Revolutionist Throws Missile During Holding of Reception.

PREMIER HAD NARROW ESCAPE

His Son and Daughter Were Both Wounded—Tragedy Cast Gloom Over the Capital.

Thirty-two persons are dead and several wounded as the result of a dastardly attempt Saturday afternoon to assassinate Premier Stolypin of Russia, with a bomb while he was holding a public reception at his country house on Aptekarsky island. The premier was slightly wounded on the face and neck by flying splinters.

The wounded include M. Stolypin's daughter and 3-year-old son, who were seriously injured, and a number of persons prominent in the social and official world.

Of the four conspirators who engineered the outrage, two were killed with their victims, while the third, who acted as coachman for the party, and the fourth, who remained inside the carriage, were badly wounded and are now in the Sts. Peter and Paul fortress.

Among the dead are Gen. Zameiatin, the premier's personal secretary; M. Kbovostoff, former governor of the province of Penza; Col. Federoff, chief of the premier's personal guard; Court Chamberlain Davletoff, Court Chamberlain Voronin and A. Doubovoff, Prince Nakashidze, Police officer Konunzef and four women and two children.

People were literally blown to pieces. Those who were not killed instantly were horribly maimed or lacerated, and all the others present were prostrated by the shock.

The premier's escape was miraculous for only a moment before the explosion took place he had stepped inside his study at the rear of the salon to speak to Prince Shakovsky. Although he was not slightly injured, he is completely prostrated by the calamity.

ATTEMPT TO KILL THE CZAR

Two Men With Bomb Arrested by Guards at Palace.

An attempt to kill the czar was frustrated only through the vigilance of the imperial guards at the Peterhof palace.

Simultaneously with the blowing up of Premier Stolypin's palace, two men succeeded in forcing an entrance into the courtyard of the imperial residence at Peterhof. One of the men carried a bomb concealed in a basket of fruit, and both were armed. Their actions aroused the suspicions of several of the palace guards, who placed the two men under arrest. When they were searched, the instrument of death was discovered, and they were immediately placed in solitary confinement.

DEAD BIRDS CAUSE TYPHOID

Thousands of Fledglings, in Attempting to Fly, Had Fallen Into Reservoir.

The cause of an epidemic of typhoid fever among the 1,000 inhabitants of Three Oaks, Md., was discovered when a member of the Board of Health climbed to the top of the water works' standpipe and found several thousand young sparrows dead and in various stages of decomposition covering the surface of the water.

Immediately the Mayor gave instructions to empty the standpipe, scrub and paint it. Hundreds of sparrow nests have been built on a ledge that runs around the summit of the standpipe and the young birds are supposed to have fallen into the uncovered standpipe while trying to fly.

The cover made for the standpipe when it was constructed was never put on. There are over 21 cases of typhoid in the town.

INDICTMENT HAS 126 COUNTS

Standard Oil Company and Railroads Held by Grand Jury.

Two additional indictments were returned by the federal grand jury, at Jamestown, N. Y., one against the Standard Oil Company of New York and the other against the New York Central railroad. The indictment against the railroad contains a single count, failure to file with the interstate commerce commission the rates it is claimed the railroad maintained.

The indictment against the Standard, however, has 126 counts, each for a specific violation of the law. The charge is the Standard accepted an unlawful discrimination from the Pennsylvania Railroad Company, the New York Central and the Central Vermont railway, in that during the year 1904 the rate from Olean, N. Y., to Burlington, Vt., was 15 cents per hundred weight, while the rate for like shipments from Bradford, Warren, Struthers, Clarendon, Oil City and Titusville, Pa., was 33 cents.

Arms for Cuba.

When the Ward line steamship Mexico left her moorings at Pier 16, Brooklyn, August 25, for Havana, she had stowed away in her hold 15,000 Remington repeating rifles, 800,000 rounds of ammunition and six gatling rapid fire guns for President's Palma's forces in Cuba. The shipment would have been larger, but the vessel could not carry more. The Kansas, which will sail Thursday, will carry 3,000,000 rounds of ammunition, and 5,000 Remingtons for Palma's aid.

Fernandez Blanco, Governor of the Province of Valparaiso, has proclaimed the city of Valparaiso a state of siege and has conferred supreme authority on navy Captain Gomez Carreno.

The Prefect of Police is charged with the duty of collecting and distributing food. One of the first acts of the Military Governor was to issue an order that any persons found breaking water mains should be shot. The water supply is fairly adequate, and repairs are actively progressing at Baron Hill, Vina del Mar and Ramaditas, where a large number of mains were broken by the earthquake.

The whole of Victoria street is illuminated by electric lamps. Two other streets also are lighted and Cerro and Alefres streets will be lighted. Electric cars already are running between Baron station and Bucerro, and the operation of cars will be extended to Vina del Mar.

The total number of corpses buried up to August 21, was 648.

