to know where to get the best of everything. She knows that, especially in drugs, medicines, toilet articles and stationery, there's never anything gained, and frequently much lost by using something cheap and inferior.

We have quite a crowd around our place, but there's always room for one more, and our clerks are of the spry kind. They don't keep a customer hanging around half a day before being waited upon.

### Old Gray Mule Makes Fortune for West Virginia Farmer.

Enoch Morgan, 78 years old, for half a century a resident of Webster county, W. Va., is perhaps the happiest man alive today. From poverty in the worst form he has come to great wealth, and all through the trade of a mule, thirty-one years ago. Morgan, thirty-one years ago lived in a little hut near Webster Springs. His only possession was a small gray mule, and he kept it for years and years, until he became worthless with age.

A few years later Morgan entered into a trade, accepting 750 acres of land, very mountainous and hilly, for the mule. The land was practically worthless, and Morgan could scarcely raise enough on it to pay the taxes. In the thirty-one years the land became more valuable, but its owner being of the Rip Van Winkle type, continued to sleep.

Recently a timber concern prospecting through that section in search of timber, met with old Morgan. The concern offered him \$35,000 in cash for the 750 acres. Morgan jumped at the offer, not knowing whether the concern meant business, or was "kidding" him. The deal was closed, and Morgan now has \$35,000 in cold cash in the Webster Springs Bank to his credit, all through the sale of his little gray mule.—Ex.

### HARD TIMES IN KANSAS.

The old days of grasshoppers and drouth are almost forgotten in the prosperous Kansas of to-day; although a citizen of Codell, Earl Shamburg, has not yet forgotten a hard time he encountered. He says: "I was worn out and discouraged by coughing night and day, and could find no relief till I tried Dr. King's New Discovery. It took less than one bottle to completely cure me." The safest and most reliable cough and cold remedy and lung and throat healer ever discovered. Guaranteed at E. H. Miller's drug store. 50c. and \$1.00. Trial bottle free. 11-1

### Customer Had Worst of It.

An eastern paper tells us that a customer who recently went to a local store to buy an ax, found the price to be ten cents higher than he could get the same article from the mail order house at Chicago, and on making a complaint to that effect, the merchant agreed to "knock off" the dime, providing the customer would give him the same treatment that he gave the Chicago house, and then the fun began. The customer paid ninety cents for the dollar ax. He then had to pay two cents postage and three cents for the money order. Then he had to pay the merchant twenty-five cents for express, and was on the point of taking the ax, when he was told he would have to leave the ax at the store for three or four days, the time it would take for it to come from Chicago. As several witnesses were present when the agreement was made, the customer had to comply with all the above terms, and on summing it up afterwards, he found he had paid \$1.20 for a dollar ax, and still saved writing paper, envelope and loss of time to write the letter, and the risk of a duplicate money order.

The customer was on a par with the merchant who sends to the "Cheap John" city print shops for his printed stationery.

### Old Maids Plentiful.

Old maids who live in Washington, D. C., have been appalled by the fact that there are 11,829 more women in that city than there are men, and that out of every 14 women in the district, 13 can get husbands if the men want them, while the fourteenth will have to live single or import herself a man from some other place. These figures are the result of the census taken by the police. The total population of the town is 328,455, of whom 157,308 are men and 169,132 are women. The white population is 221,417, and the colored population is 95,018, so that the colored people constitute nearly one-third of the population. It is stated that the reason why there are so many less men in Washington than women is because the government departments are very inviting and attract young women from all over the country, while the fact that there are no business or manufacturing establishments of any importance in the city, drives ambitious young men away to other towns, thus bringing about the striking disproportion between men and women in the city.
