Have One Doctor

No sense in running from one doctor to another. Select the best one, then stand by him. Do not delay, but consult him in time when you are sick. Ask his opinion of Ayer's Cherry Pectoral for coughs and colds. Then use it or not, just as he says.

Always keep a box of Ayer's Pills in the house. Just one pill at bedtime, now and then, will ward off many an attack of biliousness, indigestion, sick headache. How many years has your doctor known those pills? Ask him all about them.

Made by the J. C. Ayer Co., Lowell, Mass.

The town has been overrun with candidates during the past week, and a goodly number of them were pleasant callers at THE STAR office. However, the average candidate is a good fellow, especially while running for office, and one and all of them are welcome at THE STAR office.

Be careful about that little cough. Get something right away; some good, reliable remedy that will move the bowels. \$100.00 paid by Dr. Shoop for any recent case of Grippe or acute Cold that a 25 cent box of Preventives will not break. How is this for an offer? The Doctor's supreme confidence in these little Candy Cold Cure Tablets—Preventives—is certainly complete. It's a \$100.00 against 25 cents—pretty big odds. And Preventives, remember, contain no quinine, no laxative, nothing harsh nor sickening. Pneumonia would never appear if early colds were always broken. Safe and sure for feverish children. 48 Preventives, 25c. Sold by all dealers. 4-1

THE STAR was in error, last week, when it stated that Harry Romesburg and Albert Lung had been sent to one of the State reformatories for burglarizing Haselbarth's store. The boys have been sent home, and we understand that they are here on probation, as it were, and will be permitted to sniff the free air of liberty as long as they remain good, which in the opinion of everybody who knows them, will not be long, and not likely to be at all. They are dangerous lads to have running at large.

Tickling or dry Coughs will quickly loosen when using Dr. Shoop's Cough Cure. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young babies. The wholesome green leaves and tender stems of a lung healing mountainous shrub give the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Take no other. Sold by all dealers. 4-1

One of the most remarkably well preserved men of Somerset county, according to several of our exchanges, is Hiram Burket, of Allegheny township. He is 78 years of age and is the father of thirty-three children, nineteen of whom are living. He was married three times, and the last union was productive of seventeen children. He is a veteran of the Civil War, and notwithstanding his advanced age, it is said that he is yet able to cut three cords of wood a day. He has never been ill more than a few days during his life, and only just last summer he was able to walk forty miles a day.

Remember that when the Stomach nerves fail or weaken, Dyspepsia or Indigestion must always follow. But, strengthen these same weak inside nerves with Dr. Shoop's Restorative, and then see how quickly health will again return. Weak Heart and Kidney nerves can also be strengthened with the Restorative, where Heart palpitation, or Kidney weakness is found. Don't drug the Stomach, nor stimulate the Heart or Kidneys. That is wrong. Go to the cause of these ailments. Strengthen these weak inside nerves with Dr. Shoop's Restorative and get well. A simple, single test will surely tell. For sale by all dealers. 4-1

With the extensive improvements in view and their early completion as a chief matter, the B. & O. R. R. has placed a corps of their surveyors in Rockwood. They are now working between this place and Somerset, the object being to make the survey necessary for double tracking the S. & C. branch between "Q" Junction and Rockwood. Later they will complete their surveys on the other side of the Casselman river in order to run a line parallel to the present one between Pittsburg and Wheeling. In the near future we have pretty good reasons for believing that the "Q" Junction yards will be moved to Rockwood, the most natural place for the handling of the great coal traffic.—Rockwood Leader.

A Very Creditable Show.

"Kidnapped," a four-act comedy drama rendered in Hay's opera house, Tuesday evening, by Lonaconing (Md.) talent, under the management of Dixon & Brady, drew a large audience. It was a very creditable show, and those who attended were well pleased. The actors were Mrs. Grace Cadden, Joseph Brady, Miss Katie Douglas, Editor J. J. Robinson of the Lonaconing Star, Aug. Eichhorn, Jr., Wm. R. Dixon, Miss Ida Jones, Andrew Dick, Miss Mary J. Dixon, J. Elliott Baldwin and James McKinnon.

All of the actors played their parts well, and we trust that it will not be their last visit to Salisbury in the capacity of actors. The editor of this paper is very sorry that he was out of town at the time, and doubly sorry that he did not have the opportunity of meeting Editor Robinson. However, he had the pleasure of meeting three of the company—Messrs. Baldwin, Dick and another gentleman whose name we cannot now recall, who favored this paper with a call.

