

Dyspepsia of Women

Caused by Female Disorders and Cured by Lydia E. Pinkham's Vegetable Compound

A great many women suffer with a form of indigestion or dyspepsia which does not seem to yield to ordinary treatment. While the symptoms seem to be similar to those of ordinary indigestion, yet the medicines universally prescribed do not seem to restore the patient's normal condition.

Mrs. M. Wright

Mrs. Pinkham claims that there is a kind of dyspepsia that is caused by a derangement of the female organism, and which, while it causes a disturbance similar to ordinary indigestion, cannot be relieved without a medicine which not only acts as a stomach tonic, but has a peculiar tonic effect on the female organism.

As proof of this theory we call attention to the case of Mrs. Maggie Wright, Brooklyn, N. Y., who was completely cured by Lydia E. Pinkham's Vegetable Compound after everything else had failed. She writes: "For two years I suffered with dyspepsia which so degenerated the entire system that I was unable to attend to my daily duties. I felt weak and nervous, and nothing that I ate tasted good and it caused a disturbance in my stomach. I tried different dyspepsia cures, but nothing seemed to help me. I was advised to give Lydia E. Pinkham's Vegetable Compound a trial, and was happily surprised to find that it acted like a fine tonic, and in a few days I began to enjoy and properly digest my food. My recovery was rapid, and in five weeks I was a well woman. I have recommended it to many suffering women."

No other medicine in the world has received such widespread and unqualified endorsement or has such a record of cures of female troubles, as has Lydia E. Pinkham's Vegetable Compound.

Floating Mine.

Successful experiments have been made at Toulon, France, with a dirigible floating mine, which can be made to travel on the surface in any direction, and to sink and rise again at will. By a mechanical arrangement the charge can be neutralized and the mine made unexplosive.

There is more Catarrh in this section of the country than of other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. CHENEY & Co., Toledo, O.

Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

Decline of Whistling.

It has dawned on a Boston paper that whistling has gone or is going out of fashion, and it laments the fact. Most people will be disposed to rejoice. The whistler is perhaps not wholly to be condemned. He is all right when he practices his art in the middle of a 40-acre lot—Indianapolis Star.

Gezer, an ancient city of Palestine, which has just been visited by archaeologists, is about 6,000 years old.

Household Matters.

Boiled Apples.

Place a layer, or two, if necessary, of rather tart apples in a saucepan, cover with cold water, let them come quickly to the boiling point, then cook slowly till tender. Remove to dish, sprinkle thickly with sugar, and pour over them the liquid remaining in the saucepan. It is especially convenient to prepare apples in this way when a very hot fire is not required, or when the oven is otherwise occupied.

Flaky Puffs With Lemon Sauce.

Add to one cupful of boiling water one tablespoonful of butter, and when the latter is melted mix in one cupful of flour. Beat these ingredients with a fork until perfectly smooth and free from the sides of the saucepan. Take from the fire and drop in three eggs, one at a time, whipping the mixture rapidly each time an egg is put in. Stand until cold and fry in very hot fat a spoonful at a time, allowing about fifteen minutes for each puff. Sprinkle with powdered sugar and serve hot with a sauce made as follows: Strain the juice of one and a half lemons and add to it one cupful of powdered sugar and half a cupful of boiling water.

Currant Dumplings.

Chop fine half a pound of suet. Put in a basin with four tablespoonfuls of flour, one pound of bread crumbs, half a pound sugar and half a pound of cleaned currants. Mix these together well and stir in three cups of milk. Dip the centre of a pudding cloth in boiling water, wring out and dredge with flour. Now spread the floured cloth over the top of a basin, pour the dumpling into it, tie up with a piece of strong twine and throw in boiling water. The water must be boiling furiously before the pudding is thrown in, and half a teaspoonful of salt added. Cook steadily and evenly for three hours. When done remove from the cloth and serve on a hot dish.

Rice Apple Pudding.

One-half cupful rice, three tablespoonfuls sugar, one-half tablespoonful butter, the juice of one-half lemon. One full pint of thinly sliced apples, one-half pint of milk and three eggs. Put the apples in a dish, pour over them the eggs and sugar, and set aside. Place the rice in a saucepan, cover with cold water and boil five minutes. Drain rice, rinse in cold water, return to the saucepan and add the milk and butter. Set saucepan in kettle of boiling water and cook until rice is thick, occasionally shaking the pan but not stirring. Let it cool and mix with the three yolks and add whites, beaten stiff. Butter a pudding dish and sprinkle with bread crumbs, and put in rice and apples in alternate layers. Bake in a moderate oven about thirty minutes or until the pudding is firm to the touch.