The main postoffice has been reopened. At Laflial there is not a single wall in good condition. There were 30 persons killed there. At Cabildo the railroad station was damaged.

It was announced that the Ministry of Public Works had been advised that it would be necessary to demolish more than 3,000 houses at Santiago, as the result of damages which they received during the recent earthquake.

BANDERA KILLED

Negro Insurgent Leader Slain by Cuban Guards.

Gen. Quentin Bandera, the negro insurgent leader, with two companions, was killed in a fight with rural guards, which took place between Mariano and Hoyo Colorado.

A force of 100 mounted rural guards which had for three days been seeking to surround the insurgent force commanded by Bandera, finally succeeded after the veteran commander had pitched his camp for the night. Two of Bandera's followers were captured.

It was announced from Havana August 20 that Gen. Bandera, who greatly distinguished himself in the Cuban war for independence, had left Arroyo Arenas, 12 miles west of Havana, with about 20 insurgents, whose numbers were augmented later by a force armed with guns and ammunition, which set out from Havana. The next day it was reported that Bandera had been wounded in the head in a skirmish.

Bandera was about 60 years old. He took part in the 10 years' war, as well as in the war for Cuban independence. He was well known in every province of Cuba and had great influence with the colored people.

When in Havana Bandera was in the habit of gathering crowds of negroes about him and making speeches to them on the ingratitude of republicans.

The bodies of Bandera and his companions were placed in a wagon and taken to Havana. An examination of Bandera's body showed that his principal wound was a machete blow on the head.

INSURGENTS INCREASING

Government Troops Ambushed and Several Killed.

The Cuban Government reports announce that a detachment of the forces of Colonel de Strampes, numbering 33 men, at Guines, province of Pinar del Rio, were dispatched to dislodge the insurgent forces of Colonel Asbert, camped on the hill "Flor de Mayor," near the town. The insurgent commander, having 87 men, sent part of them to the base of the hill, where they ambushed the Government forces, killing four and capturing one man. Other reports give the number of dead as nine. The survivors retired in disorder.

Insurgent bands are multiplying in Havana and Pinar del Rio provinces, many small parties having left Havana to join them. All are well armed and mounted. All the insurgents are reported to be mounted.

CZAR YIELDS MUCH LAND

Millions of Acres of Crown Preserves to Be Sold.

CHECK ON THE TERRORISTS

New Agrarian Policy to Bring Land Slaves over to the Side of the Emperor

An important series of conferences were held at Peterhof on the question of the immediate distribution of the Russian Crown lands and appanages to the peasants in an attempt to find a partial solution of the agrarian question by measurably appeasing the land hunger of the peasantry, and an ukase will be issued directing the agrarian commission to begin the distribution of 1,800,000 dessiatines (a dessiatine is about 2 1/2 acres) belonging to the Crown and 2,000,000 dessiatines of land offered to or purchased through the Peasant's bank.

Only the forests and lands belonging to the state, the preservation of which is considered necessary for the future agricultural prosperity of the country, will be reserved. The transaction will be financed through the peasants' bank. Little cash will be required. The landlords and other sellers will be given marketable land script, eventually redeemable by the peasant purchasers in installment notes designed to meet the interest and amortization.

The Emperor will not give the land of the imperial family as a free gift, but like other landlords he will accept script. Moreover, it is believed that no Parliament will ever dare to repeal this temporary law. Nearly the present restrictions upon the peasants as a class will also be removed.

This in substance is the Government's bold bid for the support of the Russian peasant millions against the propaganda of the revolutionists.

HANGED AND SHOT

Negro Caught Entering House Where 11-Year-Old Girl Was Alone.

About two hours later Spain was captured and brought to St. George. Shortly afterward 40 or 50 men went to the Sheriff and forced him to give up the keys. The negro was taken to the house of Connor, where his 11-year-old daughter positively identified him as the man who tried to climb through the window. The girl was alone in the house at the time.

The negro admitted that he had gone to the residence with the intention of entering it, but for what purpose he did not say. The mob strung Spain to a limb and shot about 500 bullets into his body.

OHIO DEMOCRATS MEET

State Ticket Nominated—County Option Defeated—Bryan Highly Complimented.

Democrats of Ohio nominated the following ticket:

Secretary of State—Samuel H. Hoskins of Auglaize county.

Dairy and Food Commissioner—Rodney J. Diegle of Erie County.

State School Commissioner—Charles A. Haupter of Wayne county.

Member of the Board of Public Works—George H. Neiswonder of Darke county.

Chairman of the State Executive Committee—Harvey C. Garber of Darke county.

The question of an indorsement of county option in temperance legislation was under discussion, an attempt by W. L. Finley to amend the platform and give such an indorsement being defeated on a roll call.

The discussion developed opposition to the general idea of county option. Aside from these features the defeat of Mayor Tom L. Johnson, of Cleveland, in the State central committee—was still the subject of comment. This defeat was made unmistakable by the election of Judge B. F. McCann, a Garber man, for permanent chairman.

