The Balancing Power

is usually the most important part of a machine. So it is in a prescription. Each item must be properly balanced by some other, all the others, and together they make the scale turn in favor of health. The proper compounding of a dose of medicine cannot be too strongly insisted upon. We insist upon it in our house. Mistakes are not tolerated, nor are people who make them.

SPECIAL CIVIL COURT.

A special term of civil court to continue two weeks has been ordered by Judge Kooser, commencing Monday, April 8th. Twenty cases have been placed on the calendar for each week, and several of those set for the first week will be held by a foreign Judge, for the reason that Judge Kooser was concerned in them as counsel. For the first week the cases are:

Somerset Collier Company vs. A. F. John. Concerns a mortgage.

Henry Smith vs. Smith's livery stable. An appeal by defendant.

John Lemon Davis vs. John William Haws. Capias ad respondendum.

POWHATAN GUARDS.

Jamestown Exposition Police Department, Strong and Well Organized.

Norfolk, Va.—The Jamestown Exposition police department consists of 100 men with headquarters on the grounds. Captain H. W. Carpenter, of the United States Marine Corps, specially assigned, is commandant, and Captain E. G. Currey, formerly of the army, with a record in the Philippines, is adjutant. The force includes a secret service, a detective bureau and a uniformed patrol. The Guard is part foot, part mounted and part assigned to water front service, the latter being provided with launches. The Guard is under military discipline, and its uniform is of military character, gray with red trimmings, including shoulder straps of red, and stripes down the seams of the trousers, of the same color. The coats are of the blouse cut, and belt with sword is worn, the mounted men having the cavalry sabre, and wear riding breeches and puttees. Great slouch hats are worn. The jurisdiction of the exposition extends a mile without the grounds, under the act of the Virginia Legislature, and offenders are taken before magistrates especially appointed and holding court within the grounds, one by day, another by night. Cases brought before them will receive immediate attention. The Powhatan Guard will enforce the regulations of the exposition company, preserve the peace and protect property and persons. The detective force has been drawn from the forces of many cities and the leading detective agencies, and is thoroughly familiar with the world of so-called "crookdom." Criminals of all sorts are known to

them, and will not be permitted to remain on the grounds nor in the vicinity of Norfolk or contiguous cities.

Incoming trains and boats will be watched at the exposition end, and in addition it will be difficult for any criminal known to the police of any of the larger cities to get well started on his way for the exposition vicinity. Thus a crook leaving New York on a steamer bound for the Tidewater of Virginia would be almost sure to be "spotted" before the vessel sailed. All of the towns near Norfolk, and all of the resorts to which the crowds will flock, are similarly protected.

The secret service will be quite a separate branch of the police, and its duties will include "tabs" on exposition matters generally, as well as upon the police force itself and its manner of performing its duties.

Concerning Births and Deaths in Somerset County.

A surprise was sprung on the County Commissioners, recently, when bills of registrars of vital statistics for 1906, endorsed by the state health department, came in from registrars all over the county.

Under the act of 1905 the reporting of births and deaths was taken from the assessors, who had previously been allowed 5 cents each for the same, and vested in "Registrars of Vital Statistics," appointed by the state, each of whom reports a district composed of several townships or boroughs, to the state health department, and receives 25 cents therefor instead of 5.

It was generally supposed that the state would pay the bills, as the registrars are subordinates of the state health department, but the act creating the office of registrar provides that they shall be paid by the counties. The registrars make out their bills annually and forward them to Harrisburg for the "O. K." of the health department. Subsequently they receive endorsed printed bills, which they present to the county commissioners for payment.

According to registrars' bills filed, in 20 out of the 45 precincts in the county, there were 1,058 births and deaths last year, or an increase in population of 469, and there were more births than deaths in every district. At the commissioners' office there is complaint that the new method of registration is too expensive. Bills received so far aggregate \$411.75, while the same work done the old way would have cost only \$82.35. At this rate it will cost the county nearly \$1,000 annually.

The county is apportioned as follows:

William B. Shaffer—\$93.25, 238 births, 135 deaths—Somerset borough, Somerset township, Jefferson and Lincoln townships.

Sevilla Geiger—\$15, 37-13—Northampton, Larimer and Greenville township.

Irvin P. Dull—\$22, 73-27—Hooversville borough and Shade township.

W. S. Mountain—\$27, 104-44—Confluence borough, Addison and Lower Turkeyfoot townships.

Robert G. Colborn—\$82, 197-131—Windber borough.

LeRoy Forquer—4.75, 12-7—Ursina borough.

C. L. Friedline—\$20.50, 56-28—Stoyestown borough, Quemahoning township.

Harvey Hay—48.75, 139-56—Salisbury borough, Elk Lick township.

William H. Hoffmeyer—\$85.50, 202-140—Meyersdale borough, Summit township.

And Still the Children Die.

School in 1950—Teacher (to newly arrived pupil)—"Have you your vaccination certificate with you?"

"Yes, sir."

"Have you been inoculated against croup?"

"Yes, sir."

"Have you been vaccinated with the cholera bacillus?"

"Yes, sir."

"Have you a written certificate that you have been made immune against whooping cough, measles, and scarlatina?"

"Yes, sir."

"Will you promise never to use the sponge and slate-pencil of your neighbor?"

"Yes, sir."

"Are you willing that at least once every week all your books be thoroughly fumigated with sulphur and your clothes be disinfected with mercuric bichloride?"

"Yes, sir."

"Very well, then, as you possess all the necessary protective measures prescribed by our modern hygienic requirements, you may mount over that wire enclosure and take yonder isolated aluminum seat and begin your lessons."
