Fatal Railroad Accident.

There was a collision of two trains near Listie, last Thursday, that resulted in the death of two men, serious injury to another, and also in the almost total destruction of two engines and several cars. A freight train took a side track to let a passenger train pass, but for some reason the man who had charge of the switch neglected to close it. The passenger train ran in on the side track, and the two engines came together with great force. John G. Pile, of Rockwood, who was on his way to work at Q Junction, was killed outright, and C. P. Klump, of Ohio, was fatally injured and died on his way to a Johnstown hospital. Another man by the name of Boyts had an arm broken.

A DANGEROUS DEADLOCK

that sometimes terminates fatally, is the stoppage of liver and bowel functions. To quickly end this condition without disagreeable sensations, Dr. King's New Life Pills should always be your remedy. Guaranteed absolutely satisfactory in every case or money back, at E. H. Miller's drug store. 25c. 1-1

A Laxative Deed.

Some vandal, either drunk or sober, turned on the flow of water at the fountain in the corridor, and the two supply points in the Jury and the Stenographer's rooms, either on Sunday or Sunday night, on the second floor of the Court House, and then plugged up the provisions for its escape into the proper channels, with the result that there was an overflow which penetrated the floors and followed the ceilings into the rooms of the Register, District Attorney, and Clerk of the Criminal Court.

The ceilings and walls were stained so as to mar their beauty, and it may be that they are permanently injured. Since Sunday morning the clock in the Court House tower has stopped striking. Whether this was caused by this same dastard, is open to question at this writing. It is to be hoped that the perpetrator will be apprehended, and that he will be given a punishment as severe as the law will justify.—Somerset Democrat.

HERE'S GOOD ADVICE.

ELK LICK VARIETY COMPANY.

Talk of Trolley Extension.

Only the financial depression's long continuance, it is said, will prevent the Pennsylvania & Maryland Street Railway Company, the concern which is operating in the neighborhood of Meyersdale, from building a line through Somerset county to Johnstown, next season. In fact it is said the company has its finances so shared as to begin and push the work next summer, no matter what the industrial skies show, and folks living along the probable route in Somerset county are beginning to perk up and take notice.

It is understood that the P. & M. has made overtures to the directors of the Southern Cambria for an agreement looking to a connection with the local system at some point. This, if effected, would make a direct line from Somerset to Ebensburg, and nobody knows what arrangements may be made for connections between the Southern Cambria and the Northern Cambria companies.

The P. & M. are generally believed to be behind agents who have been taking options for a route of some kind not far south of Johnstown, running through Jenners and one or two other nearby townships in this end of Somerset county.—Johnstown Journal.
