11C pain, but I went along without worrying much until dropsy set in. My icet and ankles swelled up, my hands puffed and be-came so tense I could hardly close them. I had great difficulty in breathing, and my heart would flutter with the least exertion. I could not walk far without stopping again and again to rest. Since using four boxes of Doan's Kidney Pills the bloating has gone down and the feelings of dis-teres here disconcered."

tress have disappeared." Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo,

Breeding Chinese Pheasants.

Breeding Chinese Pheasants. Present indications are that in a few years Minnesota will contain a good stock of Chinese pheasants as a result of the introduction of that gamy bird of beautiful plumage by the State Game and Fish Commission. The commission has 312 young birds ready for distribution in small quan-tities to points in the State where they can be guaranteed protection from hunters for 10 years, which the law allows them.

Baw allows them. Bararo of Ontments For Catarrh That Contain Mercury. as mercury will surely destroy the sense of sime when entering it through the mucous surfaces. Such articles should never be used screept on reservitions from reputable phy-side of you can possibly derive from to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Chenes, & Co. Toledo, O., contains furectly upon t e blood and mucous surfaces of the system. In huying Hall's Catarrh Orire be sure to get the genuine. It is taken in-ternally and made in Toledo, Ohio, by F. J. Cheney, & Co. Te-timonials free. Take Hall's Family Pills for constipation.

Killing Game in Mexico.

Killing Game in Mexico. A remarkable hunt which took place in the northern part of Coahui-a few days ago is reported from Monclova, in that state. A party, of which about 75 were hunters, went on a deer hunt, through the mountains, being out eight days. The 75 hunters killed 800 deer, an average of 100 a day, or more than one deer a man a day. There has been some criticism wholesale slaughter of deer, and it is passed in this country like those in other countries which expressly pro-bit the wholesale slaughter of game. Mexican Herald.

How the Wife of n English Manufacturer Discovered Blue Paper.
A woman," said a paper maker, "A woman," said a paper maker, "A woman," said a paper maker, "A woman," said a paper maker, "Invented blue paper. It was by activation of a been with a hole in the top, of it is a strange enough one. Yet this, says the Country Gentleman, not inslands, who clap their apparatus down over the sluggish bottom-feeding fish and then, putting their hands through the hole in the top, extract their victims.
By the English Admiralty's orders perfect models are made in parent at least on a day of eet wide. They are made of wax because it is a material which does not absorb water or change lits weight, so that alterations can be easily made and the material can be melted up and used again.
NEVER TIRES
Of the Food That Restored Her to Health.
"My food was killing me and I din't know the cause, "writes a Colo, young lady: "For two years I was thin and sickly, suffering from indigestion and inflammatory rheumatism.
"Thad tried different kinds of dit, plain living and many of the remedies recommended, but got no bettom.

that a single pound of the finest spider webs would reach around the world.

During the nineteenth century fifty-two new islands rose from the sea by volcanic action and sixteen disap-peared.

M. Santos-Dumont, gratified with the successful flight of the aeroplane the Bird of Prey, talks enthusiastical-ly of the day when flying machines will be as common as automobiles.

If of the day when flying machines will be as common as automobiles.
A reinforced concrete standpipe, 50 feet in diameter, 106 feet high from the inside of the bottom of the tark to the top of the cornice, and with a capacity of 1,500,000 gallons, has been completed and is in service in the bottom of the tark to the atterworks system of Attleboro, Mass.
It has often been observed that a district where all vegation has vegation has been examined by scientists for an explanation of this fact, resulting in the discovery that the ash is rich in phosphates to a remarkable degree. HUMAN RACE DYING OUT. Dr. Meslier Finds the Birth Rate is Decreasing Rapidly in Nearly

Every Land. The statistics just published by Dr. Mesiler on the depopulation of the whole world are startling. Dr. Mesiler says that this is not also because the whole human race is gradually djing out. Taking the years of 1881 to 1903 he says that for every thousand married women from 15 to 55 years of age taken from diff-erent in Scotland, 10 per cent in Bavaria, 7 per cent in Italy, 7 per cent in Sweden, 11 per cent in Rew Zeat in Demark, 15 per cent in New Zeat land, 24 per cent in Saxony, 25 per cent in the state of Victoria and 23 per cent in New South Wales. Bandkeless Powder

Smokeless Powder. The color of the modern smokeless powder has the shade of dark amber. In the sense of a powder being a fine-ly divided solid, smokeless powder is no powder at all. It consists of a waxlike composition, the size of the "grains" varying according to the calibres of the guns. For use in re-volvers, rifles and sporting guns, the grains resemble the tiny perforated glass beads of the sort used in old-time needlework. For the machine guns, the rapid-fire guns and the heavy rifles of battleships and forts, the grains are cylindrical in shape, vary-ing in size from a third of an inch in diameter and half an inch in length to three-fourths of an inch in dia-meter and about two inches in length and capitality and longitudin-ally with from one to six holes, big as knitting needles, depending upon the size of the grain. Smokeless Powder

Snake Worship in India. Snakes, the objects of terror to morshiped in many parts of India. In some districts there are from 15,000 to 20,000 shrines dedicated exclusive-ly to the worship of snakes. These shrines, which are invariably in hon-or of one of the miner divinities of the country, possess, in some instan-ces, valuable properties for their maintenance and for the cost of the numerous ceremonles which their keepers have to perform. In these shrines the Hindus set up fantastic tidols of serpents. The devotees of the strange religion make periodical offerings of dough and milk and cook-ed rice to the serpents living in the shrine in order to receive their fav-or.—Kanasa City Journal. Snake Worship in India.

