Soda Water Girls

generally have good complexions. Summertime is a time when liquid nourishment is best, and while soda water is primarily merely a pleasant beverage, it is a mild tonic for the stomach, and with fruit syrups and ice cream, really contains a good deal of nourishment, and is much better than too much solid food in the torrid time.

We pride ourselves on our absolutely pure soda water.

Let us see what a good printer can do, and does every working day of his life. He takes a manuscript, the chirography of which would make the lid of a Chinese tea-chest blush with envy, translates it into the vernacular as he goes along, corrects the spelling and the grammar, and very often the rhetoric, and turns it out—not as the author wrote it, but as he intended to write it. He sets up in type better English than most men can write. He can detect errors of fact as well as of style. He can give the sporting editor points on horses and the religious editor the merits of a discussion on the tariff, and detect the fallacies in a profound leader on economics; and he can do more hard and intelligent work, if he has to, than any other craftsman.

Very few people, comparatively, have any adequate idea of the immense cost of producing a modern daily newspaper, particularly in the large cities of the country. Some authentic figures on the subject have recently been made public, and will doubtless occasion surprise to the uninformed. The "composition" (printers' weekly pay roll) for instance, on the Baltimore American, is \$2,000; on the Boston Globe, \$4,200; on the Globe-Democrat, \$3,000; on the New York Herald, \$4,000; and other papers in proportion. Bills for special telegrams are another big item of expense. On the Chicago Herald a few years ago they ran to \$4,500 per month; St. Louis Globe-Democrat, \$12,000; San Francisco Examiner, \$8,000; Boston Herald, \$8,000; and St. Louis Republic, \$4,000. Then there is the white paper bill which is greater than the others combined. On the New York World it is said to run \$700,000 per year, and on the New York American about the same; on the Chicago News about \$250,000, and on the Boston Globe and Herald about \$350,000 each; on the Enquirer, about \$300,000, and on many other papers it runs from \$100,000 to a quarter of a million dollars every twelve months.

BEST THE WORLD AFFORDS.

"It gives me unbounded pleasure to recommend Bucklen's Arnica Salve," says J. W. Jenkins, of Chapel Hill, N. C. "I am convinced it's the best salve the world affords. It cured a felon on my thumb, and it never fails to heal every sore, burn or wound to which it is applied. 25c. at E. H. Miller's drug store. 8-1

Warning to Gossips, Slanderers and Habitual Liars.

We regret to say that there are in this town some people who are noted for slandering and traducing the characters of others who are in every respect far better than their traducers. These character assassins to whom we refer are not confined to any one family, but to a number of families, and most of them are noted for having been too loose in their time, in fact just about as loose as they now are with their tongues. Their chief delight seems to be to defame the characters of virtuous young girls, those who always behave themselves well and refuse to mix with the class the gossips are found in.

Several parents whose daughters have recently been lied about and defamed by scandal-mongers have taken the trouble to run down some of the lies to their source, and such a squirming, apologizing and attempting to shift responsibility from one to the other, as they have caused among the foul slanderers, has seldom, if ever before been witnessed in Salisbury. Some of the gossips are now at the mercy of the people whom they have wronged and the only thing that will keep them from getting a visit from the Sheriff is their good behavior in the future. Otherwise something will drop, and it will drop very hard, too, for there is far more indisputable evidence against the slanderers than they are aware of or have ever dreamed of.

This thing of slanderous persons trying to bring virtuous and properly behaved young women down on a level with their traducers has gone far enough, and the unjustly slandered girls and their parents do not propose to put up with any more of it.

A REVELATION.

It is a revelation to people, the severe cases of lung trouble that have been cured by Foley's Honey and Tar. It not only stops the cough, but heals and strengthens the lungs. L. M. Ruggles, Reasnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages and pain in my lungs and they are now as sound as a bullet." Elk Lick Pharmacy, E. H. Miller, proprietor. 8-1
