**BY REQUEST.**  
Recipe is Easily Prepared at Small Cost, and Many Swear By It.

Mix the following by shaking well in a bottle, and take in teaspoonful doses after meals and at bedtime:  
Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. A local druggist is the authority that these simple, harmless ingredients can be obtained at nominal cost from our home druggists.

The mixture is said to cleanse and strengthen the clogged and inactive Kidneys, overcoming Backache, Bladder weakness and Urinary trouble of all kinds, if taken before the stage of Bright's disease.

Those who have tried this say it positively overcomes pain in the back, clears the urine of sediment and regulates urination, especially at night, curing even the worst forms of bladder weakness.

Every man or woman here who feels that the kidneys are not strong or acting in a healthy manner should mix this prescription at home and give it a trial, as it is said to do wonders for many persons.

The Scranton (Pa.) Times was first to print this remarkable prescription, in October, of 1906, since when all the leading newspapers of New York, Boston, Philadelphia, Pittsburg and other cities have made many announcements of it to their readers.

A Miss MONEY, of Montana, has married a Mr. Spender, of New York. Here is a home wedding designed strictly along international lines.

The Arkansas Democrat says "Bryan is the favorite son of the United States." Strange that the United States hesitates to put its favorite son on the pay roll.

ONE TON of coal will give off 85,000 feet of gas, so an expert says. That, however, is small compared with the output of one light-weight Congressman.

A DOVER, DEL., man married his mother-in-law, the other day. It looks like a good example he has set other widowers, but mighty few are going to follow it.

KING ALFONSO is reported to be a consumptive, but if he is eating nine meals a day, as one writer asserts, it may be consumption of food that is wearing him out.

THE young man who thought he would have a proposal or two before the middle of January, is now beginning to suspect that there is something wrong with his looks.

BECAUSE of its rather parched surrounding territory. Chattanooga has been dubbed "Boozanooga," but Chattanooga isn't at all sure the name will stick for any length of time.

IF Ruef and Schmitz the grafters, get out of jail on a flimsy technicality, people will naturally think that California justice is not only blind, but deaf, dumb, and raving crazy as well.

MR. BRYAN is proceeding in a proper way to party about harmony in the Democratic party. His lately developed love of duck hunting doubtless raised him greatly in the estimation of Mr. Grover Cleveland.

ONE of the jurors in the Thaw case swears he never before heard of the defendant. We believe public opinion would have sustained the judge if he had immediately ordered this man back to the farm and his happy estate.

AN Eastern contemporary says "Keep your eye on Hughes," while a Western editor's advice is "Keep your eye on Johnson," and from Philadelphia comes the word, "Keep your eye on Knox." Now, what is a man to do when he has only two eyes?

CONSIDERABLE mirth has been indulged in because George Ade is an ardent supporter of the Fairbanks boom. But no doubt Mr. Fairbanks figures that it is better to have the support of a successful humorist than that of a dozen pessimists.

SIMPLE REMEDY FOR LA GRIPPE.  
La grippe coughs are dangerous, as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough, but heats and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. Sold by all Druggists.

A NEWSPAPER writer referred to the "spouting" editor of the Congressional Record, but explained next day that he meant "sporting." But for the timely explanation, very few people would ever have suspected he had made a mistake in using the first quoted word.

A MOB of North Carolina negroes lynched the proprietor of a negro theatrical outfit, because his show did not come up to the advance agents' promises. Theoretically, this idea may be sound, but its general adoption would soon put the advance agent business all to the bad.

"ALTHOUGH the Vice President does not sympathize with many of the doctrines advocated by the President, he has not said a word to indicate this," says the Brooklyn Eagle, speaking through the mouth of its Washington correspondents. We have long suspected that some of our Washington correspondents are mind readers.

THE people are for Taft because he is such an all-around man, wise as a judge, shrewd in diplomacy, democratic in his disposition, sweet and sunny in his nature, frank and honest in his talk and life, and embodying a personal experience that fits him better for the great office than any other man of his day. He knows not only his own country, but the whole world, and all the world knows and honors him. He is his own "boom." All these accessories, judiciously conducted, help, but it is many moons too late to talk of a launching or a discovery. The whole nation is talking about him, and nine out of ten men one meets are for him, says an exchange, all of which we do not believe. Give us La Fallette.

