THE MENACE OF BRYAN.

Anybody not a yellow dog partisan, who believes that Mr. W. J. Bryan would be a safe man in the office of President of the United States, needs only to read Bryan's speech to the Pennsylvania delegation to be con-vinced that such a belief is erroneous and without foundation in the Demo-cratic candidate's character and disposition. It would be hard to find a plainer case of autocratic dictatorship and downright usurpation of authority and downright usurpation of authority than Mr. Bryan's attempt to prejudice Colonel Guffey's political associates against him and to drive him out of the party. Colonel Guffey, national com-mitteeman from Pennsylvania, is de-nounced in unmeasured terms as a usatisical bees" "as traitor to his party." "political boss," "a traitor to his party," "a bushwacker who seeks to enter the councils of the party in order to betray me"-all this furious tirade of abuse bordering on billingsgate because Colonel Guffey has expressed the opinion that Mr. Bryan is not a safe man to be minated for President and has urged the adoption of the unit rule by the

Pennsylvania delegation. No better evidence could be asked of the correctness of Colonel Guffey's the presidency than the Nebraskan himself gives, all unconsciously, in this violent outburst of temper against a former too ardent supporter and gener-ous contributor to his campaign fund, because, forsooth, he dares now to op-pose him for the nomination. Neither could any surer index be presented of the arbitrary and tyrannical course which Mr. Bryan would pursue as the nation's chief executive than this bold assumption of authority to interfere in the political affairs of the Democracy of Pennsylvania which has chosen Colonel Guffey by a unanimous vote as its representative in the councils of the party in the capacity of national committeeman.

With his usual inconsistency, Mr. With his usual inconsistency, Mr. Bryan elaims in this extraordinary ha-rangue that during the twelve years he has avoided interference with the poli-ties of the various states. What about Mr. Roger Sullivan, of Illinois? Does Mr. Bryan suppose that the American people's memories are short-lived that ther have forcetten how he denounced they have forgotten how he denounced they have forgotten how he denounced Sullivan and tried to read him out of the Democratic party's councils, re-fusing to acknowledge the right of Illinois Democrats to choose their own national committeeman? Sullivan was elected to that position by the almost unanimous vote of the state convention, and when Mr. Bryan opposed the choice in the Democratic national con-vention, 1904, that body confirmed Mr Sullivan's title to his office by more than a two-thirds majority. And yet two years later, when Mr. Bryan re-turned from his trip around the world, one of the first things he did was to re-new his denunciation of Sullivan as "a tool of the corporations," and declare that he should not sit in the national ommittee or remain a member of the

same party with himself. Mr. Bryan's overbearing temper and intolerance of opposition, even of the mildest sort, have so conspicuously manifested in these instances, as well as on numerous other occasions, that no reasonable man can doubt that he would be a firebrand and dangerous disturber if by any mischance he were elevated to the office of Fresident—of which, fortunately, there appears to be little prospect.-Kansas City Journal.

IT CAN'T BE BEAT. The best of all teachers is experienc C. M. Harden, of Silver City, North Carolina, says: "I find Electric Bit-ters does all that's claimed for it. For Stomach, Liver and Kidney troubles it can't be beat. I have tried it and find it a most excellent medicine." Mr. Harden is right; it's the best of all and all run down conditions. Best too for chills and malaria. Sold under guarantee at E. H. Miller's drug store.