The company is made up of a fine set of ladies and gentlemen, and the next time they come to Salisbury, one and all are invited to pull THE STAR's latching, walk right in and make themselves at home.

FARMERS' INSTITUTE.

Interesting Sessions Held at Grantsville, Md.

The sessions of the Farmers' Institute held at Grantsville, Md., March 2, 1908, opened at 10:30 a. m.

The first topic discussed was that of "Feed and care of the calf," by Edward Van Alstyne.

Among many other things, Mr. Alstyne impressed the fact that careful selection of calves for both dairy and stock is the first essential, thus avoiding scrubs in the herd. He also mentioned that thoroughbreeding is the most important factor in raising calves for profit.

For dairy calves he recommends the Jersey, from the standpoint that they can be raised cheaper, and when once in the dairy, produce the most and best flavored butter, at a minimum cost.

The second topic, "Potato Growing," was discussed by John Jeannin, Jr. Mr. Jeannin had three objective points in his lecture, viz: 1st, preparation of the soil before planting; 2nd, selection of seed, and 3rd, result of spraying.

He strongly advocates spraying, both for bug and blight, the latter being the greatest enemy the potato farmer has in this section. According to his statistics, the crop can be increased from 30 to 60 per cent. by using the Bordeaux mixture for spraying.

The afternoon session opened with an interesting talk on "Better forest management," by Prof. F. W. Besley.

He impressed the fact that our forests should be better protected against the ravages of forest fires, as well as the annihilation of timber by the ax and saw, stating that timber will sooner or later be very scarce, and prices are already "sky high."

The next subject for discussion was "The production of good butter," by Mr. Alstyne. Being a dairyman by profession, he launched out on the subject in an interesting manner. His talk was based on the principle of economizing labor and expense, and at the same time have a good product for market. To accomplish this he advocates cleanliness, in order to produce a good flavor, and the latest improved utensils for handling the product cheaply, the separator being named as the most important.

Next came Mr. Jeannin with his grand description of the little hen and her mighty works. His topic was "Poultry keeping by the farmer." His lecture was both instructive and humorous, and he showed very clearly that the hen is the best money maker the farmer can keep, if properly cared for.

A question box was open, and through this medium a number of interesting and instructive discussions were stimulated.

The institute was well attended, every available seat being occupied, and quite a number of people had to stand.

The interest shown was very gratifying, which goes to prove that the farmers are being awakened by these institutes, and we believe the time is not far hence when every farmer will attend, as he should.

GOOD FOR EVERYBODY.

Mr. Norman R. Coulter, a prominent architect, in the Delbert Building, San Francisco, says: "I fully endorse all that has been said of Electric Bitters as a tonic medicine. It is good for everybody. It corrects stomach, liver and kidney disorders in a prompt and efficient manner and builds up the system." Electric Bitters is the best spring medicine ever sold over a druggist's counter; as a blood purifier it is unequalled. 50c. at E. H. Miller's drug store. 4-1

Howard Meager & Co.

It appears to be nearly as costly for an American girl to divorce a title as to marry one.

The Illinois man who left a thousand empty whiskey jugs as his monument, was evidently a believer in "departed spirits."

ONLY two delegates were present at the late Montana Populist convention. One, to point with pride, and the other to view with alarm.

The Bishop of the Diocese of Nebraska has ruled that betrothals must be made in writing. If this ruling becomes general, it is calculated to put a damper on the "summer vacation industry."

This is what Hon. Jake Moore, State Warden of Georgia, says of Kodol For Dyspepsia: "E. C. Dewitt & Co., Chicago, Ill.—Dear Sirs—I have suffered more than twenty years from indigestion. About eighteen months ago I had grown so much worse that I could not digest a crust of corn bread and could not retain anything on my stomach. I lost 25 lbs.; in fact I made up my mind that I could not live but a short time, when a friend of mine recommended Kodol. I consented to try it to please him and I was better in one day. I now weigh more than I ever did in my life and am in better health than for many years. Kodol did it. I keep a bottle constantly, and write this hoping that humanity will be benefited. Yours very truly, Jake C. Moore, Atlanta, Aug. 10, 1904." Sold by E. H. Miller. 4-1
