We aim to please our customers by courteous treatment and prompt delivery of goods. Call to see us.

Very Respectfully,
S. A. Lichliter, Salisbury, Pa.

PRINT BY REQUEST.

Recipe Easily Prepared at Small Cost, and Many Swear By It.

Mix the following by shaking well in a bottle, and take in teaspoonful doses after meals and at bedtime.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. A local druggist is the authority that these simple, harmless ingredients can be obtained at nominal cost from our home druggist.

The mixture is said to cleanse and strengthen the clogged and inactive kidneys, overcoming Backache, Bladder weakness and Urinary trouble of all kinds, if taken before the stage of Bright's disease.

Those who have tried this say it positively overcomes pain in the back, clears the urine of sediment and regulates urination, especially at night, curing even the worst forms of bladder weakness.

Every man or woman here who feels that the kidneys are not strong or acting in a healthy manner should mix this prescription at home and give it a trial, as it is said to do wonders for many persons.

COLDS ARE NOT NECESSARILY SERIOUS.

It depends upon the way you treat them. We have the most efficient remedies that were ever compounded for colds, no matter in what form you are affected. You know, of course, that a cold will, like an efficient general, attack the weakest point. You can tell your own weak spot by noticing where your cold settles. Come in and talk it over with us, and we'll tell you how it is and what to do about it.

FOLEY'S KIDNEY CURE
Makes Kidneys and Bladder Right

A Cure For Thumb Sucking.

Thumb-sucking is a habit so common to children that hardly any baby escapes from at least a mild attack of it. It is a perfect tyrant, once it establishes itself in the nursery, and should never be allowed, even for a moment, by the mother who is watchful for her child's best development. The results of thumb-sucking are usually these: Enlargement of the tonsils, protruding teeth, flat thumbs, restlessness at night, breathing through the open mouth at night, coughing, serious discomfort during illness, and a decided susceptibility to cold, owing to the constant inflammation of the tonsils, which makes of them hotbeds for the growth of disease germs. If the habit is taken in time, while it is still only a tendency, it can easily be corrected by the use of mitts, sold for the purpose or made at home. If the habit has already become marked, the thumbs must be regularly painted with ox-gall or liquid quinine, the taste of which is usually sufficient to break the habit. In obstinate cases the child's hands must be bandaged. Biting the nails, a habit equally common, may be treated in the same way.—New Idea Woman's Magazine.

No National Bank can have a smaller capital stock than \$25,000.00. That is the minimum required by law. This bank could have been capitalized at that amount. However, having in view the better securing of its depositors, the stockholders of this bank have put in a cash capital of \$50,000.00. This capital gives the depositors twice the security. Besides the capital, the stockholders have allowed \$21,000.00 of earnings to remain in bank, which gives additional security to depositors. We endeavor in every way to safeguard the interests of our depositors.

FIRST NATIONAL BANK OF SALISBURY.
