Delayed for Thirty Centuries.

Delayed for Thirty Centuries. They claim to have discovered in an Egyptian tomb the mumiled re-mains of an early native who had un-mistable symptoms of appendicitis. The mournful expression of the sur-geon who verified the fact as he sad-ly shook his head and murmured 'You have delayed the operation too long'' can value be imagined.

HON. GEORGE W. HOWEY. Han. George W. Howey, National Chap-lain U. V. U., ex-Chaplain Fourth Wiscon-sin, and ex-Quartermatic General State of Texas G. A. R., writes from 1700 First St., N. E., Washington, D. C., as follows: "I cannot too highly commend your "I cannot too highly for a contexplay preparation for the relation for marking troubles in their: tarrous forms. Some members of my comfamily have used it with most gratifying results. When other remedies failed I cheerfully certify to its curative excellence."

most efficacious and 1 cheeriuly cetally to its curative excellence." Mr. Fred L. Hebard, for nine years a leading photographer of Kanasa City, Mo., located at the northeast corner of 12th and Grand Aves. cheerfully gives the following testimony: "It is a proven fact that Peruna will cure catarrh and ta grippe, and as a tonic it has no equal. Druggists have tried to make me take something else 'just as good,' but Peruna is good enough for me." if called into use during a war. Of that phase of the question Colonel Capper says:

For two years Dr. Hartman and his as-sistants have incessantly labored to create Peruna in tablet form, and their strenuous efforts have just been crowned with suc-cess. People who object to liquid medi-cines can now secure Peruna tablets, which represent the solid medicinal ingredients of Peruna.

For Sale 6000 Money-in ra States. Strout's man-rains with State maps meth-

They rathes one hundred or one hundred and fifty miles." Colonel Capper than takes up the consideration of the second and far more important class of balloons, the class that includes such machines as the famous Zeppelin airship, and he talks of vessels of a capacity of even 1,000,000 cubic feet. "The second class, and the more important one if really seriously de-veloped," he says, "may revolutioniz the strategy of war. Large vessels of from 500,000 to 1,000,000 cubic feet capacity, capable of traveling at a speed of forty miles an hour in a calm, and of carrying considerable quantities of high explosives, can set out, and, with a favorable wind, can cover vast distances in a few hours. When he at mains on a base is he a baser?" "No, dear; he is called a baseman." "And what is that man between these two bases?" "He stops the ball from going to the outfield," explained Bob. "He is called the shortstop." Betty's eyes grew moist and there was a pathetic catch in her voice as is estated for the walls condition the solution of the second class of from 500,000 to 1,000,000 cubic feet capacity, capable of traveling at cover vast distances in a few hours. When he at favorable wind, can cover vast distances in a few hours. "The girl watched the playing with a languid interest. Finally the spec-tators groaned concertedly, arose and started for the exits. "Come on, Betty, the last man is out," said Eob. "That sa deliberate prevarication," "That's a deliberate prevarication," "The wy us a baseball guide, "The wy us abaseball guide, "The me why they all look so de-mersese?" demanded Betty. After Other Treatment Failed—Raw Eczema on Baby's Face Had Lasted Three Months. Lasted Three Months. "Our baby boy broke out with essema on his face when one month old. One place on the side of his face the size of a nickel was raw like beefsteak for three months, nad he would cry out when I bathed the good doctor, but at the end of that time the child was no better. Then my doctor of Cutieura Scap, a third of a box of Cuti-cura Ontment, and half a botte of Cuti-cura Resolvent he was well and his face was as smooth as any baby's. He is now two years and a half old and no eczema has reappeared. Mrs. M. L. Harris, Alton, Kan, May 14 and June 12, 1007."

FINANCE AND TRADE REVIEW HOT WEATHER RETARDS TRADE

Export Trade Is Normal-Some Improvement Noted in Primary Market for Cotton Goods.

New York.—R. G. Dun & Co.'s. "Weekly Review of Trade" says: While the temperature has been too high for best results in fall retail trade, the volume is steadily increas-ing, and manufacturing plants have extended operations still further. There remains the drawback of low water that retards some mill work and river transportation, while valua-ble timber has been destroyed by forest fires.

ble timber has been destroyed by forest fires. Most jobbing houses report a ten-dency to prepare for the future on a larger scale, and woolen mills have less idle machinery; but shoe shops find difficulty in securing the higher prices made necessary by the firm leather market. Several orders of importance have been placed this week for finished steel and the usual supply of small contracts appeared, but the waiting attitude is still conspicuous among the larger buyers, especially by rail-ways. How Voices Are Ruined. Many excellent voices are ruined, according to a communication which Dr Weiss has made to the French Academic du Medicine, by practicing in too small a room. A public sing-er must throw every intonation of his voice a distance of 30 or 40 yards, he says, but a student practicing in a small room is only able to throw it a yard or two, and the consequence is that the voice, instead of expand-ing, becomes telescoped. How Voices Are Ruined.

How's This?

