Numerous experiments have shown that mirth and cheerfulness stimu-iate the secretion of the gastric juices, and are powerful aids to di-gestion. Yet, knowing this, many of is sit as gloomy and absorbed at the table as at a funeral. In many homes, scarcely a word is spoken at meals outside of requests for an art-

icle of food. The meal hour ought to mean animal function. The bell which calls the family to the table ought to be the signal for a good time generally, when all cares should be thrown off when all cares should be thrown off and everybody appear at his best. It ought to signalize the time for mirth and laughter. It ought to be looked forward to by the members of the family as the recess or nooning is look forward to by pupils in school, as a let-up from the strenuous life. --Success.

Brazil was mightly stirred. The dog declared his intention of taking out naturalization papers! This he did, and he gave them to the cat to keep while he went to make arrangements to enjoy his independence. Now, after his leaving, the cat got jealous of the dog's importance and clawed the and chewed the paper until mere scraps were all that was left. Then back came the dog with his tail hung high.
