

## PUT TRUST CHIEFS IN JAIL

Noted Men Deliver Addresses at Jamestown Exposition.

## TRUSTS AND MACHINES SCORED

President Wilson of Princeton and Governor Hughes of New York State Their Views.

Independence day was celebrated at the Jamestown Exposition by the first reunion of descendants of signers of the Declaration of Independence and speeches by Gov. Charles E. Hughes of New York and President Woodrow Wilson of Princeton University. The attendance of visitors numbered over 50,000.

Gov. Hughes was the center figure and was given an enthusiastic welcome. His tribute to President Roosevelt brought forth a demonstration, but the blows he struck at political machines and his confidence in the supremacy of the people were the signals for even greater applause.

President Wilson said, speaking of the unlawful practices of modern industry:

"One really responsible man in all one real originator of the schemes and transactions which are contrary to the public interest—legally looked in the penitentiary, would be worth more than a thousand corporations mired in fines, if the reform is to be genuine and permanent."

What this country needs, Mr. Wilson said, is not government ownership of railroads, but laws that will punish presidents and general managers of railroads—for evasions and violations of the statutes. Stock manipulations, he called "sheer thefts" and said they should be punished as such. Failure to do so is like overlooking highway robbery. It is only in this way we can escape socialism. It is as absurd to indict or dissolve corporations for offenses against the public as it would be to arrest and confiscate automobiles because their owners killed pedestrians. If the individual is made responsible the difficulty will be solved.

## NAVAL BASE ON PACIFIC

United States Proposed to Buy One From Mexico.

Negotiations are now pending for the purchase by the United States from Mexico of Magdalena bay on the peninsula of Lower California. It is intended to establish there a naval base with sufficient coal supply to serve all the ships on the Pacific station.

If Mexico does not care to sell the bay with the necessary land for the purposes of the United States, then this country stands ready to buy the whole peninsula. Overtures have been made to the Mexican government by the state department and information has come through Ambassador Creel that Mexico thinks well of the proposition. It is probable that nothing definite will be done in the matter until fall, when Secretary of State Root will go to Mexico.

## ROCKEFELLER IN COURT

Says is Position is Honorary and He Knows But Little.

John D. Rockefeller, on the witness stand in Judge Landis' court in Chicago, pleaded ignorance of the Standard Oil Company's affairs, saying that while he was president of the company the position was an honorary one, and that it had been many years since he had any active part in its management. Another official, however, said that the Standard Oil Company of New Jersey owns the controlling interest in the Standard Oil Company of Indiana, which was the principal thing the court wanted to develop.

## Seven Years Past the Century.

Mrs. Mary Manley celebrated her 107th birthday at the residence of her grandson, N. W. Danforth, at Cumberland, Md., July 4, having been born in County Mayo, Ireland, in 1800. She was previous to her marriage Miss Mary Welsh, and came to America 84 years ago.

## ASSOCIATE MASTERS, NAMED

Judge Aldrich Unwilling to Sit Alone on Mrs. Eddy's Condition.

Dr. F. J. Jelly of Boston, a specialist in mental diseases, and Dr. G. A. Blumer of Providence, R. I., were appointed co-masters with Judge Edgar Aldrich of Littleton, N. H., to determine the competency of Mrs. Mary Baker Eddy, the founder and head of the Christian Science faith to transact business and care for her own interests.

Judge Aldrich wrote to Judge Chamberlain, who has presided over the Eddy litigation, that he hesitated about accepting the sole responsibility on account of "the delicacy and sensitiveness of the situation, and in view of the general public interest in the question."

## Jesse R. Grant for President.

Jesse R. Grant's boom for the Democratic presidential nomination was launched at a dinner given him at St. Louis, Mo., July 7. Grant is going to Arkansas in a few days, thence to Texas and elsewhere in the south and west to look over the situation.

## GIRL JOCKEY WINS

Missouri Girl Makes Debut as Rider—Cheered by Crowd.

Miss Dorothy Tyler, aged 14, daughter of R. B. Tyler, former mayor of Joplin, Mo., made her debut as a jockey at the local race track and won her first event, a quarter-mile race, on her own horse, Blackmore, crossing the wire ahead of Dolly Varden, ridden by Will Brown, and Annie, with a professional jockey named McDowell, up.

## BETRAYED BY A WOMAN

Bank Clerk Soon Caught—Part of Stolen Money Found.