**Death of Charles Emory Smith.**  
Charles Emory Smith, editor of the Philadelphia Press, died suddenly at his home in Philadelphia, on the 18th inst., aged 65 years. Heart failure, due to acute indigestion, was the cause of his death. Deceased was one of the great men of the United States, and was to have nominated Senator Knox for the Presidency at the coming Republican National convention. He was an orator and journalist of fine ability, and he served his country as Minister to Russia, being appointed to that position in 1890. In 1898 he was appointed Postmaster General by President McKinley, and served in that capacity until 1902, when he resigned in order to give all of his time to his newspaper.

**A CURE FOR MISERY.**  
"I have found a cure for the misery malaria poison produces," says R. M. James, of Louellen, S. C. "It's called Electric Bitters, and comes in 50 cent bottles. It breaks up a case of chills or a bilious attack in almost no time; and it puts yellow jaundice clean out of commission." This great tonic medicine and blood purifier gives quick relief in all stomach, liver and kidney complaints and the misery of lame back. Sold under guarantee at E. H. Miller's drug store.

**To Take a Hand in Pennsylvania Liquor License Matter.**

The Model Liquor License League of Kentucky will attempt to get a foothold in Pennsylvania and have the next Legislature put through a bill embracing its ideas. The proposed law provides that all outstanding licenses are to continue in force until canceled by a majority of the voters. The licenses may be transferred or left as the part of an estate. They are to be issued one for at least each 500 population. The fee should not be excessive. For the first violation of the law the penalty is a suspension of the license for 30 days. A second conviction would result in an immediate cancellation, and the holder deprived for all time of receiving a license. Minors under 18 years of age are to be punished for purchasing liquors.

**Former Salisbury Boy Had Fierce Fight With Highwayman.**

The following news item was clipped from a recent issue of the Los Angeles Times. Ross Livengood, the conductor mentioned, is a son of Peter J. Livengood, the editor's uncle.

Conductor Ross Livengood fought desperately with a highwayman who boarded Eastlake Park car No. 544 about 11:30 o'clock last night, at the terminus of the line. They struggled for the possession of a revolver which Livengood drew as the robber got on the car. The conductor was finally overpowered, and the footpad fled with the weapon. While the two men were grappling with each other, Motorman E. A. Summers was putting the headlight on the front end of the car. He saw the highwayman run through the park, and pursued him. Summers had a gun, but was unable to get a shot at the man.

The same crew was held up about six weeks ago at the same place. Livengood lost \$18.50, and Summers was robbed of \$1.50 and a revolver. Since then they have carried weapons.

There were no passengers on the car when it stopped at the terminus. While Livengood turned his trolley, Summers watched for highwaymen. Then the motorman took his headlight and went to the other end of the car. Livengood was standing in the car when he caught a glimpse of a man running across the street. He had his hand on his gun and stepped to the rear platform. When the man jumped aboard, the conductor saw his mask and drew his revolver, but before he could shoot, the intruder seized it.

Livengood's description of the man is similar to the one given by the car crew that was held up at Elysian Park, Wednesday night. He is said to be about six feet in height. He wore a soft hat and dark clothes, and had a black silk handkerchief which he used as a mask.

**FROM THE ANTILLES.**

CHAMBERLAIN'S COUGH REMEDY BENEFITS A CITY COUNCILMAN AT KINGSTON, JAMAICA.

Mr. W. O'Reilly Fogarty, who is a member of the City Council at Kingston, Jamaica, West Indies, writes as follows: "One bottle of Chamberlain's Cough Remedy had good effect on a cough that was giving me trouble, and I think I should have been more quickly relieved if I had continued the remedy. That it was beneficial and quick in relieving me, there is no doubt, and it is my intention to obtain another bottle." For sale at Miller's Drug Store.

**B. & O. DECREASE.**

Murray Says December Showed Falling off of \$1,000,000 in Gross Receipts.

Baltimore, Jan. 20.—Commenting upon the decrease of \$1,230,000 in net earnings of the Baltimore & Ohio Railroad Company for the month of December, President Murray stated today that there was an increase in expenses of \$165,000 more than accounted for by the increased rates of pay and increased charges for depreciation, and that the decrease was primarily due to the falling off of over \$1,000,000 in gross revenue.

Over 85 per cent. of the increase was in connection with the steel industry, particularly coke ore, pig iron, etc. President Murray stated that he had been much gratified by the movement at bituminous coal, which comprises about 50 per cent. of the company's tonnage, and showed an increase of something over 10,000,000 tons against a general decrease in other commodities.

**IT DOES THE BUSINESS.**

Mr. E. E. Chamberlain, of Clinton Maine, says of Bucklen's Arnica Salve: "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c. at E. H. Miller's drug store.
