Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs.

Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her hus-band, should be a woman's constant

If a woman finds that her ener-If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs. It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements. Inflammation and Ulceration, and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Exples Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache. General Debility, Indigestion, and invigorates the whole female sysem. It is an excellent remedy for derangements of the Kidneys in either sex.

BABY'S ECZEMA GREW WORSE.

Hospitals and Doctors Could Not Re-lieve Disease—Cuticura Remedies a Speedy, Permanent Cure.

a Speedy, Permanent Cure.

"Eczema appeared when our baby was three months old. We applied to several doctors and hospitals, each of which gave us something different ever time, but nothing brought relief. At-last, one of our friends recommended to us Cutteura Soap and Cuticura Ointment. A few days afterwards improvement could be noted. Since then we have used nothing but Cuticura Soap and Cuticura Ointment, and now the baby is six months old and is quite cured. All that we used was one cake of Cuticura Soap and two boxes Cuticura Ointment, costing in all \$1.25. C. F. Kara, 343 East 65th Street, New York, March 30, 1906."

Study Locomotive Economy.

The Pennsylvania system is investigating the problem as to how many miles a locomotive should make before being sent to the shop, irrespective of whether it is broken down or not. An expert engineer is studying the problem and is making exhaustive reports on the mileage that can be made economically by a locomotive before it should be sent to the shops when it makes the specified run, regardless of its general condition.—Iron Trade Review.

Afraid of His Wives.

New York's Population.

The rapid growth of the Nation's great metropolis is a source of national interest and pride. Statisticians figure that the population of the city will exceed that of London by the year 1915, and will double in 25 years. The present generation will undoubtedly see in New York the world's greatest metropolis. Few persons realize that the poulation of New York City is already one in twenty of the population of the entire United States, or that the growth of New York City in the century past has been five times more rapid than the growth of the whole country.

Afraid of His Wives.

According to a writer in Applecton's Magazine, the Sultan of More wives. One night his majesty concluded he had had enough of the chematograph. The ladies of the world have run the next spool off, I shall cry out as usual, More, more, but I want you to reply in Arabic, 'No, no, O Great One; for to-night I have finished; to-morow, if it be God's will.' And thus comically was God's regent on earth relieved of tedium as he went through the pantomine with his 'More, more,' but I want you to reply in Arabic, 'No, no, O Great One; for to-night I have finished; to-morow, if it be God's will.' And thus comically was God's regent on earth relieved of tedium as he went the purch the partonipme with his earth relieved of tedium as he went through the pantomime with his photographic instructor, La la Sidi. Dabba class Rudar, Inshallah, the obedient Avery would reply. And thereupon the Sultan would turn to a great vista of female faces, or rather glowing eyes, with the remark, "There, there, Teja Avery will show no more to-night, so off to bed with you all!"

Colors in Minerals.

By subjecting minerals containing various metals to the spark of a high-tension induction coil characteristic colors are imparted to the spark by the different metals. It is not the heat that produces these colors, but centrifugal force, which, like radio-active matter, puts the corpuscles of the molecule in motion.

Deafness Cannot Be Cured

Muddy Days in London.

It has been calculated that the cost of a muddy day in London is something like \$25,000. This is not surprising when one remembers that no fewer than 22 tons of mud are carried about from place to place on the wheels of carts and carriages and horses hoofs. After a wet day the dry mud brushed from people's clothing amounts to 15 tons, and a very similar amount is shaken out of door 'mats. City mud, however, has its good points. The shoeblack increases his earnings in the muddy weather, and new silk hats and dresses and boots and shoes are each and all the direct outcome of its and all the direct outcome of destructive qualities.—London

The inducements to adopt Nature's perfect Laxative, Garfield Tea, are many. It is made wholly of simple Herbs and is guaranteed under the Pure Food and Drugs Law; it overcomes constitution, regulates the liver and kidneys, purifies the blood and brings Good Health.

Rooks Observe Sunday.

All the animal world appears to know a Sunday from a week day. There is a tradition in Lancashire, and perhaps elsewhere that the rooks always commence building on the first Sunday in March. This has been frequently verified by observation, and the punctuality of the rooks night almost claim to exceed the limits of coincidence.—Country

FINANCE AND TRADE REVIEW

DUN'S WEEKLY SUMMARY

Backward Spring Delays Trade Ex cept in Metal Mills, Trolleys Buying.

Weather conditions, unseasonable almost beyond precedent, have re tarded retail trade and agriculture to an extent that cannot be measured but the loss will be considerable.

Spring opened with the brightest of prospects for business, and crops, but record-breaking results can no longer be attained. May thus far has brought complaints of excessive cold from almost every section of the country, and in many cases it is found that recornille collections. that mercantile collections have been

that mercantile collections have been slow on that account.

Freight congestion is relieved, though. Thaffic is heavy, partly in preparation for fall and winter busi-ness, which is viewed with confi-dence. Last year's pressure causes a big movement of coal and attractive

prices bring a vast tonnage of wheat to primary markets.