The platform adopted declares, among other things, for the payment of the State's expenses without calling on counties for a levy, each county to raise only what it needs for its own expenses; it advocates the taxation of public service corporations at their salable value; it recommends home rule for cities, towns and villages, especially as to the public or private ownership of public utilities; it favors the improvement and retention of the canals; it calls for legislation making it unlawful for public officials to accept, or public carriers to give, free passes; it demands the election of United States senators by direct vote of the people.

"In order to secure purity in elections," it says, "we favor the repeal of all special limitations as to time within which criminal prosecutions may be begun for bribery in elections."

The platform condemns the late Congress for refusing to pass a law making it a punishable misdemeanor for corporations to contribute money to the campaign funds of political parties.

Attention is called by the many laws for the people passed by the recent general assembly of the State, chief among which was the 2-cent railroad fare law.

Tribute is paid to the late Governor Pattison, and adherence to the policies he inaugurated is urged.

The concluding paragraph of the declaration of principles is a high encomium to the personal and political virtues of William Jennings Bryan, who is called "America's most distinguished private citizen."

TO FINANCE REVOLUTION

Agents of Venezuelan Rebels Arrested in New York.

On a charge of making dies of counterfeit the standard silver dollar of Venezuela to finance a revolution in that country, secret service officers at New York, arrested Capt. George Boynton, manager of the Boynton and Boynton corporation of Venezuela, and L. M. Thompson, an attorney of New York city. Both prisoners were admitted to bail in \$5,000. Joseph Keller and Sidney A. Keller, die-makers, were also arrested in connection with the case. Boynton and Thompson aver that the plan to duplicate the Venezuelan money is not counterfeiting. They said after the revolution proved successful this issue of money would be legalized, both by executive decree and by act of the Venezuelan junta. The accused men characterize this plan as a "war measure." They also allege half of the South American uprisings are similarly financed.

The mine is now paying at the rate of \$2,300,000 per year.

ATTEMPT TO KILL NUNEZ

Town of San Luis Captured by Cuban Insurrectionists.

PALMA EXPRESSES NO FEAR

Says Government Was Taken Unawares, but That Peace Soon Will Be Restored.

An attempt was made to assassinate General Emilio Nunez, governor of the province of Havana.

A man had a revolver leveled at the governor as he was entering his home. Another man who was passing by saw the would-be assassin and cried out, whereupon Governor Nunez turned and drawing his revolver fired over the miscreant's head. The latter was so surprised that he dropped his revolver. He was promptly arrested.

His identity is not known, but he is a white man and was well dressed.

The insurgents in the province of Pinar del Rio captured their first city there on the 22d. The force led by Pino Guerra, an ex-congressman, and sundry other insurgent bands, attacked San Luis, which is situated on the railroad, about 10 miles west of Pinar del Rio city.

A sharp and decisive engagement followed, during which a number of the insurgents were killed or wounded. The town was defended by less than 100 rural guards, 50 of whom surrendered to the insurgents and are held as prisoners. The insurgent forces are in possession of the railroad station and of the town, which is resuming its normal condition.

By the capture of San Luis, which has about 5,000 inhabitants, the insurgents have obtained an important base for future operations.

Luis Perez, the last liberal governor of the province of Pinar del Rio, has joined the insurgent forces in that province.

A dispatch from Rancho Veloz, province of Santa Clara, says that a band of insurgents has been organized there under Colonel Reinos, and it is believed that Ex-Congressman Mendieta is with them.

A new party of 50 insurgents appeared at Santa Cruz del Norte, Havana province.

President Palma said:

"Our situation, at first, was one of unpreparedness, as is usual in such cases. We are taking a little time to prepare to cope with it. But there is positively no cause for alarm. The movement in Santa Clara province is small; in Mantanzas it is trifling and the bands in Pinar del Rio are smaller than reported and are poorly led."

Gen. Gomez, in jail at Havana, disavows responsibility for the outbreak. A signal defeat for the Government forces has resulted in the first general movement of the insurgents who are opposing the Palma administration in Havana Province, and it was admitted that the town of Guines, 30 miles from Havana, with 2,000 inhabitants, was taken possession of by the rebellious Rural Guards and allies.

Communication with Pinar del Rio is still shut off. Whether the report is true that the insurgent forces have attacked Pinar del Rio city is a subject much mooted here in the capital. Some officials believe that it is so, while others declare that the present plans of the revolutionary element simply provide for the holding of the highways leading toward the town, and also the railway system.

All of the suspects under arrest in Havana are held under heavy guard in the city prison and no one is permitted to approach them. Members of the secret police are searching the houses, and personal effects of the men under arrest in the hope that they will be able to secure a list that will indicate the identity of the leaders of the opposition. So far they have been unsuccessful.

Up to the present time the casualties in the general fighting have been insignificant when compared with the number of men concerned. No information as to the extent of the Government losses, however, is to be made public at present.