The English Idiom. Our English Idiom is perhaps no worse than that of other people's languages, but it sometimes leads even the native into strange sayings, which he does not realize until it is point-ed out to him. "Can you tell me where I can take an omnibus to Islington?" asked the countryman of a policeman. 'I can tell where theree is an omnibus that will take you." answered that precise official. Leav-ing this to shit. in he then added more kindly: "Want to go to Islington?" 'I don't want to go to Islington, but I have to go."-London Chronicle.

What is Pe-ru-na?

ful efficacy of this herb has been recognized many years, and is growing in its hold upon the medical profession. When joined with CUBEBS and COPAIBA a trio of medical agents is formed in Peruna which constitutes a specific remedy for catarrh that in the present state of medical progress, cannot be improved upon.. This action, reinforced by such renowned tonics as COLLINSONIA CANADENSIS, CORYDALIS FORMOSA and CEDRON SEED, ought to make this compound an ideal remedy for catarrh in all its stages and locations in the body.

From a theoretical standpoint, therefore, Peruna is beyond criticism. The use of Peruna confirms this opinion. Numberless testimonials from every quarter of the earth furnish ample evidence that this judgment is not over enthusiastic. When practical experience confirms a well-grounded the-ory the result is a truth that cannot be shaken.

Enterprise That Counts.

Enterprise That Counts. The windstorm the other day blew off the door of James T. Proctor's barn, but within 10 hours he had a man at work fixing it on again, and ted him to never mind the cost. It is such enterprise that has made Mid-napore what it is today and makes her such a formidable rival to Okotoka.—Midnapore (Alberta) Ga-zette.

Safe, Sare and Speedy.

Animal Thieves of Africa. The northwestern district of Rhodesia in particular abounds in every description of big game-ele-phant, hippotamus, giraffe, zebra, lion, buffalo, rhinoceros and antelope, with other members of the deer family too numerous to mention. Even from the railway great herds of game can be seen and are in some cases quite a nuisance.

"The Blood is The Life."

"The Blood is The Life." Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are effected, and many an evil deed or impure thought unit be treatly traced to the impurely of the bread. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purings the blood thereby curing, pimples, blotches, eruptions and other curaneous effective.

gestion and the same tism. "I had tried different kinds of diet, "I had tried different kinds of diet,

"I had tried different kinds of diet, plain living and many of the reme-dies recommended, but got no better. "Finally, about five weeks ago, mother suggested that I try Grape-Nuts, and I began at once, eating it with a little cream or milk. A change for the better began at once. "To-day I am weil and am gaining weight and strength all the time. I've gained 10 lbs. in the last five weeks, and do not suffer any more from indigestion and the rheumatism is all gone.

"I know it is to Grape-Nuts alone that I owe my restored health. I still eat the food twice a day and never tire of it." Name given by Postum Co., Battle Creek, Mich.

The flavor of Grape-Nuits is pecu-liar to itself. It is neutral, not too sweet and has an agreeable, healthful quality that never grows tiresome. One of the sources of rheumatism is form encodeding the stuttor with

One of the sources of rheumatism is from overloading the system with acid material, the result of imperfect digestion and assimilation. As soon as improper food is aban-doned and Grape-Nuts is takën regu-larly, digestion is made strong, the organs do their work of building up good red blood cells and of carrying away the excess of disease-making material from the system. The result is a certain and steady return to normal health and mental activity. "There's a reason." Read the little book, "The Road to Well-wille," in pkgs.

Union Stock Yards, Pittsburg-Pine Trees Made Into Silk.

Pine Trees Made Into Silk. About five tons of artificial silk are now manufactured daily in Europe, and the demand far exceeds the supply. This is one of the many modern prod-ucts of cellulose, that wonderful sub-stance of which the microscopic cells of plants are made, and which com-poses about one-third of all the vege-table and animal matter in the world. Robert Kennedy Duncan now profes-sor of industrial chemistry in the University of Kanasa, writing of "The Wonders of Cellulose" in Harper's Mag-azine, points out its possibilities for the manufacturer. For instance, he writes: "A pine tree is worth \$10 a ton; cut and stripped it is worth \$15; holled into pulp it is worth \$15; which, turned into viscose and spun into silk is worth \$5500." Professor Duncan argues for a closer working relation between the technical departments of the worthe \$5500." Professor Duncan argues for a closer working relation between the technical departments of the univer-sities and the manufacturer who stands ignorantly at the door of great indus-trial developments which can only arrive by the aid of modern chemistry.

Doctor Cured Her With Cuticura. "I have a consin in Rockingham Co. who once had a skin disease from her birth un-til she was six years of age. Her father had spent a fortune on her to get her cured and none of the treatments did her any good. Old Dr. G— suggested that he try the Cuticura Remedies, which he did. When he commenced to use it the child was almost in a solid scab. He had used it about two months and the child was well. I was there when they com-menced to use your Cuticura Remedies. I stayed that week and then returned home and stayed two weeks and then went back and stayed with them two weeks longer and when I went home I could hardly believe she was the same child. Her skin was as soft as a baby's without a scar on it. I have not scen her in seven-teen years, but I have heard from her she was well. Mrs. W. P. Ingle, Burlington, N. C., June 16, 1905."