The outlook in the iron and stee The outlook in the hon and seed industry was never brighter. Steel rails are constantly ordered. Much new business is in light rails for trolley lines. Makers of agricultural implements are purchasing bars freely.

Textile mills are still actively engaged as a rule, but in the primary markets there is some irregularity. Cotton goods are no cheaper, but the effect of the backward season on re-tail trade is, felt in all departments. Business at first hands is more ac-

tive on forward contracts than for quick delivery, and there is less of-fering of premiums for spot goods. Yet the mills are not offering concessions, which may be due in part

cessions, which may be due in part to the high cost of raw cotton. The only interest of the jobbing trade is in fall goods, as current needs have been supplied.

Export trade continues featureless. The only sales are small parcels for the Red Sea. As to woolens, men's wear orders appear less freely. This slow movement is attributed also to the weather. Retail clothiers are making little preparation for another season when contributions are so slow.

Weather reports have dominated commodity exchanges, with a net result of further rise in prices. Domestic statements of injury by insects and cold were supplemented by poor progress in many other nations. Better traffic conditions and attractive quotations bring large arrivals of wheat at primary markets.

Calves.

Referring to the get-rich-quick swindles the New Orleans Picaqune remarks: "It is this sort of thing which attracts investors like molasses draws flies, and they are so eager to get in early that they don't realize their situation until they are wholly and hopelessly stuck in the plausible "sweets." If a swindle is to be successful, it must offer some line of business of which the proposed victim is absolutely ignorant and promise him profits that are entirely fabulous and utterly impossible, and the game will succeed in fleecing its victims."

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has established to the high state. its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent suceess and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the preper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the expellence of the combination language. of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co—plainly printed on the front of every package, whether you simply call for—Syrup of plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per hottle. is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1505.

Curious Marriage Customs.

Wedding customs in Servia, that little kingdom of Europe, are curious, little kingdom of Europe, are curious, indeed, from an American standpoint. For instance, neither the bride nor the bridegroom is the most important figure in a Servian wedding, but the best man takes the leading part. He carefully guards the bride all the day before the wedding takes place, and sleeps outside her chamber the night before the girl is to be married. He wears a big, stiff sash, made of heavy silk, carries a big white staff and a huge boquet all for himself.

himself. There are no bridesmaids, but two god-fathers, each of whom presents to the bride a silk dress. After the priest has performed the ceremony the best man takes the bride around the church, and she kisses all her girl friends good-by and is finally carried off to the bridegroom, who at last gets his wife from the hands of the best man.

best man.

Then the happy couple return to their intended home. Bridal tours are foreign to Servian ideas and only the very rich or the nobility indulge in them.

Secretary Taft as a Reporter. Like Chief Justice Fuller, Secre-tary Wilson and other men high in the public service and confidence, the public service and confidence, Secretary Taft began his career as a newspaper man. The first money earned by him after being graduated from Yale was as court reporter on a Cincinnati paper, the old Commercial-Gazette, then edited by Murat Halstead. Mr. Taft started at \$6 a week, and when he quit had worked up to "twenty per." All the time he was thus engaged he was studying law at night under his father's direction. Necessity did not drive ing law at hight under his father's direction. Necessity did not drive him to the work, as his father was a man of ample fortune, but the Secretary chose it heegage it was the readiest entrance to active employment that brought him daily in content with lawyers and court preceded. tact with lawyers and court proceed-

> CHANGE IN FOOD -Works Wonders in Health.

It is worth knowing that a change In food can cure dyspepsia. "I deem it my duty to let you know how Grape-Nuts food has cured me of indigestion.
"I had been troubled with it for

years, until last year my doctor recommended Grape-Nuts food to be used every morning. I followed instructions and now I am entirely well.

"The whole family like Grape-Nuts, we use four packages a week. You are welcome to use this testi-

monial as you see fit."

The reason this lady was helped by the use of Grape-Nuts food, is that it is predigested by natural processes and therefore does not tax the stomach as the food she had been using; the secontains the elements required. it also contains the elements required for building up the nervous system. If that part of the human body is in perfect working order, there can be no dyspepsia, for nervous energy rep-resents the steam that drives the engine.

when the nervous system is run down, the machinery of the body works badly. Grape-Nuts food can be used by small children as well as adults. It is perfectly cooked and ready for instant use.

Read, "The Road to Wellville," in pkgs. "There's a Reason."

World's Smallest Cattle.

Celebes, an island in the Malay, archipelago, has the distinction of being the home of the smallest living representative of the wild cattle. An idea of the extremely diminutive proportions of the anoa, as the animal in question, which has some of the characteristics of the buffalo, is called, may be gained when it is stated that its height at the shoulder is only 3 feet 4 inches.

HIN reply to an advertisement for a woman typist at a salary of \$3.75 a week a London firm on March 4 received no fewer than 397 replies.

Business of the gondoliers of Vencie is being invaded by women and the men are organizing unions to drive them out.