Chester B. Runyan, the paying teller of the Windsor Trust Co. of New York, who embezzled \$96,317.70, was arrested this afternoon by policemen attached to the West One Hundred and Fifty-second street station, where he had been hiding since he disappeared on Saturday. Mrs. Laura M. Carter, with whom he had been living, betrayed him to the police.

Of the \$96,317.70, which Runyan stole from the trust company, \$51,410 was recovered by the police, and \$15,000 of the rest was accounted for. What became of the remaining \$29,907 has not been definitely determined. Runyan told the police he gave \$15,000 of it to Mrs. Carter, who claimed Runyan gave her \$5,000, which she subsequently returned to him. She did admit that he had spent large individual sums on her, principally for valuable jewelry, believing that she knew more about the missing \$26,000 than she was willing to tell, the police detained Mrs. Carter on a charge of grand larceny.

After his arrest Runyan made a statement which, in the opinion of the police, showed that his escape was the most farcical which had come within their ken in recent years. He said he had stolen small sums from the company until he had defaulted \$16,000, and that he had lost this sum speculating in stocks. Then the opportunity to take a large sum came. He took it without knowing just why, he said. When he walked out of the company's office on Saturday with \$80,000 in a valise, he had no definite plans.

## PRISON FOR BANK CLERKS

Sentence Passed Upon Two Clerks of Enterprise Bank.

New trials were refused the men convicted of crimes in the transactions of the defunct Enterprise National Bank by Judge Nathaniel Ewing in the United States District Court at Pittsburgh. Two of the five were sentenced to terms in the Western penitentiary; sentence in one case was suspended and two more were held over.

Edward P. MacMillan, general bookkeeper, was sentenced to serve six years six months and to pay the costs of the trial. Charles Menzemer, discount clerk, was sentenced to serve five years and 10 months.

In the case of George L. Ralston, individual bookkeeper, who was convicted of misapplication and abstraction of funds, was suspended to await the outcome of another charge against him.

In the case of Thomas W. Harvey, teller, and Lambert S. Cook, who was a business associate of Cashier T. Lee Clark, and who is charged with aiding and abetting Clark in his speculations, which ended with the wrecking of the bank and the suicide of Clark, sentence was deferred.

## AGAINST POPE AND PRIESTS

Garibaldi Centenary Seized On as Occasion for Big Outbreak by People in Rome.

The centenary of the birth of Garibaldi was celebrated in Rome as a national holiday. Shops which attempted to remain open were forced to close by a table which paraded the streets from an early hour. It is estimated that there were 50,000 people in the procession.

Anti-clerical feeling ran high. Hurrahs for Garibaldi were drowned by shouts of "Death to the Pope and priests." When the procession passed the front of the Hunt Club the mob shouted "Down with the aristocracy," and when in front of the Austrian embassy, "Down with Austria."

The Vatican was surrounded by troops and the bridge leading thereto was strongly guarded.

## UNITE AGAINST ZELAYA

Three Central American Republics Join in a New Combine.

The report from Honduras that a new alignment has been effected in Central America by a union of Guatemala, Honduras and Salvador against Nicaragua, appears plausible to the diplomats of those countries in Washington.

The alliance is in opposition to the schemes of Zelaya, the Nicaraguan president, to unite these four republics and Costa Rica in a confederation, of which he would be the virtual dictator.

## MUTINY AND MURDER

Russian Soldiers Revolt, a Jew-Baiter is Slain and Political Prisoners Are Freed.

Twenty-two soldiers of a battalion at Bobrinsk mutinied. Before they were subdued they killed three soldiers and wounded a sergeant and four soldiers.

Capt. Pashkin of the Gendarmierie was assassinated at Yekaterinburg and the murderers escaped. He was the organizer of the attacks on the Jews at Volgoda in October, 1905, when many Hebrews were massacred.

At Bakmut four armed men attacked troops guarding nine important political prisoners, killing one soldier and wounding another and enabling the prisoners to escape. Troops captured two of the attacking party and recaptured six of the prisoners.

## Telegraphers' Strike Order Recalled.

President Small of the Telegraphers' Union has temporarily withdrawn the order for an early strike in Chicago, pending the report of United States Labor Commissioner Neill to adjust the trouble with the Western Union and Postal Companies.

From Odessa comes the report that the Black Hundreds there have begun Jews, and that several of this unhappy people have already fallen victims to their violence.

