

"IT SAVED MY LIFE"

PRaise FOR A FAMOUS MEDICINE

Mrs. Willadsen Tells How She Tried Lydia E. Pinkham's Vegetable Compound Just in Time.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham: Dear Mrs. Pinkham:—

"Before I wrote to you, telling you how I felt, I had doctored for over two years steady and spent lots of money on medicines besides, but it all failed to help me. My monthly periods had ceased and I suffered much pain, with fainting spells, headache, backache and bearing-down pains, and I was so weak I could hardly keep around. As a last resort I decided to write you and try Lydia E. Pinkham's Vegetable Compound, and I am so thankful that I did, for after following your instructions, which you sent me free of all charge, I became regular and in perfect health. Had it not been for you I would be in my grave to-day.

"I sincerely trust that this letter may lead every suffering woman in the country to write you for help as I did."

When women are troubled with irregular or painful periods, weakness, displacement or ulceration of an organ, that bearing-down feeling, inflammation, backache, flatulence, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. Refuse all substitutes.

For 25 years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge. Address, Lynn, Mass.

Tramps Welcomed in Delaware. Delaware is the only State in the Union that welcomes tramps. Advice received recently from Sussex county state that hoboes are arriving in droves from all parts of the country preparatory to picking fruit. So badly do the fruit growers and farmers in general need help to gather their crops that many of them are actually helping the tramps build wigwams in order that they will be comfortable and not seek pastures new.

In some cases these temporary houses are being built on the farms. Labor is very scarce in lower Delaware and the negro is unreliable, thus compelling the farmers to encourage the influx of hoboes. In view of the expected large fruit crop the welcome to tramps will extend throughout the State. Merchants in the various towns are laying in large stocks to feed the newcomers.—Baltimore Sun.

English Divorce Cases. Petitions for dissolution of marriage decreased from 824 in 1903 to 720 in 1904, but those for judicial separation rose from 90 to 102. Five hundred and eighteen decrees nisi were made absolute in dissolution cases of the 634 that were granted, and in 10 where a decree of nullity was sought. In 31 cases the King's Proctor intervened, and 7,763 separation orders were made by magistrates, against 7,222 in the preceding year. Of 887 petitions in 267 the parties had been married five years and less than 10 years, while in 237 the duration of marriage was between 10 and 20 years.—Law Times.

CLEVER DOCTOR Cured a 20 Years' Trouble Without Any Medicine. A wise Indiana physician cured 20 years' stomach disease without any medicine, as his patient tells: "I had stomach trouble for 20 years, tried allopathic medicines, patent medicines and all the simple remedies suggested by my friends, but grew worse all the time.

"Finally a doctor who is the most prominent physician in this part of the State told me medicine would do me no good only irritating my stomach and making it worse—that I must look to diet and quit drinking coffee.

"I cried out in alarm, 'Quit drinking coffee?' why, 'What will I drink?'" "Try Postum," said the doctor; "I drink it and you will like it when it is made according to directions, with cream, for it is delicious and has none of the bad effects coffee has."

"Well, that was two years ago, and I am still drinking Postum. My stomach is right again and I know Doctor hit the nail on the head when he decided coffee was the cause of all my trouble. I only wish I had quit it years ago and drank Postum in its place." Name given by Postum Co., Battle Creek, Mich.

Never too late to mend. Ten days' trial of Postum in place of coffee works wonders. There's a reason. Look in pkgs. for the famous little book, "The Road to Wellville."

EGGS ARE CUPID'S MESSENGERS.

Western Girls Write Names on 'Em and Invite Correspondence. Perhaps the queerest way of advertising for matrimonial purposes is that of placing names and addresses on eggs. During each year there are upwards of 500,000 cases of eggs received in Denver from Kansas, Nebraska, Oklahoma, Texas and Colorado points, and it is safe to say that 25,000 names and addresses of women and men with matrimonial intentions are found in the cases.

Kansas holds the record for having the most eligibles. Hardly a case of eggs received from Kansas but has from one to a dozen names of young women desirous of corresponding with matrimonial intentions.

The system is widely known to men in the produce business and to mountaineers. Young women in the rural districts write their name and address on the egg. They request the finder to write them. The eggs are received in Denver, packed and shipped to the grocery, in which way the eggs pass through dozens of different hands. As soon as an egg bearing a name is found many take it upon themselves to answer.