Serve with the syrup left from the apples boiled up with a little more sugar.

HINTS FOR THE HOUSEKEEPER

Sunshine is a powerful treatment for disease. If you aspire to health and happiness, you must allow sunshine to come into your house.

When making starch for light fabrics, add one teaspoonful of borax, which not only keeps the things cleaner, but puts a nice gloss on them.

Women who do their own washing, should when finished, rub their hands with dry salt. This brings out the soap and makes the hands more agreeable.

Old potatoes are greatly improved by being soaked in cold water overnight, or at least several hours after peeling. The water should be changed once or twice.

Whenever vegetables put up in tin cans are opened and only partly used do not allow the remainder to stand in the tin, but turn out into an earthen bowl and put in a cool place. A good polish for a stove is made of one tablespoonful of powdered alum mixed with the stove polish. The brilliancy that this mixture will give to the stove will last for a long time.

It is a fad to have sofa pillows combine as many shades of one color as possible without introducing a foreign tone. Various shades of red which harmonize well are excellent for a couch.

If you have a pot of ferns be sure to give them plenty of water. A fern that has become thoroughly dry once or twice is practically ruined; at least it will never have the same old strength again.

Ammonia is excellent for cleaning hair brushes. Use about two tablespoonfuls of ammonia and enough water to cover the bristles, but not the back. Shake it thoroughly while it is in the water to loosen the dirt. Dry it well before using.

Some housekeepers put a peeled onion inside a fowl that is to be kept for any length of time. This absorbs germs that would otherwise infect the meat. Sliced onions or a bag of charcoal, placed near meat of any kind has the same effect.

FINANCE AND TRADE REVIEW

IRON BUYERS EAGER TO ORDER

Give Up Hope of Better Terms and Hasten to Purchase at Prevailing Prices.

R. G. Dun & Co.'s Weekly Review of Trade says: Colder weather has removed one of the drawbacks to reasonable distribution of merchandise, but there is still much complaint of traffic conditions. Retail trade shows improvement in nearly all sections and mercantile collections are more prompt. Returns from the iron and steel industry could not easily be brighter. Primary receipts of wheat are not in keeping with a maximum crop on account of freight delays.

As the season advances with increasing urgency for delivery of iron and steel, regardless of further advances in prices, even the most conservative purchasers give up hope of better terms and are struggling to place contracts before another fraction is added to the price or another month to the remoteness of delivery. Spot quotations for pig iron are really nominal, because nothing is offered, and very fancy prices would be paid for billets that could be shipped immediately. Foreign trade in this industry is large, despite domestic needs.

After much irregularity wheat shows a substantial advance for the week. Flour output increased somewhat, but it is still far behind the production a year ago, and mills find profits curtailed by the firmness of raw material. Course grades are less active and fluctuate within narrow margins.

Switchmen's Demands Refused. Railroad managers at Chicago informed their demand for a raise of 10 cents an hour would not be granted. The railroads declare that the switchmen would be given an increase of two cents an hour or nothing.

The New York World, for the farms of the United States produce to waste. The berries that go ungathered, the vegetables that go to seed, the fruit that lies on the ground ungathered, would more than supply the whole population of Greater New York.

The original Grange National Bank of Tioga, Tioga County, Pa., has been honored by being made a depository for United States funds to the amount of \$25,000. They pay 3 per cent. on deposits.

THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that SYRUP OF FIGS is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists, and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

LOUISVILLE, KY. SAN FRANCISCO, CAL. NEW YORK, N.Y.

PUTNAM FADELESS DYES

Color more goods brighter and faster colors than any other dye. One 10c. package colors all fibers. They dye in cold water better than any other dye. You can dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. MONROE DRUG CO., Unionville, Missouri

MAXIM OF MAINE

The American Inventor of a Famous Gun and His Career.

The fierce, white-whiskered man, with breast gleaming with orders, representing the latest portrait of the famous inventor and scientist, Sir Hiram Maxim, would hardly be taken for a native of Maine. Yet such is the case, for he was born in Sangerville of the Pine Tree State, a little over 60 years ago. His Maxim gun and "cordite," a smokeless powder, have made him world famous. For the last ten years and more Sir Hiram has devoted himself to attempts to solve the problem of aerial navigation. Like Santos-Dumont, he early discarded the balloon and devoted all his energy to constructing an aeroplane which can be propelled with such velocity as to lift itself and its navigator free from Mother Earth. While the young Brazilian has only succeeded in propelling his aeroplane over a track which it almost clears, Sir Hiram, in speeding over his track one morning, suddenly found himself lifted clear of the ground and precipitated several yards to the right. It was, perhaps, the first instance in which a flying machine had actually lifted a human being from terra firma.