## TOWN NEARLY DESTROYED

A Tornado of Great Violence Reported from Wisconsin.

## SEVERAL KILLED; MANY HURT

Horse and Buggy Blown Away—Woman Found in Top of Tree.

Mr. and Mrs. John Dame were killed at Oakdale, Wis., by the tornado, and Mrs. Wm. Butterfield was fatally injured. The town of Oakdale, population 500, was nearly swept away.

The village of Toro was struck by the storm. A woman named Paves and her child were killed. Many other persons were injured.

It is now believed that at least 15 persons were killed. At Oakdale there were two whose names have not been reported; at Millston, Mrs. Jasper Poff and baby; at Fryeville, Andrew Daumel; at Warrens, two children of Jos. Buchner; at Dillsville, Lyman A. Charles, Mrs. Augusta Byers and son; at Grand Rapids, five unknown persons.

Gustave Stucke and Otto Balgordel were injured at Tunnel Siding. Elise Wensel was driving a horse and buggy when the storm struck her. The vehicle and horse were blown away and have not been found. Miss Wensel was blown into the top of a tree.

At the home of Lyman Charles a social gathering was in progress. The host was caught in the ruins of his home and killed. One of his guests was probably fatally injured, while several were severely hurt.

## SHUT-DOWN WILL BE BRIEF

Unprecedented Demand for Finished Steel Shapes Will Make July Busy.

The Iron Age says: While there will be some closing down of mill and steel plants for repairs and betterments during July, it will be less than usual, owing to the great pressure for deliveries. In nearly every branch of the finished trade it is the same story of a rush of specifications, and in some the mills have not made any headway at all to relieve the congestion. The operating departments are therefore driven to the utmost.

Pig iron is being taken right along on old contracts, and there is some demand for anticipating shipments, which indicates that the consumption continues on an unprecedented scale. It is doubtful, however, whether we shall continue to absorb much foreign pig iron. It is understood that a good deal of foreign iron was imported under an arrangement with a large miller, and that the latter would take all that could not be sold in the market over a certain price, and this price, it is believed, has now been reached.

## WALKED OFF WITH BIG SUM

New York Bank Officials Are Astonished by Daring of Trusted Employee.

Calmly stuffing \$96,317 into a dress suit case, Chester B. Runyan, paying teller of the Windsor Trust Company, New York, is alleged to have cheerfully bade his co-workers goodby and then disappeared, since when no trace of him having been found. The robbery was so daring in its conception that the bank officials have not yet recovered from their amazement.

A reward of \$2,500 has been offered for Runyan's apprehension. The theft was discovered Monday morning, July 1.

## DROWNED BY A FISH

Fifteen-Pound Pickerel Upsets Boat, Throwing Out Occupants.

After hooking a 15-pound pickerel, Mrs. Geo. Cutler and Chas. T. Chambers, both of Iowa, Mich., lost their lives in Chippewa Lake in attempting to land the fish. The pickerel was hooked upon a trolling line, and running under the keel upset the boat, throwing Chambers and Mrs. Cutler into the water, drowning them.

## Increase in New Vessels.

A greater number of vessels and vessels of immensely greater tonnage were built in the United States during the fiscal year just ended than in any year for the past half century, and the gross tonnage of the vessels has been exceeded during only two years in American history. During the year, 1,463 vessels of 510,865 gross tons, were built in the United States and officially numbered by the bureau of navigation. Ship construction in 1855 aggregated 583,450 tons, and in 1854 was only 538,046. In those years the tonnage built in the United States greatly exceeded that of Great Britain.

## Roberts to Succeed Eckels.

The resignation of G. E. Roberts as director of the mint will take effect on Aug. 1. Mr. Roberts has been elected president of the Commercial National Bank of Chicago, to succeed the late James E. Eckels. Mr. Roberts' successor has not yet been named.

The French government has conferred the Cross of the Legion of Honor on Richard Strauss, the German composer.

## Texas Town Partly Destroyed.

The town of Merkel, Tex., was partly destroyed by a storm. A dozen dwellings and many barns and out-buildings were blown from their foundations. Several persons were badly injured, including R. A. Miller, Geo. Langdon, Mr. and Mrs. Parker and an unknown boy.

## A Lithuanian woman in jail at Scranton, Pa., reported by police to have confessed that she burned her husband to death so she might be free to marry a former sweetheart.

