## SALISBURY'S GREATEST STORE.

### The Big Success in Dress Necessities.

The "Foster" Hose Supporter.

It's the best supporter in this broad land: a supporter that has won its way, not through advertising or pictures or displays or false promises, but just through "Dress Makers who know how" and satisfied patrons, who didn't, but do now. You can't make a mistake if you look, because,

**"The Name is on the Buckles."**

It has many imitators, but no competitors. It is not a question of price here, the price is right—not any higher than the don't-last-any-time-kind, but it is a question of quality, and that is best.

You cannot fulfill your daily duties with a hose supporter that doesn't support.

We have the kind which is guaranteed to do its duty—made of best materials for service and style—at a price that is safe.

**"The Foster," the Peer of Hose Supporters.**

## CONTINENTAL CASUALTY COMPANY.

### Health and Accident Insurance—Popular Monthly Payment Plan.

W. M. Pletcher, district manager of the above named company, is in town, and has organized an insurance club, the monthly premiums of which range from \$1.00 to \$2.00, to be paid each month to Albert Reitz, cashier of the First National Bank.

This appeals to every class, as sickness and accidents are no respecters of persons. Every one whose time has a money value should insure against the loss of it by sickness.

**FACTS SPEAK LOUDER THAN WORDS.**

This company is 21 years old, and pays over 200 claims daily. It has paid to policy holders, \$8,834,000. Cash capital, \$300,000, and has deposited with the Insurance Departments of the different states, \$200,000.

Insure now with this old reliable company. For further particulars, call and see W. M. Pletcher, the District Manager, at the Valley House.

You cannot tell what day you may meet with an accident, or get sick, and you cannot get a better sick and accident policy than the Continental offers you.

Main office, 1208 Michigan Ave., Chicago, Ill.

STAR OFFICE, Elk Lick, Pa.

WHEN A MAN TELLS YOU it does not pay to advertise, he is simply admitting that he is conducting a business that is not worth advertising, a business conducted by a man unfit to do business, and a business which should be advertised for sale.

IT IS BAD BUSINESS to allow people to look in vain through the columns of THE STAR for an advertisement of your business.

TRY IT!—Our Bonne Et Belle Typewriter Paper. We furnish it blank, in full letter sheets, 8 1/2 x 11 inches, for only \$1.10 per ream. We also furnish it printed, when desired, at customary prices. We also have many other grades and brands of typewriter paper, and it's all good.

### OUR DEAREST FOE.

The United States Agricultural Department warns the farmers of the country that the rat—the big Norway rat—is a most expensive luxury. It is said that a healthy rat, and nearly all rats seem to be wonderfully healthy, will eat or destroy 50c. worth of grain a day. The rat census has never been taken, but the department suggests \$100,000,000 as the probable value of the cereals consumed yearly by the rats of the United States. The annual loss by rats in France is given as \$40,000,000. The people of little Denmark lose \$3,000,000 a year by rats. It is evident that the rat holes will bear looking into, as President Lincoln said. Rats consume a great deal of waste, but that waste could be much better disposed of. The rats are a heavy drain on the profits of agriculture, and the loss they cause is by no means confined to food.

The agricultural department tells us that rats destroy eggs and young poultry, pigeons, game birds and wild song birds. They have been known to kill young rabbits, pigs and lambs, and even to attack children. Carl Hagenbeck once lost three young elephants because rats gnawed their feet, inflicting incurable wounds. They enter stores and warehouses and destroy drygoods—lace curtains, carpets, woollens, silks—as well as kid gloves and other leather goods. They gnaw through lead pipes, flooding buildings with water or filling them with gas. They injure furniture and the foundations and doors of buildings. They eat the insulation from electric wires, thus causing disastrous fires. The average fire loss in the United States due to defective insulation is placed at \$15,000,000 annually, a considerable part of which is said to be caused by rats.

The Philadelphia Press thinks this is a terrific indictment of the rat, but besides, rats are the host of the germ of the Bubonic plague, and they are the active means of spreading that disease. They are the most prolific of animals. The young female begins to breed at three months old, and will produce from three to six litters a year, and ten little rats at a litter. A single pair breeding without check would in three years be responsible for a rat population of 20,155,392.

If it were not for the dogs, traps, poisons and many other enemies of rats, there would soon be no room on the earth for anything but rats. Their numbers are kept down, but the rat population is nevertheless enormous and costly. The Agricultural department has published a bulletin entitled "Methods of Destroying Rats." Every farmer and every man who has rats on his premises should procure this bulletin and put its precepts into practice, says the Uniontown News Standard.

### CHAMBERLAIN'S PAIN BALM.

It is an antiseptic liniment and prevents blood poisoning resulting from a cut, bruise or burn. It also causes the parts to heal without maturation and in much less time than when the usual treatment is employed. It allays the pain of a burn almost instantly. For sale at Miller's Drug Store. 7-1

### GOT EIGHT YEARS.

Slayer of Truman Root, at Friendsville, Md., Goes to the Pen.

Cumberland, Md., June 15.—Judges Boyd and Henderson, sitting as a jury, yesterday rendered a verdict of guilty of manslaughter in the case of John Brown, for the murder of Truman Root, at the home of Mrs. Mary E. Friend, near Friendsville. It appeared the men, who were lumbermen, had quarreled over the woman, and Truman was stabbed. Mrs. Friend did not see the tragedy. Brown was sentenced to eight years.

### A YEAR WITHOUT SUMMER.

Recent Erratic Weather Revives Memories of 1816.

The erratic weather this spring has revived interests in accounts of the cold season of 1816. In old newspaper files it is known as "the year without a summer." There had been nothing like it in the memory of the oldest persons then living, and there has been nothing like it since. May was a month of frosts, and snow and ice formed an inch thick, 'tis said. At least one man was frozen to death in Vermont, where snow fell to the depth of ten inches. There was three inches of snow in New York, and water froze in ponds on the Fourth of July as far south as Virginia. Corn was killed.

August was no better, and the succeeding months were cold. In the spring of 1817 seed corn was sold for \$2 a bushel. Similar conditions were reported from Europe.

In an Albany paper, dated several years ago, James Winchester, ninety years old, of Vermont, was quoted on his knowledge of that strange summer.—Kansas City Star.

### DO NOT NEGLECT THE CHILDREN.

At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale at Miller's Drug Store. 7-1
