Colds on the Chest

Ask your doctor the medical name for a cold on the chest. He will say, "Bronchitis." Ask him if it is ever serious. Lastly, ask him if he prescribes Ayer's Cherry Pectoral for this disease. Keep in close touch with your family physician.

We publish our formulas. We banish alcohol from our medicines. We urge you to consult your doctor.

When you tell your doctor about the bad taste in your mouth, loss of appetite for breakfast, and frequent headaches, and when he sees your coated tongue, he will say, "You are bilious." Ayer's Pills work well in such cases.

At times when you don't feel just right, when you have bad stomach, take something right away that will assist digestion; not something that will stimulate for a time, but something that will positively do the very work that the stomach performs under ordinary and normal conditions, something that will make the food digest. To do this you must take a natural digestant like Kodol For Dyspepsia. Kodol is a scientific preparation of vegetable acids with natural digestants, and contains the same juices found in a healthy stomach. Each dose will digest more than 3,000 grains of good food. It is sure to afford prompt relief; it digests what you eat and is pleasant to take. Sold by E. H. Miller. 3-1

We trust he has fully recovered ere this, anyway, and that there will be no recurrence of the trouble.

I wish that I might talk with all sick ones about the actual cause of Stomach, Heart and Kidney ailments. To explain in person how weak Stomach nerves leads to Stomach weakness, I am sure would interest all. And it is the same with weak Hearts or weak Kidneys. This is why my prescription—Dr. Shoop's Restorative—so promptly reaches ailments of the Stomach, Heart and Kidneys. It is wrong to drug the Stomach or stimulate the Heart or Kidneys. These weak inside nerves simply need more strength. My Restorative is the only prescription made expressly for these nerves. Next to seeing you personally, will be to send you free, my new booklet entitled, "What To Do." I will also send samples of my Restorative as well. Write for the book today. It will surely interest you. Address Dr. Shoop, Box 8, Racine, Wis. Sold by All Dealers. 3-1

Two hunters in West Virginia got a new idea to scare out rabbits out of their holes in the ground or rocks. The idea is good, but there are always exceptions. A tin horn is tied to a pole, and there is a long rubber tube attached to the horn. The horn is pushed into holes or burrows occupied by the rabbits. One of the men blows the horn through the long hose, and the other holds the sack at the opening. The thing worked all right until they thrust it into a burrow occupied by a pair of skunks. The pair "busted" out into the bag, and the hunters grabbed their noses and ran. Now they want to invent a nose that can smell in advance as to what's in the hole.—Cumberland Alleganian.

KEEPING OPEN HOUSE.

Mrs. Jennie Giffin Dead.
