Deafness Cannot Be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Dr. Kline's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O. Bryan as a Money-Getter.
William Jennings Bryan is the best paid preacher in the United States, receiving more money for his lectures and writings than President Roosevelt gets for his. Details are not wanting to prove this. The Lyceum bureau, which manages Mr. Bryan's lecture tours, asserts that he filled 175 dates in 1907, and that his receipts for the season yielded more than \$260 for each appearance, or a total of \$52,500. There can be no sort of doubt that Mr. Bryan stands at the head of the platform speakers of today for the size of his audiences, for the receipts at the box office and for the demands for his appearance.—Springfield Republican.

Mrs. Anetta E. McCrea, the first woman landscape architect in this country, is the official landscape architect for the St. Paul road, and consulting landscape architect for other western roads.

This woman says that sick women should not fail to try Lydia E. Pinkham's Vegetable Compound as the did.

Mrs. A. Gregory, of 2355 Lawrence St., Denver, Col., writes to Mrs. Pinkham:

"I was practically an invalid for six years, on account of female troubles. I underwent an operation by the doctor's advice, but in a few months I was worse than before. A friend advised Lydia E. Pinkham's Vegetable Compound and it restored me to perfect health, such as I have not enjoyed in many years. Any woman suffering as I did with backache, bearing-down pains, and periodic pains, should not fail to use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.
For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?
Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

USE TRANSPLANTED EYELASHES

Eye brows, Too, Are Now Supplied by a Skillful Specialist.

In Paris and London, where the idea originated, there are specialists who make a handsome living out of the process of transplanting hair from the head to the eyebrows or eyelashes. Only the brave and rich can patronize the new method at present, for besides being painful and costly, it takes a long time to accomplish it. The specialist works by putting in, not on, the new eyelashes and eyebrows wherever they are absent or grow thin, and so cunning is he in his work that not even the closest scrutiny can detect any difference. By means of the new process, it is said, eyes which are at ordinary times only passable become languishing in their expression, while eyes which were previously considered fine have their beauty much enhanced.

Public Weather Indications.
The plan of Professor Willis L. Moore, the head of the United States weather bureau, for popularizing current weather indications is worthy of much commendation and will doubtless win a high degree of public favor. The circulation of daily weather maps, reports and forecasts is and will remain the most valuable part of the bureau's work, and it may be said in passing that its value is inestimably greater than many persons think. But there are other services which the bureau may perform, well worth the comparatively trifling cost which they will involve, and among these is that now proposed, of supplying the public in important centers of population with accurate information concerning current meteorological conditions, such as temperature, humidity and barometrical pressure.—New York Tribune.

ITCHING HUMOR ON BOY.
His Hands were a Solid Mass, and Disease Spread All Over Body—
Cured in 4 Days by Cuticura.

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body and his hands were nothing but a solid mass of this itching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Cuticura Ointment and anointed him with it. I did this every evening and in four nights he was entirely cured. Mrs. Frank Donahue, 208 Fremont St., Kokomo, Ind., Sept. 16, 1907."

HUMAN SACRIFICE IN RUSSIA.

Amazing Story of Fanaticism Which Is Being Investigated.

An amazing story of fanaticism has come from the village of Susoyeff, in southern Russia. A peasant named Michaloff had an exceedingly clever little boy, who became famous in the village as a prodigy and was admired, almost as a miraculous being.

In the same locality there lived a rich and "religious" peasant called the "Saint," who was believed to be a prophet. This "Saint" grew envious of the child's popularity and began to spread rumors that should he be allowed to grow up he would become the anti-Christ and bring untold woe upon the peasants.

On July 30 the "prophet" called a meeting of the 30 richest peasants in the district, to whom he explained that if the boy was killed they would be made happy and prosperous and the village would become the capital of the country.

It was agreed to sacrifice the child. Two days later the "Saint" gave orders to the men, took an icon in his hand and distributed lighted candles among his followers.

He headed the procession to the child's home at 11 o'clock at night and demanded that the parents should hand the boy over as he wanted to pray with him.

The "prophet" washed the youngster, saying prayers meanwhile, and then choked him by placing his foot on his neck, in front of the parents.

Subsequently he ordered the awestricken father to help him to tear the child to pieces, and as the man refused the body was mutilated with a hatchet.

The remains were put into a basket, which was fixed to the tail of a white mare.

The "Saint" mounted the horse and declared that it was the will of God that the body should be buried at a spot where the horse should voluntarily stop.

The horse was started, and the peasants, still burning their candles, followed.

At a certain point the animal halted and the remains were buried with the hatchet and the basket. The police, hearing of the occurrence, arrested 28 men, including the "Saint," and all are now awaiting trial.—Baltimore Sun.

Dickens Inn.

To the lover of Dickens the news of the sale, which has just taken place, of the famous Bull hotel at Rochester, at which the famous Pickwick party "put up" on their drive from London to the country, recalls a host of associations, for it was here that Mr. Jingle "applied himself with great interest to the port wine and dessert," where Jingle, too, insulted Dr. Slammer; where Tracy Tupman and the widow, Mrs. Budget, tripped the light fantastic toe; and where Charles Dickens himself slept in bedroom 17 on several occasions.