## AN ERRAND OF PEACE

Oyster Bay Punctures Tale That Jap Troubles Induce Pacific Cruise.

The basis of a report that a fleet of 16 American battleships was to be sent to the Pacific is probably explained in an official statement made public at the executive offices, Oyster Bay, N. Y., July 4. It is intimated that the battleships may go to the Pacific in the near future, but if they do it will be in the furtherance only of a plan of routine naval maneuvers. The matter of destination is undetermined and the fleet is quite as likely to be ordered to the Mediterranean or to the South Atlantic as to the Pacific.

In any event, the statement emphasizes that no political significance is to be attached to trip; and it is further made clear that the inference that friction between individual citizens of this country and natives of Japan has influenced the government in the disposition of its fighting sea force is not justified.

It is the policy of the navy department to get the battleships together occasionally for an extended cruise. Arrangements for such a cruise are now under way. They may or may not mature by the coming winter.

## MUST ACCOUNT FOR MILLIONS

The Montana Ex-Senator Held to Have Made Illegal Sale of United Verde.

By a decision of Judge Amend, in special sessions of the Supreme Court of New York, ex-senator Wm. A. Clark must account for all the dealings of the United Verde Copper Company, involving more than \$300,000,000. The decision comes after eight years of litigation as the result of a suit brought by George A. Treadwell for the minority stockholders.

According to Charles W. Desmond, counsel for Mr. Treadwell, the investigation which the court orders will show that Clark now derives an income of \$25,000,000 a year from United Verde, much of which, Mr. Desmond says, should have been turned over to Treadwell.

Judge Amend, in his ruling, says that the sale of the property of the United Verde Company to a reorganization committee for \$500,000, although the property is valued at \$92,000,000, was illegal, and the property shall revert to the original stockholders. This sale, according to Treadwell, was made for the purpose of freezing him out, for the reason that his 620 shares, instead of being rated at \$500 a share, which he says is their real value, would be valued at only about \$3 a share.

Judge Amend holds that Clark shall permit Treadwell to make a thorough investigation of all the United Verde property and go through the books of the corporation.

## HOMAGE TO MURPHY

Los Angeles Flags at Half-Mast and Thousands View Body.

Thousands of citizens of Los Angeles joined in rendering homage to Francis Murphy at his funeral. The national colors on all public buildings and scores of business houses hung at half-mast, the folds caught back with bands of flowers, ferns and countless floral pieces and draped in a huge American flag, the body lay in state for three hours, while thousands of citizens passed the bier. The Rev. Frank DeWitt Talmage delivered the funeral oration.

The city councils, headed by the mayor, went in a body. Burial was private at Rosedale cemetery.

## HOLE IN STOCKING

Woman Scatters Diamonds and Pearls at Every Step.

There is a hole in one of the stockings that Mrs. Monroe Green of San Francisco wore at a hotel in Pasadena, Cal., and every time she took a step some of her diamonds and pearls, worth \$3,000 in all, were scattered about the floor. Mrs. Green put them there because she thought they would be safe. She says the stones had none in it when she put it on. A hotel clerk found the gems and restored them all to her just as she discovered her loss.

## TEST TWO-CENT LAW

Suits Brought in Iowa to Restrain Its Enforcement.

Stockholders of the Minneapolis & St. Louis and the Iowa Central railroads filed suit in the federal court at Des Moines, Ia., to enjoin the railroad companies from putting into effect the Iowa two-cent fare law. As Judge McPherson was at Kansas City, a temporary injunction could not be procured to-day.

It is alleged in both petitions that the two-cent fare act is unconstitutional in that the new rate is confiscatory.

## Captured by Bandit.

Caid General Sir Henry MacLean, commander of the Sultan's body guard, and next to the Sultan, the most influential man in Morocco, has been captured by Raisul, the bandit chief. Raisul has announced that he will hold the general prisoner until the Sultan grants the terms which he, Raisul demands for his own pardon and MacLean's release.

Four hundred journeymen plumbers of St. Louis have struck for an increase from \$5 to \$6 a day.

## Brewers Lose in Kansas.

Judgment by default was rendered at Topeka, Kan., in the state supreme court against the Schlitz, Heims and Pabst Brewing Companies, and their property in the hands of the state brewery receivers ordered sold. This is under the same order that applied to the Anheuser-Busch Company.

