Plenty of Asphalt.

Plenty of Asphalt. Asphaltic layers have been found in Syria near Kferie, a village about 25 miles northeast of the port of Lat-akia, along the road leading toward Aleppo, which have been declared by competent mining engineers to be not only rich in asphalt, but also prac-tically inexhaustible. 35

ECZEMA FOR FIFTY-FIVE YEARS.

ECZEMA FOR FIFTY-FIVE YEARS. Suffered Torments from Birth-In Frightful Condition-Got No Help Infl Cutioner Cured Hm. "I had an itching, tormenting essema frow a main fity-five years old. 1 tried all know a main fity-five years old. 1 tried all here in the second second second second relief. I was truly in a frightful condition. A tast I broke out all over with red and white bolis, which kept growing until they were as big as walnuts, causing great pain and missery, but I kept from scratching as well as I could. I was so run down that tora Song, Ointmest, Resolvent, and Pila tora Song, Ointmest, Resolvent, and Pila tora Song, Ointmest, Resolvent, and Pila tura Song, Ointmest, Resolvent, and Pila tura Song, Ointmest, Hale Bordwell, Tip-tur, I is the truth. Demand Improves and Some Sales of Pig Iron Are Made at Conces-*sions-Collections Improving.

New York.—R. D. Dun & Co.'s "Weekly Review of Trade" Says: "Trade and industrial activities con-tinue, to expand, improvement being of a conservative nature that promises permanency. There is little dispo-sition to anticipate the future, bur chrient distribution is larger, and mercantile collections are more "prompt."

current's distribution is larger, and mercinatile collections are more prompt.¹. "In manufacturing lines the iron and steel industry is steadily adding to output, and shoe shops are receiv-ing substantial contracts, although producers are handlcapped by the prostress and the business offered, but the general level of prices is not materially altered, and there is a dis-trecorded transactions are for this years's delivery, each week bringing a little larger consumption at steel mills and some reduction of stocks in furnace yards. "Extremely quict conditions pre-made from cotton purchased above the, present price there is no encourage-ment for producers to make sales. "Footwear factories in New Eng-land report a steadilly improving de-mand from Western wholesalers. Low stocks in the hands of jobbers are in-dicated by urgent requests for quick shipment. Leather is quict as a rule, but certain varieties are strong and active, heavy weight sole being scarce and sold well ahead. Hides are again very firm, large sales of Western packer sides being made at good prices." MARKETS.

Their Game.

Switzerland Prohibits Absinthe. At a time when the prohibition of alcoholic beverages has become more than an academic question in 'some parts of the United States, it is in teresting to read that Switzerland has outlawed absinthe, which, as is well known, is an emerald liquor made largely of wormwood macerat-ed in alcohol. The decision to forbid in Switzerland was arrived at through the manufacture and sale of absinthe in Switzerland was arrived at through which showed a majority of over 80,000 in favor of the proposition. This action of the democratic elector-tate is little short of herote, for the most famous brands are made in switzerland, notably at Neuchatel, and have been extensively exported, so that the prohibition put upon their manufacture and sale will seriously affect the government's revenue.-Providence Journal.

NATURE Nodd—"How can you keep track of all your children?" Todd—"By a card index system." AND A WOMAN'S WORK

Nature and a woman's work com-bined have produced the grandest remedy for woman's ills that the world has ever known.

world has ever known. In the good old-fashioned days of our grandmothers they relied upon the roots and herbs of the field to cure disease and mitigate suffering. The Indians on our Western Plains to-day can produce roots and herbs for every ailment, and cure diseases that baffe the most skilled physicians who have spent years in the study of drugs.

From the roots and herbs of the field Lydia E. Pinkham more than thirty years ago gave to the women of the world a remedy for their pe-culiar ills, more potent and effica-cious than any combination of drugs.

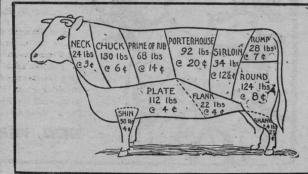

Lydia E. Pinkham's Vegetable Compound is now recognized as the standard remedy for woman's ills.

Standard remedy for woman's ills.
Mrs. Bertha Muff, of 515 N.C. St., Louisiana, Mo., writes:
"Complete restoration to health means so much to me that for the sake of other suffering women I am willing o make my troubles public.
"For twelve years I had been suffer-ing with the worst forms of female ills.
During that time I had eleven different physicians without help. No tongue can tell what I suffered, and at times I could hardly walk. About two years ago I wrote Mrs. Pinkham's advice.
I followed it, and can truly say that Lydia E. Pinkham's Vegetable Com-pound and Mrs. Pinkham's advice re-stored health and strength. It is worth mountains of gold to suffering women."

What Lydia E. Pinkham's Vege-table Compound did for Mrs. Muff, it will do for other suffering women.

W. L. Douglas makes and sells n men's \$3.00 and \$3.50 shoes than other manufacturer in the world, cause they hold their shape, fit bet and wear longer than any other mi
