United States Stamps.

The government of the United States has decided to give up printing its postage stamps. The Bureau of 3; family feasts, 6. Its postage stamps. The Bureau of Engraving and Printing in Washington has done the work since 1894 at a loss which has amounted to considerable each year and has been made up by deficiency appropriations by Congress. The American Bank Note Congress. The American Bank Note to the property of the contract and Congress. The American Bank Note Co. has now secured the contract, and its work will be done in the same manner as that which this company turned out before 1894. The main feature of the new printing will be the engraving upon the staraps themselves of the names of 26 postoffices in the United States which do the largest business. There are 6.000 largest business. There are 6,000 smaller offices, and the stamps of these will have the names printed upon them. This is done in order to prevent postoffice robberies, as it will be impossible to dispose of any large number of stamps with the large number of stamps with the name of the office printed upon them after a robbery has been committed. An interesting field for collection i opened by this action on the part of the collection is the part of our government. The attempt to gather a collection of stamps issue from every different postoffice in . state or in the United States may be from every different postoffice in a state or in the United States may be made, and in many cases will undoubtedly be successfully accomplished. This form of stamp collecting will naturally take the place of postmark collecting, and in many ways is likely to be more interesting and instructive, as it will be the stepping store to the general collection of the stone to the general collection of the stamps of the world.—St. Nicholas.

Trouble For People With Weak Intestinal Digestion.

A lady in a Wis. town employed a physician, who instructed her not to eat white bread for two years. She tells the details of her sickness, and she certainly was a sick woman.

"In the year 1887 I gave out from over work, and until 1901 I remained an invalid in bed a great part of the time. Had different doctors, but nothing seemed to help. I suffered from cerebro-spinal congestion, fegone without any food for 10 days
the doctor ordered Grape-Nuts for
me. I could eat the new food from
the very first mouthful. The doctor
kept me on Grape-Nuts, and the only medicine was a little glycerine to heal the alimentary canal.

When I was up again doctor told me to eat Grape-Nuts twice a day and no white bread for two years. I got well in good time, and have gained in strength so I can do my own work

"My brain has been helped so much, and I know that the Grape-Nuts food did thir, too. I found I had been made ill because I was not fed right, that is, I did not properly digest white bread and some other

food I tried to live on.
"I have never been without Grape-Nuts food since and eat it every day. You may publish this letter if you like, so it will help some one else." Name given by Postum Co., Battle Creek, Mich. Get the little book, "The Road to Wellville," in pkgs.

# FINANCE AND TRADE REVIEW

DUN'S WEEKLY SUMMARY

Snow Blockades Make Traffic Situa tion Worse Than Ever, Trade Suffers.

R. G. Duns & Co.'s "Weekly Re

riew of Trade" says:
"Trade in winter fabrics improved as the weather became more season able, but reports for the week are most irregular on account of varying tmperature. Improvement in the tmpreature. Improvement in the traffic situation was checked by snow blockades, and the best railway authorities state that expanding need of the Nation can only be met by a much greater expenditure for the new track and rolling stock than has yet been contemplated, although prices of stocks have declined sharply since the announcement of proposed new is sues of securities for these pur-

"Clearance sales have made good progress, and new business for spring delivery is coming to jobbers and wholesale houses in large volume while collections show some improve ment, although still slow in man;

"Manufacturing returns could not well be more favorable, contracts in many cases covering deliveries into 1908, while at some steel and cotton

mills orders are not accepted for ship-ment during the first half of 1907.

"Available supplies of coke do not increase, although production is above all records, and prices for remote shipment are higher than recent spot

High prices will prevail in primar markets for cotton goods, yet the element of speculation is not conspicuous, many lines being in a position where no severe reaction is to be feared. Thus far few cancellations have occurred and manufacturers are strengthening the situation by conse vatively declining orders that appea to be largely of a speculative nature. There is also a disposition to distr bute rates among numerous buyers so that the risk with any singl

customer may be minimized.

"Footwear buyers in Boston are examining full samples and placing mod erate supplementary orders for spring goods, but case contracts for fal styles come out slowly and the mar ket is less active than indicated by its animation.

Popularity doesn't seem to follow any rule, says the New York Times It is like a freak of nature. A book may be popular for many different reasons. Most often, perhaps, it is because it is a love remance that produces a thrill, or it is a tale of adven-ture that is intensely exciting, or i is a story that depicts life absvirtely humanely and truly. Sometimes, how-ever, the fact that a book has the popular element in it is not discovered at once. Not one copy of the first edi-Not one copy of the first edition of FitzGerald's translation "The Rubaiyat" was sold.