The Mesabe ore docks at Duluth last month broke all records for shipping. Their total was 2,156,956 tons, making the amount shipped so far this year 4,094,756 tons.

## WILL TRY SMELTER TRUST

Investigation by Federal Authorities on President's Order.

## INDEPENDENTS CROWDED OUT

Business of Smelting Monopolized and Terms Dictated to Railroads Carrying the Ore to Mills.

The great smelter trust, headed by Simon Guggenheim, Senator-elect from Colorado, has fallen under the ban of the Federal authorities and trust-busting experts are conducting an investigation to determine whether it is not a combination in violation of law. It is expected to base a suit for dissolution of the corporation and possibly criminal proceedings on the evidence being accumulated.

The smelter investigation, which was personally ordered by President Roosevelt, includes not only violations of anti-trust law, but also the relationship sustained by the smelter trust toward railroads which traverse the country in which smelting ores originate.

A statement was submitted personally to President Roosevelt in which it was alleged the trust has become so powerful that it is able to dictate ore rates on the rail lines aggregating 20,000 to 40,000 miles, which are controlled by E. H. Harriman and James J. Hill, and that the independent miners have been crowded so closely to the wall that many of them must either go into bankruptcy or submit to the terms of the smelter trust.

It is also known that the independent mining interests have been advised of the Federal investigation and have taken preliminary steps toward the formation of a rival smelting corporation, and assurances have been given by powerful Wall street financiers that the capital will be forthcoming for such an enterprise.

The American Smelting & Refining Co., which was incorporated in New Jersey in 1899, is controlled by the Guggenheim Bros. It has authorized and issued \$50,000,000 of common stock and \$50,000,000 of 7 per cent cumulative preferred stock.

## VOLCANO DESTROYS VILLAGES

Discharge of Rocks Dams River and Causes Overflow.

A dispatch from Valdivia, Chile, July 1, says: The Rinillahu volcano is ejecting huge columns of boiling water, which together with stones, sand and ashes, has caused the death of 15 Indian families and many herds of cattle.

A volcano, which has appeared in La Union district, stopped the course of the Papahuin river with an immense stone dam. An extensive lake soon formed, the waters of which filled the valley up to the crater.

Soon after the water began to boil and as it continued to rise its pressure swept the dam away, inundating the neighboring cities. Everything living was killed. Fourteen corpses have been found among the steaming debris.

The new volcano lies close to Mocho Payehue and Pihan volcanoes. A special bulletin issued by the Weather Bureau at Washington, D. C., July 1, says the seismographs at the Weather Bureau at 8 o'clock in the morning recorded an earthquake of moderate intensity, which resembled in many respects the record of the Kingston earthquake, made Jan. 14, 1907.

## FASTED A MONTH

Lost 23 Pounds in Weight—Testing Health Theory.

After fasting since May 20, during which time he tasted nothing but water, Dr. I. J. Eales of Belleville, Ill., broke his abstinence by partaking of a small quantity of malted milk. His fast was instituted to test his theory that total abstinence from food for a period is beneficial to health. After taking the malted milk he said he would fast 24 hours longer, to ascertain what effect the nourishment would have upon his system.

## PLANNED DEATH OF WITTE.

Man Entrusted to Execute Plot Betrayed and Murdered by His Assistants.

From revolutionary sources there has been obtained and published full details of a sensational reactionary plot for the murder of Count Witte, the former Russian premier.

The assassination was planned by the Moscow branch of the Union of True Russian people, and the execution was entrusted to the leader of the Moscow branch, a man named Kazantseff, who came to St. Petersburg the latter part of May. He enlisted four men to assist him. It was planned to throw a bomb at Count Witte's carriage.

The plot, however, was betrayed by the revolutionist bureau, which gave Count Witte warning. Kazantseff was killed by his supposed assistants.

## Great Death of Teachers.

Appeals for male teachers keep pouring into the office of Prof. Frank R. Hall, superintendent of the Washington county (Pa.) public schools, and the demand cannot possibly be supplied. Many of the townships and borough boards have already held meetings to elect teachers, and with few exceptions there were not a sufficient number of suitable applicants to fill the schools. Especially for principals, where boards desire male teachers, is the demand greater than the supply.

## A MISSOURI GRIEVANCE

Gov. Folk Objects to Federal Encroachment on State Laws.