The announcement for sale of Barnard's Inn in Holborn recalls still further associations with Dickens. Barnard's Inn is the Red Tavern at which Pip of "Great Expectations" lodged; it is mentioned both in "Barnaby Rudge" and "Pickwick," and Dickens had his lodging in the inn for some time. The hall at the back, the smallest of all the halls of the London inns, will be saved.—London Daily Mail.

Capturing Mexican Parrots.

In the state of Tamulipas, in Mexico, parrots of the much-prized "double yellowhead" variety—famous as conversationalists—are found in countless flocks. The woods are literally full of them and are vocal with their harsh cry from sunrise to sunset. They seem to have but one note; it is only in confinement that they are imitative. Parrots build their nests in holes and hollows of trees. The work of procuring their young is extremely arduous, even for the expert natives. Trees in the tropics are commonly festooned with climbing vines of thick, fleshy leaves varying from a thread to the size of a ship-cable and all this network of vegetation is usually infested by myriads of desperately fierce ants of large size, which both bite and sting. Many an unfortunate peon, it is said, has lost his life while engaged in this pursuit, because tortured beyond endurance by the ferocious insects, he was unable to retain his grip.—Chicago News.

Cognate Names and Callings.

During the past week a student of the "eternal fitness of things" made the discovery that in Manhattan Sol Leather is engaged in the shoe-making industry, and that Ralph Cutter is a tonsorial artist. The next interesting news item looming within his range was to the effect that "Billy" Cookfair follows the avocation of restaurateur, while Stiff & Co. do the undertaking act as general directors, embalming included. Over on the East Side Josiah Lint's shingle is authority for the statement that he is a "bandagist," and hard by Dr. Xynophon Payne holds down the job of surgeon dentist. The Rev. Joshua Sunday, D. D., is a soul-saving specialist up Harlem way, in a neighborhood placard of which a barber, the window placard of which announces that you may have "your face steamed free of charge."—New York Press.

FINANCE AND TRADE REVIEW

DUN'S WEEKLY SUMMARY

Improvement Shown Each Week—Collections Are Better—Blast Furnace Men Will Meet to Consider Wage Scale.

R. G. Dun & Company's weekly review of trade says:

Progress is slow, but each week brings a little improvement, and confidence in the future grows more rapidly than current transactions. The best feature is the broader market for commercial paper.

Loans in mercantile channels are now negotiated freely at little more than the normal rate, facilitating postponed under takings and making collections more prompt.

Buyers are coming into the leading markets in large numbers, which should soon increase transactions unless prices cannot be adjusted. Manufacturers increase production gradually, conservatism being general, and many industries are not operating more than 50 per cent of their full capacity.

Several more steel plants have resumed and others will commence next week, but production will continue much reduced until orders come forward with greater freedom. Blast furnaces are slow to resume, and a meeting will be held next week to determine upon wage scale. Prices have declined to an extent that necessitates plans for lowering costs of production. A fair tonnage was taken by manufacturers of cast iron pipe, but concessions in prices are asked by all buyers.

Textile mills still restrict production, although there is less idle machinery now than at any time since the curtailments began in December.

More lines of woolsens have been opened, low and medium fabrics now being fully shown, yet without arousing interest among buyers, who express the belief that delay will bring concessions. Foreign buyers are gathering in the Boston market, and a large volume of business can be reached regarding values.

Leather continues to reflect the severe decline in hides last year, except that small receipts of heavy sole sustain that variety.

For years past the vital statistics of France have given cause for anxiety to the authorities in that country, and many efforts have been made to better a situation which is very properly regarded as a menace to the country. There have been justified complaints of the fewness of marriages, the low birth rate and the resultant lack of growth of the population, insists the New Orleans Picayune. While science and better sanitary precautions have undoubtedly reduced the death rate, still the total births but rarely exceed the total deaths, hence the growth of the population is so slow as to amount practically to no growth at all.

REV. TROUTMAN SENDS BEST WISHES FOR PE-RU-NA

Rev. George A. E. Troutman, Mt. Washington, Mo., Writes,

"My Wife and I Are Strong Believers in Pe-ru-na."

Catarrh and La Grippe.
Rev. Geo. A. E. Troutman, Mt. Washington, Mo., writes: "My wife and I are strong believers in Peruna."

Walnut Hills, Cincinnati, Ohio, writes: "For several years I have been troubled with a peculiar spasmodic affection of the throat. It would seize me suddenly and for a few minutes I would be unable to speak audibly, and my breath would be greatly interfered with. I would be obliged to gasp for breath. I finally concluded that it was some catarrhal affection which probably excited the spasm. It interfered with my vocation as a preacher, attacking me occasionally in the pulpit. I had heard so much about Peruna as a catarrh remedy that I determined to try it. After taking two bottles my trouble has disappeared. I feel sure that Peruna has greatly benefited me." Rev. P. E. Swanstrom, Swedish Baptist Pastor, Box 228, Grantsburg, Wis., writes that from the use of Peruna he is perfectly well, entirely cured of chronic diarrhoea and catarrh.

I was cured of a bad case of catarrh when nothing else that I tried had any effect. My wife was cured from a severe case of la grippe, and we feel that the least we can do is to gratefully acknowledge the merit of Peruna.
"My wife joins me in sending best wishes for your success."
