When a physician tells a woman, suffering from female trouble, that an operation is necessary it, of course frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded. Our hospitals are full of women who are there for just such operations. It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help. The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Margrite Ryan, Treasurer of St. Andrew's Society, Indianapolis, Ind. writes of her cure as follows:

Dear Mrs. Pinkham:—

"I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not stand the strain of an operation and made up my mind I would be an invalid for life. Hearing how Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not stand the strain of an operation and made up my mind I would be an invalid for life. Hearing how Lydia E. Pinkham's Vegetable Compound.

Ask Mrs. Pinkham's Advice-A Woman Best Understands a Woman's Ills

cept in a few sections, where mind weather last winter left unsold stocks on hand, supplies of goods are not excessive.

Hence a continuance of the active re-order trade is likely, weather conditions allowing. Perhaps the most active branch of wholesaling and jobbing is that of cotton goods, which are in heavy demand, with slow deliveries still complained of.

Industries return reports of great activity; the iron and steel, metal workings, coke, cotton, other textile, furniture, carpet and, indeed, practically all lines are pushed. Exceptions are found in shoes, which have not been as well ordered as a year for fall and winter, though excesses on last spring's account make a net gain for the year' as a whole.

There is complaint that low prices offered for grain are restricting sales by farmers West and Northwest, but lack of motive power and of cars is credited with holding back deliveries.

The feature of the iron and steel trades is the pressure to produce sufficient quantities to meet requirements. High prices and premiums for prompt deliveries seem to be the rule. Pig iron is higher and as high as \$25 a ton has been paid for No. 2 foundry in Eastern and Western centers for spot supplies. Bessemer pig commands very high prices in the Central West. In the Chicago district furnaces are sold ahead for the first quarter of 1907, and nearly so for the first half of the year. Steel billets are scarce everywhere, and car builders have bought forging billets in the Chicago district in fair quantities.

Demand for structural material and plates continues good, with carbuilders figuring largely in the tonnage ordered. Steel and iron bars are firm. New orders for steel rails are only moderate. Merchant pipe is up \$4 a ton on black and galvanized pipe, and \$2 on casing.

Business failures for the week ending October 18 number 170.

BONAPARTE'S LODGINGS

BONAPARTE'S LODGINGS

Tourists Have Been Looking at the Wrong Piace.

Americans who have been staring in admiring wonder at the upper windows of the house No. 5, on the Quai Conti, Paris, where an inscription placed upon the wall near the street door says that the great Bonaparte dwelt in the garret of that house when he was a young artillery officer have been looking at a fake. Not an intentional one, however, for the inscription was put up by the city authorities.

M. Victorien Sardou, the celebrated dramatist, who is an authority on Napoleonic subjects, has been looking up the subject and has discovered that a mistake has been made. It was in the house now numbered as Quai Conti that the Little Corporal lived. The inscription is to be removed from its present to the correct position.

FINANCE AND TRADE REVIEW

TRADE CONTINUES HEAVY

Rush of Fall Business Over and Next Spring's Is Now Receiving Attention.

Trade continues of large volume, and while the ordinary rush of fall trade is over and next spring's is receiving attention, active retail demand has induced a heavy volume of recorder business from jobbers. Except in a few sections, where midd weather last winter left unsold stocks on land, supplies of goods are not excessive. Hence a continuance of the active recorder trade is likely, weather conditions allowing. Perhaps the most active branch of wholesaling and jobbing is that of cotton goods, which are in heavy demand, with slow deliveries still complained of.

The New Women of China.

A daily newspaper for women is now published in Pekin, and has awakened a widespread desire on the part of the Chinese women to learn to read. It is called the Pekin Woman's Journal, and is the outcome of the intellectual awakening that followed the Boxer uprising and the occupancy of the country by the allies. In the attempt to assimilate western learning which followed these troubles the leaders of the nation realized that their women must be educated, and the paper was one of the means adopted to this end. Paragraphs against foot binding appear frequently in the paper, and among the subjects of recent articles are "Evils of Obtaining Evidence by Torture," "Proof That the World Moves," "Care of Children," "Kindness to Animals," "Evils of Oplum Taking," "Importance of Education," and "Love of Country,"—Newspaperdom. The New Women of China.

