When a woman suffering from female trouble is told that an oper-

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come frou Lydia F. Pinkham's V

Copper Business in Japan. Japan is the largest copper producing country of the Far East, but as yet her output (1905) is only one-

as yet her output (1995) is only one-fifteenth of the total production of the world. The output rose from 23,899 tons in 1899 to 36,000 tons in 1905. Copper mining is at present one of Japan's weak points, the operations being conducted without method. Her

home consumption is about 7,000

n women who by taking Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes:—Dear Mrs. Pinkham:-''Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years.'

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Dinkham's Vegetable Compound before she submits to an operation.

Mrs. Dinkham's Vegetable Tangle Invitation to Women.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

Atmospheric Jurisdiction.

Blackstone tersely says that land hath in its legal significance an inde-finite extent upward as well as down-ward. The title to the landholder exward. The title to the landholder extends to the center of the earth and to the zenith. The sovereignty of a nation is similarly extended, and it appears that the assertion of national jurisdiction over the upper regions is becoming a matter of some importance in view of the recent development of aerial navigation. The Netherlands parliament has been considering a curious bill, which, if passed will forbid any airship from landing on ering a curious bill, which, if passed will forbid any airship from landing on the territory of the Low Countries under a heavy penalty. An amusing feature of the bill is the provision that any airship maneuvering over Hol land must instantly comply with the signals made to it from below and and come down in order that the pilot may be punished. If the trespassing aerial navigators are imprudent enough to desecend somewhere else in the country, the sentence will be greatly increased.—Philadelphia Ledger.

Overwork.

More accidents involving loss of life have taken place on the railroads in the past year or two than in any previous period of equal duration. In this particular the United States has won a bad pre-eminence among the great countries of the world. There are several times more fatalities in this country on the railways every year than there are in England, Germany or France, in proportion to the number of persons traveling. Overwork on the part of employes has been the cause of many of these casculties. Physical torpor due to excessive hours of labor of railway workers is accountable for the failure, in many cases, to make use of the mechanical devices to prevent accidents.—St. Louis Globe-Democrat. are several times more fatalities in

COMMON SENSE

COMMON SENSE

Leads most intelligent people to use only medidines of known composition. Therefore it is thad Dr. Pierce's medicines, the maker of which print every ingredient entering two them upon the bottle wrappers and attest its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formula, being confident that the better the composition of these, medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit forming drugs.— Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great, blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet docs cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badiy treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" to time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of

Showing-Mercantile Collections Also Improve Steadily. Spring trade is making a most sat

isfactory comparison with the volume at this time last year, except in a few sections, where the weather is still un favorable, and mercantile collections improve steadily, despite the high money market. Leading industries have orders covering production well into the future, especially cotton factories and steel mills, while the output of pig iron when the menth opened was close to the largest on record. High prices in the footwear industry have checked placing of contracts for fall shoes at New England factories, some declines in prices of hides and leather encouraging buyers to delay ordering the finished product, but most mills are still busy on spring goods.

Prices are well maintained in all sections of the iron and steel industry, premiums being frequently offered for prompt delivery, but orders are seldom accepted on these terms because of the oversold condition of mills and

not checked demands. In this division the statistical position is beyond precedent, mills being sold ahead for many months and purchasers readily accepting whatever deliveries can be secured. Premiums above regular quotations are willingly paid for early shipments. Most jobbers have now provided for all the spring trade, but others will not be able to meet the requirements of customers. This is considered.

In China, if a member of the household becomes insone and troublesome the common custom is to chain that person to a post or to a heavy stone when in the house. In Canton is a woman who has thus been chained for 15 years. A similar case occurred in New York some years ago.

FINANCE AND TRADE REVIEW

DUN'S WEEKLY SUMMARY

Spring Trade Makes Satisfactory

Textile mills are producing at a re markable rate without threatening any accumulation of stocks, and ad-vanced prices for cotton goods have not checked demands. In this divis others will not be able to meet the re-quirements of customers. This is es-pecially the case with Western job-bers, who still receive liberal orders. Prices of grain were well maintain-ed, in view of the official report of

ed, in view of the official report of farm reserves on March 1, that showed 206,644,000 bushels of wheat, 1, 298,000,000 bushels of corn and 384,461,000 bushels of oats.

There was no change in the cotton situation, both receipts and exports continuing to exceed those of a year

MARKETS.

It looks as though spelling reform were really arriving. France proposes to make certain changes compulsory in all its schools. Thus "s" is to be substituted for "x" in plurals—"chevaus" for "chevaux." The "h" is to be dropped in certain words, giving us "retorique" and "teatre." And the French hen will henceforth do its clucking over an "euf." NEW YORK. Corn-No. 2. Oat4-No. 2 white. Butter - Creamery Eggs-State and Pennsylvania...

Iceland ponies are a fad in England. They are in great demand among the British who can afford to indulge their whims.

The Extinct Mamo.

Perhaps the most notable native bird of the Sandwich Islands was the mamo, which has been extinct comparatively only a few years. It had two little tufts of yellow feathers on its wings, which were used exclusive by in the manufacture of cloaks worn by the kings of those islands. The estimated value of one of the cloaks is £200,000, and it took an almost indefinite number of birds to furnish the feathers.—London Times,

The Value and Importance of Ethical Remedies.