### AWFUL EFFECT OF ECZEMA.

Covered With Yellow Sores-Grew Worse-Parents Discouraged-Cuticura Drove Sores Away.

"Our little girl, one year and a half old, was taken with eczema or that was what the doctor said it was. We called in the family doctor and he gave some tablets and said she would be all right in a few days. The eczema grew worse and we called in doctor No. 2. He said she was teething: as soon as the teeth were teching; as soon as the teeth were through she would be all right. But she still grew worse. Doctor No. 3 said it was eczena. By this time she was nothing but a yellow, greenish sore. Well, he said he could help her, so we let him try it about a week. One morning we discovered a little yellow pimple on one of her eyes. Of course we pianned for doctor No. 3. He came over and looked her over and said that he could not do anything more for her, that we had better take her to some eye specialist, since it was an ulcer. So we went to Oswego to doctor No. 4, and he said the eyesight was gone, but that he could help it. We thought we would try doctor No. 5. Well, that proved the same, only he charged \$10 more than doctor No. 4. We were nearly discouraged, I saw one of the Cuticura advertisements in the paper and thought we would try the Cuticura Treatment, so I went and purchased a set—of Cuticura Remedies, which cost me \$1, and in three days our daughter, who had been sick about eight months, showed great improvement, and in one week all sores had disappeared. Of course it could, not restore the cyesight, but if we had used Cuticura in time I am confident that it would have saved the eye. We think there is no remedy so good for any skin trouble or impurity of the blood as Cuticura. Mr. and Mrs. Frank Abbott, R. F. D. No. 9, Fulton, Oswego Co., N. Y., August 17, 1906." teething; as soon as the teeth were through she would be all right. But she

WOMEN SUFFER Many women suffer in silence and

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance.

How many women do you know who are perfectly well and strong?

The cause may be easily traced to some feminine derangement which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, dragging sensations, flatulency, nervousness, and sleeplessness.

These symptoms are but warnings that there is danger ahead, and unless heeded, a life of suffering or a serious operation is the inevitable result. The best remedy for all these symptoms is

these symptoms is

# Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs. No other medicine in the country has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female ills.

Miss J. F. Walsh, of 328 W. 36th St., New York City, writes:—"Lydia E. Pinkham's Vegetable Compound has been of inestimable value in restoring my health. I suffered from female illness which caused dreadful headaches, dizziness, and dull pains in my back, but your medicine soon brought about a change in my general condition, built me up and made me perfectly well."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, Inflammation and Ulceration, and organic diseases. It is invaluable in preparing for child-birth and during the Change of Life. It cures Nervous Prostration, Headache, General Debility, and invigorates the whole system.

Mrs. Pinkham's Standing Invitation to Women.

Mrs. Pinkham's Standing Invitation to Women Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

Women in Parliament.

Protests by women in parliament were not unknown during the middle Stow tells us approvingly of "a crew of stout dames" who had the courage in 1428 "to checke a great duke in open parliament." "There was one mistris Stokes," he proceeds. was one mistris Stokes, he proceeds, "with divers other stout women of London, of good reckoning, well apparrelled, came openly to the upper parliament and delivered letters to the duke of Glouster, and to the archishoppes and to other Lordes there present, containing matter of rebuke and sharp reprehension of the duke of Glouster," on account of his treatment of his wife Jaqueline. "But what good success their labors tooke, my author reporteth not."—London Chronicle

Use Gentle Methods.

Tactfulness is but the outward expression of consideration and the synonym of politeness, to which are ascribed the greatest cultivation and refinement. A kind, helpful word frequently encourages where material aid would humiliate and mortify; and no matter how stern the truth, more can always be accomplished by gentle methods forhegrance and amity than methods, forbearance and amity than by bitter harshness, which frequently results in total alienation.—Mr. Lan-don Carter, in New York Journal.

# The Story of a Medicine.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients — Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-

tract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, se generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or billiousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance kattle full list of its ingredicates, printed on every bottle-wrapper, will show that it is nade from the most valuable medicinal roles found growing in our American forests. All these ingredients have received the strongest of the discovery made and the most valuable medicinal roles found growing in our American forests. All these ingredients have received the strongest of the discovery in advised. A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be malled free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompained with catarrhal discharges, hourseness, sore throat. Impering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must hot be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will, It will cure the affections that lead up to consumption, if taken in time.
