THE LIMIT OF LIFE.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged ; carelessness then being fatal to longevity. Nature's best help-er after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by E. H. Miller, Druggist. 50c. 9-1

Reunion of the Baer Clan.

A special telegram from Kutztown, Pa., states that the family, of which George F. Baer, President of the Reading Railway, is a prominent member, held its annual reunion there recently. Hundreds of members were present, some of them from distant parts of the country.

The Colonial records show that prior to 1750 there were over forty immigrants by the name of Baer. Their descendants trace their ancestry to dif-ferent nationalities. Those of Penn-George F. Baer has his family record complete in every step to the first immigrant. He has traced it back even to Zweibrucker, Germany, where he has located the home of his family prior to 1743, in which year the first member of the family landed in Philadelphia.

The coat-of-arms of the family consists of a shield on which the most prominent figure is a bear carrying sheaves In America the Baer family has participated in every war, beginning with the Revolution