Those who are out for fun can get all they want and many of the commission men make considerable sport of it. One fellow answered a young woman at Berthoud, Col. The man who did the writing is about 6 feet 2 inches tall and weighs about 120 pounds. He is 40 years old, but this is the way he described himself: "I am 23 years old, weigh 145 pounds, 5 feet ten inches in height, dark brown hair, black eyes. I am single and never wore a mustache. I have two suits of clothing and a trunk large enough to hold a dozen."

The answer came by return mail. This is the way the girl described herself: "I am 17 years old, weigh 165 pounds, 5 feet tall, light hair and blue eyes." She expressed herself as being glad to have made his acquaintance.

Several letters passed between them, when the commission man got curious to know who it was that wrote the address for her. He asked her in one of his letters, and she frankly told him that it was her father.

Fearing entanglements or a breach of promise suit, he closed the correspondence.—Denver correspondence in the Kansas City Post.

Artificial Florist.

Perhaps the art of the artificial florist of today should be looked upon as a separate study, so varied and ingenious are the different kinds of blossoms he brings forth unblushingly and places side by side with nature's own. Roses in shaded tawetas, blue, green, and that deep crimson merging into black with wonderful effects in midwived foliage, touch a delightful chord of color on a white evening gown. Then, again, it would almost seem as if some fairy had been busy overnight amongst our Dresden china and stripped each vase and bowl of all its garlands, so perfectly has the florist imitated their dainty coloring and delicate outlines. Charming too, are the later developments of the lace berthe or corsage drapery sewn with separate blossoms. Daisies the actual size of the gold-eyed beauties that overrun the fields, roses tinier than bankias, and, most original of all perhaps, trails of wild convolvulus in delicate pink and lilac have all been tried with marked success.—Philadelphia Record.

FINANCE AND TRADE REVIEW

SUCCESSFUL YEAR CLOSED

Crops Making Good Progress and All Trade Conditions Denote Prosperity.

R. G. Dun & Co.'s weekly review of trade says: "The last day of June closes the most successful fiscal year in the Nation's history thus far, and optimism is so general throughout the commercial world that the next 12 months period promises to carry the high-water mark still higher. With a few exceptions the crops are making good progress, and the new year will start with more business on the books of manufacturing concerns and greater enterprises and undertakings in contemplation than on any previous July 1.

"Scarcely any labor struggles of importance exist, and there is no inflation of securities through speculative operations with borrowed money. These are some of the reasons for confidence in the future.

"Trade reports for the week indicate a seasonable disposition to curtail wholesale business, but even this summer influence is less disquieting than usual. More new contracts have been signed by which wages will be increased, and the pending dispute at textile mills promises amicable settlement.

"Railway earnings in three weeks of June were 10.3 per cent larger than in 1905, and disbursements for interest and dividends at this center next month are estimated at \$160,000,000, which is about \$20,000,000 larger than a year ago. One of the few adverse reports of the week is the delay in rebuilding San Francisco by the high price of labor and the tardiness of some insurance settlements. Foreign commerce at this port for the last week shows gains of \$3,722,441 in imports and \$1,249,145 in exports, as compared with last year.

"Prices of iron and steel products have been higher than now, but it is doubtful whether the position was ever more wholesome.

"Primary markets for textile fabrics are still held back by uncertainty regarding the stability of prices, especially in the cotton goods division.

"Another cause of indifference among buyers is the semi-annual inventory, which will be taken before provision is made for July trade. Exports to South America and other miscellaneous shipments only partially offset the utter lack of contracts from China, which is the least satisfactory feature.

Yale Class Book Shows Course Costs on an Average Over \$4,000. Great interest is manifested in the Yale senior class book, just issued, which shows that the high scholarship men in the class were able to get along with a great deal less expenditure than the low scholarship men. The difference in the figures is considerable. According to the book the high scholarship men have an average expenditure of \$731 for the year, while \$1,244 was the average expended by the low scholarship men.

Another interesting lot of figures shows that the average expense a man is \$4,146 for four years, the lowest amount during one year being \$100, and the highest \$7,550. Sixteen per cent, or 38 men, average less than \$600 a year. Ninety-five men earned their expenses in part, while 24 have earned all their expenses.
