

SPRING KIDNEY TROUBLE.

Vividly Described by One Who Has Suffered From It.

Mrs. H. Mutzabaugh, of Duncan, Pa., says: "I was sick and miserable all last Spring, and as I did not know what was the matter, I kept going down and down until I was a physical wreck. I had another spasm, flashes of heat over the kidneys, and pain in passing the kidney secretions, which contained sediment. My husband urged me to try Doan's Kidney Pills, and at last I did so. They did me much good, and I used in all eight boxes, which restored me to perfect health."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Cipher Code Stolen.

A copy of the cipher of the American State Department, used in private correspondence between Washington and the various American legations and embassies, was stolen recently from the American legation at Bucharest, Rumania, by a French employe, who escaped to Constantinople.

WAS DELIRIOUS WITH ECZEMA.

Pain, Heat and Tingling Were Excruciating—Cuticura Acted Like Magic. "An eruption broke out on my daughter's chest. I took her to a doctor, and he pronounced it to be eczema of a very bad form. He treated her, but the disease spread to her back, and then the whole of her head was affected, and all her hair had to be cut off. The pain she suffered was excruciating, and with that and the heat and tingling her life was almost unbearable. Occasionally she was delirious and she did not have a proper hour's sleep for many nights. The second doctor we tried afforded her just as little relief as the first. Then I purchased Cuticura Soap, Ointment, and Pills, and before the Ointment was three-quarters finished every trace of the disease was gone. It really seemed like magic. Mrs. T. W. Hyde, Brentwood, Essex, England, Mar. 8, 1907."

Millions for Missions.

A compilation made by Rev. Dr. D. L. Leonard of foreign missionary statistics of the world shows that the total contributions of the missionary societies to foreign missions last year amounted to \$22,459,680, an increase over the previous year of almost \$1,200,000.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 35c a bottle.

Wedding Music.

It happened at The Little Church Across the Street. A wedding was in progress. The organist had played "Lohengrin's Calling" and was prepared to play "Mendelssohn's Going Out." During the ceremony the strains of "Call Me Thine Own" were blent with the prayer book service. Suddenly the sexton whispered in the ear of the organist: "Both of them have been married three times!" Instantly the fingers on the keyboard melted into the key of G-flat, and through the low vaulted aisles rippled that beautiful Opus 29th Street, "Just for To-Day."—Success Magazine.

Daniel Up to Date.

Jimmy, aged 5, was told the story of Daniel in the lion's den by his grandmother. When she had finished the story she asked Jimmy what he thought Daniel did the very first thing when he found he was saved from the lions? "Oh, I guess he telephoned home to his wife to tell her he was all right," answered Jimmy.—Philadelphia Record.

This woman says she was saved from an operation by Lydia E. Pinkham's Vegetable Compound. Lena V. Henry, of Norristown, Ga., writes to Mrs. Pinkham: "I suffered untold misery from female troubles. My doctor said an operation was the only chance I had, and I dreaded it almost as much as death. One day I read how other women had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it. Before I had taken the first bottle I was better, and now I am entirely cured. Every woman suffering with any female trouble should take Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulcers, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

FINANCE AND TRADE REVIEW

GENERAL TRADE CONDITIONS

Dun's Reports Outlook for Future Brighter Because of Crop Prospects—Steel Prices Maintained.

New York—R. G. Dun & Co's Weekly Review of Trade says: "Commercial conditions show little alteration, the gains of the first quarter being maintained, but further progress is extremely slow. The weather has favored retail trade in seasonable wearing apparel at most points, and the outlook for future business is brighter because of the unanimous reports of satisfactory crop prospects. Manufacturing returns are conflicting, several mills and factories running, while some others curtailed operations, and the rate of pig iron production at the opening of April was smaller than on March 1 to the extent of 2,000 tons weekly. Textile and footwear factories throughout New England proceed cautiously because of the small orders that are being placed for future delivery, all dealers confining purchases to immediate requirements.

Prices of finished steel products are being maintained, but new business comes forward very slowly, except in the lighter forms. Tin plates lead in activity, almost the full capacity of mills is being operated, and there is also a good movement of wire products and other agricultural supplies. Demand is poor in the heavy lines, although the Erie railway's financial plan may provide funds for a large tonnage of rails that is needed, and the increasing value of building permits promises to infuse some activity into structural steel.