Artificial Changes in Plants.

A recent scientific observation relating to plant life indicates that external factors may have an important bearing on the character of plants reproduced from seed aside from the qualities of the parent plants. Chemical stimulation of the reproductive organs immediately previous to the application of pollen has been noted to exert a profound influence on hereditary qualities, resulting in seeds producing plants entirely different from the parent plant.

HARD TO SEE. Even When the Facts About Coffee Are Plain.

It is curious how people will refuse to believe what one can clearly see. Tell the average man or woman that the slow but cumulative poisonous effect of caffeine—the alkaloid in tea and coffee—tends to weaken the heart, upset the nervous system and cause indigestion, and they may laugh at you if they don't know the facts. Prove it by science or by practical demonstration in the recovery of coffee drinkers from the above conditions, and a large per cent. of the human family will shrug their shoulders, take some drugs and—keep on drinking coffee or tea. "Coffee never agreed with me nor with several members of our household," writes a lady. "It enervates, depresses and creates a feeling of languor and heaviness. It was only by leaving off coffee and using Postum that we discovered the cause and cure of these ills. "The only reason, I am sure, why Postum is not used altogether to the exclusion of ordinary coffee is, many persons do not know and do not seem willing to learn the facts and how to prepare this nutritious beverage. There's only one way—according to directions—bottle it fully 15 minutes. Then it is delicious." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

Drill for Water

Prepares for Minerals, Drill Test and Blast Holes. We make DRILLING MACHINES For Horse, Steam or Gasoline Power. Latest Tractor Machine. LACONIA MACHINERY CO., TIFFIN, OHIO.

DON'T WORRY ABOUT YOUR FEET

Send for today for PAIN EXPELLER (in plaster) of CORNO corns, killing plasters. Removes corns, calluses, warts. Relieves the pain of bunions. Builds new skin. Leaves no sore. Peace and comfort combined. Our guaranteed money back. At drug and shoe stores, or by mail postpaid. Sample pkg. of plasters, by mail only, 10c. BEST SUPPLY CO., Sole Mfrs., Dept., Joliet, Ill. P. N. U. 45, 1906.

DROPSY NEW DISCOVERY

Relieves dropsy, gives quick relief and cures combined. Cure guaranteed and 50¢ money back. At drug stores, Dr. H. H. GREEN'S SONS, Box 2, Atlanta, Ga.

Have You an Extra Room to Heat?

There need not be a cold room in the house if you own a PERFECTION Oil Heater. This is an oil heater that gives satisfaction wherever used. Produces intense heat without smoke or smell because it is equipped with smokeless device—no trouble, no danger. Easily carried around from room to room. You cannot turn the wick too high or too low. As easy and simple to care for as a lamp. The

PERFECTION Oil Heater

(Equipped with Smokeless Device.)

is an ornament to the home. It is made in two finishes—nickel and japan. Brass oil font beautifully embossed. Holds 4 quarts of oil and burns 9 hours. Every heater warranted. Do not be satisfied with anything but a PERFECTION Oil Heater. If you cannot get Heater or information from your dealer write to nearest agency for descriptive circular.

The Rayo Lamp

makes the home bright. Is the safest and best lamp for all-round household use. Gives a clear, steady light. Fitted with latest improved burner. Made of brass throughout and nickel plated. Every lamp warranted. Suitable for library, dining room or parlor. If not at your dealer's write to nearest agency. ATLANTIC REFINING COMPANY

W. L. DOUGLAS

\$3.50 & \$3.00 Shoes BEST IN THE WORLD

W.L. Douglas's \$4 Gilt Edge line cannot be equalled at any price

SHOES FOR EVERYBODY AT ALL PRICES. Men's Shoes, \$5 to \$10.00. Boys' Shoes, \$2 to \$1.50. Women's Shoes, \$3.00 to \$1.00. Misses' & Children's Shoes, \$2.25 to \$1.00. Try W. L. Douglas Women's, Misses and Children's shoes; for style, fit and wear they excel other makes.

If I could take you into my large factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better, wear longer, and are of greater value than any other make.

Wherever you live, you can obtain W. L. Douglas shoes. His name and price is stamped on the bottom, which protects you against high prices and inferior shoes. Take no substitutes. Ask your dealer for W. L. Douglas shoes and insist upon having them.

Fast Color Epslets used; they will not wear brass. Write for Illustrated Catalog of Fall Styles. W. L. DOUGLAS, Dept. 15, Brockton, Mass.