Gov. Folk of Missouri in his Fourth of July speech at Evansville, Ind., complained of Federal invasion of states rights. He said:

"Nowhere is this encroachment on the rights of the state more marked than in the wholesale nullification of state laws by federal injunction without hearing and before trial. The result is, unless the consent of a railroad can be obtained to pending legislation, the state becomes powerless. No one could object to a court, state or federal, declaring a statute unconstitutional if found to be so after hearing. But there should be protest against statutes of the states being suspended as presumptively bad until the case is determined. A number of important laws of Missouri are now embayed by the federal injunction veto. In the course of years, when the cases are tried, the court will probably hold they are valid, but they might as well be killed as to be chloroformed by injunction until their validity is gone."

"The people of Missouri are not prejudiced against railroads as such, and the same sentiment of justice which brought the freight law and the two-cent fare law into being will cause their repeal if they are found to be unfair. But the people of Missouri object to a federal court despotically enjoining the state from enforcing its laws before they have been declared valid."

## STEEL ORDERS FALLING OFF

Drop from 175,000 Tons in May to 70,000 Tons in June.

There has been a sharp falling off in new orders for structural steel. It is estimated that the total volume of structural steel for future delivery ordered during June has not exceeded 70,000 tons. In the preceding month the orders booked totaled approximately 175,000 tons.

Part of the falling off is due to the reasonable slackening of new enterprises as the summer advances, but on the whole the drop between May and June from 175,000 to 70,000 tons is a fair barometer of the sentiment in the structural trade in respect to the future outlook.

Of the new business placed in June 25,000 tons went to the American Bridge Company, which now has booked about 500,000 tons or orders, sufficient to keep its plants working at full capacity until the first of the year.

## Boston Wool Market.

Prices for new wools of all grades are hardening and the highest quotations of the season have been recorded. In Montana 24c, in Wyoming 23c and in Ohio 35c show the trend of the prices. Unwashed Ohio and Pennsylvania wools find buyers at 30c, with a few large sales. There have been few transactions in Michigan and Wisconsin fleeces. The offerings of territory wool is expanding, especially the better class. The foreign wool market is steady, with a limited supply. The leading quotations range as follows: Ohio and Pennsylvania fleeces, XX, 32 to 34c; X, 31 to 32c; No. 1 washed, 28 to 30c; No. 2 washed, 27 to 28c; fine unwashed, 25 to 26c; fine unmerchantable, 25 to 28c; half blood clothing, 27 to 28c; half blood combing, 32 to 33c; three-eighths blood combing, 32 to 33c.

## Earthquake Razes Town.

At Longpine, Neb., three persons were hurt and many buildings damaged by an earthquake. The Methodist church and a livery stable were demolished. Several buildings were unroofed. Streets were piled high with trees, fences and roofs. Hail broke all windows and destroyed crops. The loss in Longpine is \$100,000.

## CURRENT NEWS ITEMS.

The British admiralty and war office have both drawn the color line against a youth born in London of a negro father and English mother.

Mrs. Col. French, wife of the Salvation Army commandant of the Pacific coast, has offered to go to the leper islands of Molokai for mission work.

Congressman Meyer joined the Daughters of the Confederacy in an effort to have Jefferson Davis' name again chiseled on a bridge near Washington.

Magnus Thompson of Blackbrook, Wis., shot and fatally wounded Minnie Phalum and blew off the top of his own head. The girl had refused to marry him.

Dock Posey, a middle-aged white man, the self-confessed assaulter of his 9-year-old step-daughter, was taken from Whitefield (Ga.) county jail after midnight and hanged to a railroad viaduct.

The Prudential Insurance Company announced that following the example of a number of other life insurance companies, it will withdraw from Texas, considering it impossible to comply with the law recently passed in that state.

The Lowell expedition to the Andes has succeeded in photographing the canals of Mars, according to a telegram received at the Harvard observatory from Prof. Percival Lowell, director of the Lowell observatory at Flagstaff, Ariz.

## Is 102 Years Old.

Josiah Zeitlen, who was born at Lodz, Russian Poland, July 2, 1805, and came to this country 25 years ago, celebrated his 102nd birthday at his home, 136 Lexington avenue, Brooklyn, N. Y. The Polish patriarch is still able to move around. He would pass for a vigorous octogenarian. He drinks, beer, whisky and wine in moderation, and smokes regularly. His picture adorns the advertisement of a whisky tonic. He has four sons, one daughter and 14 grandchildren.