Although a better demand is noted in many sections of the cotton goods industry, the prices offered are usually unsatisfactory, and the mills need still cheaper raw material if the business is to be done at a profit. "Shoe shops receive a steady call for tan goods, but business in staple footwear is light, and many producers are taking stock. Wholesalers report a fair trade, but restrict orders from New England factories to immediate wants.

Babies Die From Neglect.

At the conference of the British Temperance League at Chester a resolution was carried unanimously asking for a royal commission to inquire into the causes of the continuous and appalling increase in insanity, and the part played by alcohol in its causation. Discussing the effects of intoxicating drinks on child life, Dr. Johnson Bolton said that we had our "Jungle" in the 120,000 year-old babies who died annually from lack of mothering. Recent observations proved that there was a direct connection between the drink habit of the father and the inability of his daughter to nurse her child.—London Daily News.

As we understand it, defines the New York Mail, the distinction between a suffragist and a suffragette is that the former maintains a woman's right to smoke cigarettes and the latter exercises it.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed, as the best of remedies, when required, are to assist nature, and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get its beneficial effects, always buy the genuine Syrup of Figs and Elixir of Senna manufactured by the CALIFORNIA FIG SYRUP CO. ONLY SOLD BY ALL LEADING DRUGGISTS one size only, regular price 50¢ per bottle.

Big Trees. At Gaylord, Mich., the other day they cut down an elm that was eight feet through at the base. It scaled more than 10,000 feet. Another one, although rotten at the base, was cut off 18 feet from the ground and contained 5,000 feet. A third tree in that section is 27 feet in circumference. The vandals have spared it so far.

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CLEMENT & Co., Toledo, O. Sold by Druggists, Etc.

Take Hall's Family Pills for constipation.

Uncle Sam as a Custodian.

Ten millions growing moldily in the United States treasury suffering from an overworked government to have to sit up at night and watch it, and not know to whom it belongs! For something over 40 years this vast store has been gathering dust, being the proceeds of "abandoned property" captured by the Union soldiers, sold for cash and the money turned into the treasury. To be strictly accurate, there still remains, after approved claimants, \$10,028,351.83 for which Uncle Sam has never been able to find a proper owner.—Philadelphia Telegraph.

A Sprain or Strain must have immediate attention Sloan's Liniment

is invaluable in an emergency of this kind. It quickly relieves the soreness and congestion, reduces the swelling and strengthens the weak muscles. Because of its antiseptic and healing properties, Sloan's Liniment is the best remedy known for cuts, wounds, bruises, stings, burns and scalds. PRICE 25¢ 50¢ & \$1.00. Dr. Earl S. Sloan, Boston, Mass.

Our Wool is Shrinking. While the population of the United States has increased by at least 10,000,000 in ten years, the supply of wool for clothing the American people is less by millions of pounds than it was ten years ago. The only reason for this condition is in adulterations of cotton and shoddy ("devil's rust") and the enterprise of the general smuggler. In much the same conditions a favorite toast of that stern old moralist, Samuel Johnson, was: "Here's to the smuggler, the only honest trader going."—Philadelphia Record.

Many Old People Suffer From Bronchial Affections, particularly at this time of year. Brown's Bronchial Troches give immediate relief.

Soldiers Must Swim. All German soldiers must learn to swim. Some of them are so expert that, with their clothing on their heads and carrying guns and ammunition, they can swim several hundred yards.

The Greatest Heat. The greatest heat is never found on the equator, but some 10 degrees to the north, while more severe cold has been registered in Northern Siberia than has been found near the Pole.

Itch cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. At druggists.

The last census of locomotives in this country showed 51,672.

BONES OF SEA SERPENT.

Scientists Gloating Over Finest and Most Complete Specimen.

The University of Chicago has added to its collections the bones of a sea serpent. It was found in the bed of the Smoky hills near the western boundary of Kansas. Scientists say it is the finest and most complete specimen of its kind in existence. Prof. Samuel W. Williston of the paleontology department discovered the bones of the creature last summer. It measured 19 feet long, had 112 vertebrae and four paddle-shaped feet.

