The wasn't a Missouri editor, but a printer's devil who was going through his first experience on "making up" forms. The paper was late and the forms. The paper was late and the growths that it will make in the sum-pecunions citizen had been dumped in the forms, and the next handful of type came off a galley describing a recent fire. It read like this: "The pall bearers lowered the body to the grave and as it was consigned to the flames there were few, if any regrets, for the old wreck had been an eye-sore to the town for years. Of course there was individual loss, but that was fully covered by insurance." The widow thinks the editor wrote the obituary that way because the lar-mented partner of her joys and sor-rows owed him five years' subscrip-tion.—Antwerp Bee.

Agriculture in Rural Schools. Philadelphia Record. State Superintendent of Public In-

struction, F. A. Cotton, is enthusias-tic in his efforts to establish a theo-retical as well as a practical course in agriculture in our rural schools. In a bulletin just out he outlines the

Struction, F. A. Cotton, is entities as the init is efforts to establish a theoretical as well as a practical course in agriculture in our rural schools. It is quite the thing nowadays to keep dry feed before chickens all the plans for beginning this undertaking. The publication is issued in referrence to the work to be taken up this spring. In substance, his scheme is this: In the first three years the pupils will be led gradually to understand and appreciate the value of birds, flowers, plants and animals, through the medium of conversation and written language lessons. The work in the fourth and fifth grades will be <text><text><text><text><text><text><text><text><text><text><text><text><text><text>

FINANCE AND TRADE REVIEW TRADE REPORTS GRATIFYING

All Sections of Nation Enjoying Great Prosperity—Scarcity of Labor

Only Complaint.

"Aside from the seasonable dull-ness in wholesale departments com-mercial activity is well maintained, and early preparations are made for autumn and winter business. August opened with no adverse developments in the trade situation while crop pro-press during July was most favorable. gress during July was most favorable

gress during July was most favorable. "Trade reports are especially grati-fying from the Northwest and other points that are dependent upon agri-cultural results, but all sections of the nation enjoy great prosperity and there is scarcely a disordant note in any of the dispatches. "Scarcity of labor is the only ser-ious complaint, output of coke being curtailed, and there is delay in har-vesting some crops, while strikes re-tard the rebuilding of San Francisco; but, on the other hand, a slight modi-fication of the 1903 scale has brought back 8,000 more bituminous coal miners and the threatened struggle at 33 paper mills has been averted, miners and the threatened stratered 33 paper mills has been averted, while advanced wages brought full activity in the textile industry.

while advanced wages brought full activity in the textile industry... "Commodity prices are fairly steady, cheaper grain because of large crops being offset by strength in the leading materials of manufacture, while legislation in Brazil advanced coffee sharply. "Rallway earnings in July were 8.9 per cent larger than a year ago, and foreign commerce at New York shows gains of \$3.353,600 in imports and \$483,006 in exports, as compared with the same week last year. "It is not often that managers of a leading industry are uneasy regard-ing the future because of too much business, yet that is becoming the situation at iron furnaces and steel mills. Orders on the books are far in excess of similar comparisons in earlier years, and there is certainty of congestion if regular fall business is added.

added. "New England footwear markets are quiet. Tanners report that shoe manufacturers are buying sole leather only to cover immediate needs, and the quiet market would result in con-cessions were it not for the light stocks and the pronounced strength of hides.

A Claim to Gratitude. Industry has its noble and altruis tic side, as well as education. Some generous men endow libraies and homes for the indigent. Such men command the gratitude and affection of their fellows. But would not even deeper gratitude be felt by all right thinking people for a great packer who should conceive it to be his mis-solutely ideal establishment, one that should meet with every hygienic and moral requirement and that could not fail to serve for all present and fu-ture competitors as the model, the standard, the embodient of the high est principles to be realized in that industry.—Chicago Record-Heraid.

Scales on Face and Head-Threw Off Lit-tle Watery Substance-Complete Watery Substance-Complete Cure by Cuticura Remedies.

Cure by Cutleura Remedles. "I will be glad to give anybody suffering from eczema any information regarding futicura Remedies. When my little girl was about a year and a half old there de-veloped small pimples on her face, which watery substance. Her head was also af-fected with it. She used to scratch until it bled, making very bad sores. We tried two or three salves, including borax. They did not do any good, so I got some Cuti-cura Soap, Ointment and Pills. They com-pletely cured her, and we have had no more bother with it. Wm. F. Knox, 1216 30, 33th St., Philadelphia, Pa., June 10, 1005."

Oyster Planting in Pacific. The native oyster found on our Pacific coast is extremely small— about one-fourth the size of an At-lantic oyster. Many carloads of Eastern oysters have been shipped and planted in Puget Sound and along the California coast. Some of the the California coast. Some of the beds are just commencing to produce, one of them affording 700 sacks per day the past winter. The tongers, who gather the oysters, earn from \$6 to \$12 per day.

DAZED WITH PAIN.

The Sufferings of a Citizen of Olympia, Wash.

L. S. Gorham, of 516 East 4th St. Olympia, Wash., says: "Six years ago I got wet and took cold, and was soon

flat in bed, suffering tortures with my back. Every moveback. Every move-ment caused an ago-nizing pain, and the persistency of it ex-hausted me, so that for a time I was dazed

and stupid. On the advice of a friend 1 began using Doan's Kidney Pills, and soon noticed a change for the better. The kidney secretions had been disor-dered and irregular, and contained

dered and irregular, and contained a heavy sediment, but in a week's time the urine was clear and natural again and the passages regular. Gradually the aching and soreness left my back and then the lameness. I used six boxes to make sure of a cure, and the trouble has never re-turned."

Grease Eradicator for Clothing. Grease Eradicator for Clothing. Mix together two ounces oleate of ammonia and two ounces ammonia water; shake well and add one ounce ether and five ounces benzine. Shake well again, and then add one ounce chloroform. Shake again, let stand a few minutes, then shake at fre-quent intervals until the preparation is of the consistency of cream.

The following letter is only one of many thousands which are on file in the Pinkham office, and go to prove-beyond question that Lydia E. Pink-ham's Vegctable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women. Dear Mrs. Pinkham:-

Dear Mrs. Pinkham:--"About nine months ago I was a great suf-ferer with female trouble, which caused me severe pain, hos re ne which is and for failed to relieve me. I tried Lydia E. Pink-than's Vegetable Compound, and within a short time felt better, and after taking five beartily recommend your Compound as a splendid female tonic. It makes the monthly periods regular and without pain, and what a bisesing it is to find such a remedy after so many doctors fail to belp you. I am pleased to recommend it to all suffering women."--Mrs. Sara Wilson, 31 East 3d Street, Cincli-nati, Ohio. If you have suppressed or painful