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Curexy & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe irransactions and financially able to carry out any obligations made by his firm. WALDING, KINNAN & MARVIN, Whole-sale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, act-figates of the system. Testimonials seut free. Price, 75c, per hottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

in called into use during a war. Of that phase of the question Colonel Capper says:
"I wish to say a few words regarding the probable uses of a dirighte balloon in war; and here I can only speak, of course, from theory, and the subserver is called a bat." "And that man with the ball is contrast to mark the distribution of from 70,600 to 100,000 cubic feet capacity, to be used for course, and for of from 70,600 to 100,000 cubic feet capacity, to be used for scouting, and possibly for attempts at destroying, by high explosives or incendiary mixtures, important from bridges or store depois close to the army or fortress, or for harassing the enany by dropping a few bombs into his camps at night and so keeping him constantly on the qui vive."
"It is probable that a reconnoiter ing balloon to be safe during the day the weithed the formation. Even on a bright moonlight night it is difficult to see a balloon at 500 feet ug and it is very difficult to keep searchlight on it."
"With a light wireless appartus in the balloon much valuable information might, under favorable circum?" The radius of scut of such a vessel is comparatively small, and the loss of a few would be a small matter to an army consideration of the second will be perhaps, one hundred or one hundred row on id be a small matter to an army?" "Colonel Capper than takes up the cons of the second and far more important class of balloons, the constderation of the second and far more important class of balloons, the second and far more important class of balloons, the second and far more important class of balloons, the second and far more important class of balloons, the constderation of the second and far more important class of balloons, the second and far more important class of balloons, the second and far more important class of balloons, the second will be a small matter to an army." A Thought. Finish every day and be done with it. Some blunders and absurdities, no doubt, crept in. Forget them as soon as you can. Tomorrow is a new day, too good to be cumbered with old nonsense.—Emerson.

The most active years of railway construction in the United States were in 1882, when 11,569 mikes were added to the operated railroads, and in 1887, when the increase was 12,862.

AWFUL GRAVEL ATTACKS

Cured by Doan's Kidney Pills After Years of Suffering.

F. A. Rippy, Depot Ave., Gallatin, Tenn., says: "Fifteen years ago kid-ney disease attacked me. The pain in my back was so agoniz-ing I finally had to

STA S ing I many had of give up work. Then came terrible attacks of gravel with acute pain and passages of blood. In all 1 passed 25 stones, some as large as a resof this can me down 公正

bean. Nine years of this ran me down to a state of continual weakness, and I thought I never would be better un-til I began using Doan's Kidney Pills. The improvement was rapid, and since using four boxes I am cured and have never had any return of the trouble."

Sold by all dealers. 50 cents a box.
Foster-Milburn Co., Buffalo, Ν. Υ.

"Tell me why they all look so de-pressed?" demanded Betty. "The score didn't favor them," re-

"What was the score?"

"Visitors eight; home team one." "Oh, Bob," cried Betty joyfully, "I'm so glad the home team won!"-

The Hobo Was a Grizzly.

do not out of things things the day dime and descending at night they can keep their direction with practical certain-ty, and hovering closs over any de-sired spot, may launch explosives with delay-action fusses, which will enable them to retire to a safe dis-tance before the explosion occurs; or they may even risk destruction to ef-fect some notable exploit.
"Their objectives would not be the enemy's armies, but his doczyards, arsenals, siorehouses, railway centres, etc., where the maximum of damage can be caused at a minimum of cost. Their objectives would not be the memory is armies, but his dockyards, the memory is armies, but his dockyards, the memory is never the maximum of damage is a back at a minimum of cost, benefity is never if he has one, but positive the same effect would be proported in a more humane manner by merety is destroying the docks, etc. There would appear to be but little would appear to be but little to work by, while this back accuracy if good prime is a contract, if good prime is a work by while the possitive to be but little to work by, while the rease, even should several airsbip. Doesd, would be insignificant.
Todonel Capper next pays while the total warfare botween the armie and warfare botween the wards. He found out his mistake to necessity for us to move in the matify no necessity for us to move in the matify to neglical reason for refusion formers. But as other nations and the is satisfied, he says nothings the is not, he most illegically kicks up a row.—Mr. Arnold Bennett.

A Carlyle Wedding.

Carlyle's Craigenputtock, where Carlyle's "Sarter Resartus" was written, has just been the scene of a notable wed ding. The bride was Mary Carlyl Traigonputtock; a grandniece of mas Carlyle, and the bridegroom es Carlyle, a farmer, of Pingle, ifriesshire, a son of Thomas dames Carlyle, a finite of Thomas Carlyle's favorito nephew. Pingle is about four miles from Eccleferhan. Carlyle's birthplace, and this village is the original of the Entuphl of "Sar-tor Resarius."-London Standard.

Remarks the Chicago News: The shippers and the public the country over are justly aroused by this pro-posed abnormal tax on commodities. Only after excessive rates are put in effect can shippers get relief through action by the Interstate Com-merce Commission and then the pro-cess is clow.