Remedies which physicians sanction for family use, as they act most beneficially and are gentle yet prompt in effect, and called ethical, because they are of

Known Excellence and Quality and of Known Component Parts.

To gain the full confidence of the Well-Informed of the world and the approval of the most eminent physicians, it is essential that the component parts be known to and approved by them, and, therefore, the California Fig Syrup Company has published for many years past in its advertisements and upon every package a full statement thereof. The perfect purity and uniformity of product which they demand in a laxative remedy of an ethical character are assured by the California Fig Syrup Company's original method of manufacture, known to the Company only.

There are other ethical remedies approved by physicians, but the product of the California Fig Syrup Company possesses the advantage over all other family laxatives that it cleanses, sweetens and relieves the internal organs on which it acts, without disturbing the natural functions or any debilitating after effects and without having to increase the quantity from time to time.

This valuable remedy has been long and favorably known under the name of Syrup of Figs, and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more claborate name of Syrup of Figs and Elixir of Senna, as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of Syrup of Figs; and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co—plainly printed on the front of every package, whether you simply call for Syrup of Figs, or by the full name, Syrup of Figs and Elixir of Senna, as Syrup of Figs and Elixir of Senna is the one laxative remedy manufactured by the California Fig Syrup Company, and the same heretofore known by the name, Syrup of Figs, which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price This valuable remedy has been long and favorably known under the name of throughout the United States in original packages of one size only, the regular price

of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

WOULD KILL THEM ALL

Mexican Millionaire Would Exterminate the Yaquis.

Pedro Alvarado, whom the smile of fortune converted in a few years from a 50-cents-a-day miner to the Croesus of the Mexican Republic, now propos of the Mexican Republic, now proposes to become a promoter of peace, since his offer to pay the national debt of Mexico was declined. His plan, however, differs astonishingly from that of the American millionaire who contributes his mite to the Hague Peace Tribunal.

Peace Tribunal.

Instead of doves of peace, Alvarado would unleash the dogs of war, and all at his own expense. He offers \$10,000,000, or \$20,000,000, if need be to recruit and maintain a special army to exterminate the Yaqui Indians. He has been led by President Diaz's declaration that he would die happy if he knew his country were free of its bloodthirsty enemies to ask that he be permitted to pay the cost of such a war of extermination or subjugation, in which the Mexican Rurales have which the Mexican Rurales have

in which the Mexican Radial failed.

FOOLED THE PREACHER.

A Doctor's Brother Thought Postum Was Coffee.

A wise doctor found out coffee was hurting him so he quit drinking it.

He was so busy with his practice, however, that his wife had to write how he fooled his brother, a clergy-

man, one day at dinner. She says:
"Doctor found coffee was injuring
him and decided to give Postum a trial, and we have used it now fo four years with continued benefit. In fact, he is now free from the long train of ills that follow coffee drink-

"To show how successful we are in making Postum properly, I will relate an incident. At a dinner we gave, doctor suggested that we serve Pos-

tum instead of ordinary coffee.
"Doctor's brother, a clergyman, supposed it was old fashioned coffee and remarked, as he called for his second cup, 'If you do preach against coffee I see you haven't forgotten how to make it."

This goes to show that well-made—fully boiled—Postum has much the flavor and richness of good coffee although it has an individuality all its own. A ten days' trial will prove that it has none of the poisonous effect of ordinary coffee but will correct the troubles caused by coffee. "There's a reason." Name furnished by Postum Co., Ltd., Battle Creek, Mich.

The Chinese fish with a net suspended at the end of a bamboo pole. The fishermen, when he desires to raise or lower his net, walks up or down the balance board.

One trial will convince you of the reculiar fitness of Nature's reme y. Garfied Tea. For liver, kidneys, stomach and bo els, for impure blood, rheumatism and chronic allments.

Crow's Hidden Treasure.

where all were waiting to welcome the guest of the evening, Mr. Barnum came in beaming, and, shaking hands with the chairman, said, "This is indeed a surprise to me."
"Did you hear that?" Mr. Sala whispered to a friend. "Why, he arranged for the dinner himself." Crow's Hidden Treasure.

A well-known naturalist speaks of a wild crow which made a collection of bits of broken china and similar odds and ends, and hid them in a nettle patch. One day the naturalist stumbled on the bird standing in the middle of his treasures and arranging them. Next day they were all gone. The crow, aware that his secret hiding place was known, had moved everything to some new spot. Allcock's Plasters have successfully stood the test of sixty years' use by the public; their virtues have never been equaled by the unscrupulous imitators who have sought to trade upon the reputation of Allcock's by making plasters with holes in them, and claiming them to be "just as good as Allcock's."

Allcock's Plasters stand to-day indorsed by not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy.

The knowledge of what we have missed and the way in which we have missed it, may be the "open sesame" to unexpected treasure

druggists or by mail. Remember, however, IT COSTS YOU NOTHING TO TRY IT.