Not Fitted for Farm Work.

There is a great army of city workers who are willing and industrious enough but who would be of little use on a farm, because they know practically nothing of the work. Many of those who ask with impatience why the men who are out of work on account of business depression do not go on the farms fall to consider that scores of them know so little about farm work that they would be scarcely worth hiring. The cities of this country have been rearing a class of workmen who are not adapted for the farm and who know it perfectly well. It is unfortunate, no doubt, that city life affords most men for agricultural pursuits. Nevertheless, so it is—and that is a very considerable reason why clerks and mechanics do not rush to take the places which the farmers offer.

Roller Skating.

This amusement affords so much delight to young people that no one feels much inclined to interfere with it, even when it is annoying. It is remembered that in a crowded city boys and girls are in a measure shut out from both amusement and healthful exercise. The playgrounds are excellent as far as they go, but there are not enough of them, and they are useless anyway in a wet season. Therefore, with malice towards none and charity for all, the sympathizing public will probably continue to put up with the inconveniences rather than to call for its suppression, but manifestly the sport requires some regulation in the interest both of children and adults.—Chicago Record-Herald.

What's in a Name.

It is noticed that the town of Bozzy, W. Va., is as "dry" as Georgia, and Colquhoun, Mich., has been carried against prohibition. The next thing you'll hear of the water wagon going "wet!"

Wrong Island.

A college professor is going to Mindanao to look for lost races. We suppose he knows his business, but it looks as if he had picked out the wrong island. Coney is a great deal nearer the place where the races are lost.—Philadelphia North American.

NO ONE CAN ALWAYS AVOID

Catching Cold on the Street Car

Many people persist in riding on the street cars, insufficiently protected by clothing. They start out perhaps in the heat of the day and do not feel the need of wraps. The rapid moving of the car cools the body unduly. When they board the car perhaps they are slightly perspiring. When the body is in this condition it is easily chilled. This is especially true when a person is sitting. Beginning a street car ride in the middle of the day and ending it in the evening almost invariably requires extra wraps, but people do not observe these precautions, hence they catch cold. Colds are very frequent in the Spring of this account, and as the Summer advances, they do not decrease. During the Spring months, no one should think of riding on the car without being provided with a wrap. A cold caught in the Spring is liable to last through the entire Summer. Great caution should be observed at this season against exposure to cold. During the first few pleasant days of Spring, the liability of catching cold is great. No wonder so many people acquire muscular rheumatism and catarrhal diseases during this season. However, in spite of the greatest precautions, colds will be caught. At the appearance of the first symptoms, Peruna should be taken according to directions on the bottle, and continued until every symptom disappears. Do not put it off. Do not waste time by taking other remedies. Begin at once to take Peruna and continue it until you are positive that the cold has entirely disappeared. This may save you a long and perhaps serious illness later on.

Bad Effects From Cold.

Mr. M. J. Deutsch, Secretary Building Material Trades Council, 151 Washington St., Chicago, Ill., writes: "I have found your medicine to be unusually efficacious in getting rid of bad effects from cold, and more especially in driving away all symptoms of catarrh, with which I am frequently troubled. The relief Peruna gives in catarrhal troubles alone is well worth the price of a bottle. I have used the remedy for several years now."

Spells of Coughing.

Mrs. C. E. Long, writes from Atwood, Colorado, as follows: "When I wrote you for advice my little three-year-old girl had a cough that had been troubling her for four months. She took cold easily, and would wheeze and have spells of coughing that would sometimes last for a half hour. Now we can never thank you enough for the change you have made in our little one's health. Before she began taking your Peruna she suffered everything in the way of cough, colds and croup, but now she has taken not quite a bottle of Peruna, and is well and strong as she has ever been in her life."

Per-ru-na for Colds.

Mr. James Morrison, 68 East 18th St., Paterson, N. J., writes: "I have given Peruna a fair trial, and I find it to be just what you claim it to be. I cannot praise it too highly. I have used two bottles in my family for colds, and everything imaginable. I can safely say that your medicine is the best I have ever used."
