Pine-ules contain neither sugar nor alcohol—just gums and resins obtained from our own native pine forests, combined with other well known bladder, kidney, blood and backache remedies. Sold by Elk Lick Pharmacy. 6-1

Rare Incident of Charity.

Not alone in contribution of money and supplies are the people of this country extending sympathy and assistance to impoverished people of San Francisco. The helping hand reaches out from all lines of business. An instance of the help that is being extended in the way of credit is shown by a letter from a large concern in Philadelphia to its customers in San Francisco, which reads as follows: "We figure a manufacturing profit of ten per cent on our goods. On all orders you send, please deduct this ten per cent. We will not take one cent of profit until you are fully repaid. Also please note that our ordinary ninety days' credit is extended to two months, and if that is not sufficient make it two hundred. Incidentally we note that all orders sent you since February 1 are standing on our book against you. We presume your books have been destroyed. Let us assure you that so far as any charge against your firm is concerned, our books also have been destroyed."

A GOOD COMPLEXION.

A good complexion is impossible with the stomach out of order. If pasty, sallow people would pay more attention to their stomachs and less to the skin on their faces, they would have better complexions. KODOL FOR DYSPEPSIA will digest what you eat and put your stomach back in right shape to do its own work. Kodol relieves palpitation of the heart, flatulence, sour stomach, heart burn, etc. Sold by E. H. Miller. 6-1

GOOD ADVICE TO STRIKERS.

Advice coming from the coal miners' own official newspaper, says the Uniontown News Standard, ought to be accepted at least as being offered in a friendly spirit to the miners. If that paper does not have at heart the good of the strikers, where can such friendly publication be found?

In a recent issue of the United Mine Workers' Journal, the official organ of the United Mine Workers of America, these sober words were prominently displayed:

"As a final word The Journal would entreat and abjure our brethren to abstain from anything that could be even remotely termed an overt act. Stay at home, avoid all crowds and all discussions, listen to no inflammatory nor insidious appeals to violence. In a word, be good, orderly American citizens, worthy of your country, your cause and your organization. Let no hiring or thing excite you to reprisals."

We agree with the Uniontown News Standard, that if this advice were faithfully followed, the thought of a coal strike would not carry with it visions of lawlessness, violence, sometimes arson and bloodshed. The contest, if it must be waged by strike, would be conducted free from the scenes which inflame the public mind, endanger life and property, and keep the country in turmoil and confusion.

The strikers should heed the advice of their own newspaper organ, and thus preserve the public peace and have a better show of winning their contentions, says the Uniontown paper, and that has always been our doctrine.

DR. J. A. THORN, an eye-sight specialist of some note, from New York City, who has an office during the summer in Oakland, Md., will be at Salisbury from May 23rd to June 2nd. Perfect vision guaranteed. Scientific examination free.

"A CORNER IN CONGRESS."

Under the above head the Meyersdale Republican publishes the following article in its editorial columns, which we reprint as a source of information to those who do not favor all the high honors going to citizens of the county seat town, and especially being handed down in one family from generation to generation, but who believe that citizens of other parts of the county and persons other than those of the Ogle connection being honored:

The announcement of John G. Ogle, Esq., as a candidate for Congress, impresses the public mind with the frequency with which the Ogle family has enjoyed the honor and the emoluments of this very important and lucrative office.

Since the organization of the county in 1795 it has had nine resident Congressmen, to-wit:

1st. Alexander Ogle, of Somerset borough, grand father of John G. Ogle, one term.

2nd. Robert Philson, of Berlin, one term.

3rd. Chauncey Forward, of Somerset borough, grand father of John G. Ogle, three terms.

4th. Charles Ogle, of Somerset borough, uncle of John G. Ogle, elected for three terms.

5th. A. J. Ogle, of Somerset borough, father of John G. Ogle, one term.

6th. Col. John R. Edie, of Somerset borough, two terms.

7th. A. H. Goffroth, of Somerset borough, two terms.

8th. W. H. Koontz, of Somerset borough, cousin of John G. Ogle, two terms.

9th. Edward Scull, of Somerset borough, uncle of John G. Ogle, three terms.

It will be observed that eight of the nine Congressmen have been residents of Somerset borough, and that not for eighty-four years (not since 1821) have any of the other districts had a Congressman. It is not high time that some other district besides Somerset borough be given the Congressman? Hasn't Somerset borough had enough?

And again, it will be noticed of the thirty-six years that the nine men above named were elected; twenty-six years thereof, were enjoyed by Mr. John G. Ogle's relatives. It is not high time that some other family than the Ogle's be placed in Congress? Have they not had enough, and do not the people of Somerset county who believe in fair play, and a "square deal for every man" think that this honor should go to Mr. Ogle's opponent, Hon. E. D. Miller, of Rockwood, and thus frustrate the plan of certain Somerset politicians of keeping one family in office forever? His father, his grandfather, and his great-grandfather (three generations), his two uncles and a cousin, have already held it, now let's have some one else.

The people of Somerset county cannot be made to believe they live in some foreign and despotic country where the right to office is hereditary, and for that reason will cast their votes for Hon. E. D. Miller, of Rockwood, and break up this "one-family-in-Congress-forever" idea.

It must further be observed that John G. Ogle's relatives have not only cornered the office of Congressman, but that they have more effectively maintained a corner on the resident Judgeship. Somerset county has had only four President Judges, viz: Hon. Jeremiah S. Black, uncle of John G. Ogle; Hon. Frank M. Kimmel, uncle of John G. Ogle; Hon. Wm. J. Baer, father-in-law of John G. Ogle, and Hon. Francis J. Kooser, brother-in-law of John G. Ogle. Verily, is it not well for the voters of Somerset county to call a halt on the Ogle family?

FORTUNATE MISSOURIANS.

"When I was a druggist, at Livonia, Mo., writes T. J. Dwyer, now of Graysville, Mo., "three of my customers were permanently cured of consumption by Dr. King's New Discovery, and are well and strong today. One was trying to sell his property and move to Arizona, but after using New Discovery a short time he found it unnecessary to do so. I regard Dr. King's New Discovery as the most wonderful medicine in existence." Surest Cough and Cold cure and Throat and Lung healer. Guaranteed by E. H. Miller, druggist, 50c. and \$1.