As to Olive Oil.

As to Olive Oil.

America is making annually about 100,000,000 gallons of cottonseed oil. Of this vast by-product of our \$500,000,000 cotton crop we export to foreign countries one-half, of 50,000,000 gallons. That which remains at home is converted into soaps for the laundry and toilet, substitutes for lard etc., and druggists use enormous quantities in preparations for external application, such as salves and ointments. The 50,000,000 gallons exported are converted into olive oil and butterine, the latter a substitute for butter much used in Holland, Belgium, France and other European countries. It will astonish many persons to learn that the Netherlands take about 12,000,000 gallons of our cottonseed oil anually for the manufacture of butterine. France takes 8,000,000, Germany 5,500,000, Austria-Hungary 5,000,000, Mexico 3,000,000, Italy 2,000,000, etc.—New York Press.

The Reai Jack Horner.

The legend of Little Jack Horner as told in Semersetshire is as follows: At the time of the dissolution the Abbot of Glastonbury wished to send some important deeds to the brother of Queen Jane Seymour. For safety he coheealed them in a ple and intrusted it to one Jack Horner. During the transit Jack Horner pulled out the plum in the shape of the title deeds of Mells Park, where his descendant now resides.—Notes and Queries.

Do You Open Your Mouth

Do You Open Your Mouth
Like a young bird and gulp down whatever food or medicine may be offered you?
Or, do you want to know something of the
composition and character of that which
you take into your stomach whether as
food or medicine?
Most intelligent and sensible people
now-a-days insist on knowing what they
employ whether as food or as medicine,
Dr. Pierce believes they have a perfect
right to insist upon such knowledge. So he
publishes, broadcast and on each bottlewrapper, what his medicines are made of
and verifies it induce said. This he feels
he can well afford to do because the more
the ingredients of which his medicines
are made are studied and understood the
more will their superior curative virtues
be appreciated.
To the agree of woman's possible work.

the ingregents of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, ofttimes, with a debilitating, pelvic, extarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms at tendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Pavorite Prescription" is made for the cure of the disseases for which it is claimed from the leading authorities of a lither from the leading authorities of a lither from the leading authorities of a strength of the firm of the distinctly feminine organic from the leading authorities of which "Favorite Prescription" is made for the cure of the distinctly feminine organic from the leading authorities of a strength end of the same of the distinctly feminine organic from the leading authorities of a lither from the leading authorities of a lither from the leading authorities of a lither from the leading authorities of which it is claimed from the leading authorities of a lither from the leading authorities of a lither from the leading authorities of a lither from the leading authorit

THE LAXATIVE OF KNOWN QUALITY There are two classes of remedies; those of known qual-There are two classes of remedies; those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting tempounknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constigently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the
remedy has therefore met with their approval, as well as with
the favor of many millions of well informed persons who know
of their own personal knowledge and from actual experience
that it is a most excellent laxative remedy. We do not claim that
it will cure all manner of ills, but recommend it for what it really
represents, a laxative remedy of known quality and excellence,
containing nothing of an objectionable or injurious character.

There are two classes of purchasers; those who are informed
as to the quality of what they buy and the reasons for the excellence
of articles of exceptional merit, and who do not lack courage to go
elsewhere when a dealer offers an imitation of any well known
article; but, unfortunately, there are some people who do not know.

article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.

To the credit of 'the druggists of the United States be it said that nearly all of them value their reputation for professional

integrity and the good will of their customers too highly to offer imitations of the

Genuine-Syrup of Figs

manufactured by the California Fig Syrup Co., and An order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c. per bottle. One size only.

Color more goods brighter and faster colors than any other dye. One 10c. package colors all fibers. They dye in cold water better than any other dye. You can dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. MONROE DRUG CO., Unionville, Missouri
