

COLLEGE men are said to be the smartest, most critical dressers, and that's one reason why

Hart Schaffner & Marx

clothes are so very popular in college towns.

These clothes are not made for college men only; if you never went to college, that's no reason why you can't dress in style.

We're ready to show you or any other man the best clothes ever seen in this town; they're Hart Schaffner & Marx clothes; all-wool fabrics, perfectly tailored, accurate in style, correct fit.

Best make Of clothes You ever saw!

We can show you suits in many styles, from

\$18.00, 20.00, 25.00, 30.00 up to 40.00. Overcoats, such as you'll like, \$15.00, 18.00, 25.00, 30.00 up to 50.00.

S. C. Hartley, Meyersdale.

Copyright 1908 by Hart Schaffner & Marx

Now is the Time to Select Your Fall Suit!

The Fall styles are all in, and we have three sample books to select from, showing many hundreds of different styles, and quite a range of prices, in fact a price to suit anyone, from the cheapest to the very best.

Come and Examine Them. Fit Guaranteed.

We also carry a full line of Dry Goods, Notions, Shoes, Hats and the best Groceries to be had.

Elk Lick Supply Co., General Merchants.

SAVING!

If you were going to cross a desert which would require several days, you would provide necessary food and water before starting, to last until you reached the other side. Is it not just as wise and important to prepare for the deserts of life, such as sickness, "hard times" and old age by saving. Decide you are going to save, NOW, then call and start an account with us.

FIRST NATIONAL BANK OF SALISBURY, ELK LICK, PA.

COLDS ARE NOT NECESSARILY SERIOUS.

It depends upon the way you treat them. We have the most efficient remedies that were ever compounded for colds, no matter in what form you are affected. You know, of course, that a cold will, like an efficient general, attack the weakest point. You can tell your own weak spot by noticing where your cold settles. Come in and talk it over with us, and we'll tell you how it is and what to do about it.

City Drug Store, CLUTTON BROS., 306 MAIN ST., MEYERSDALE, PA.

WINDSOR HOTEL!

W. T. BRUBAKER, Manager. Midway Between Broad Street Station and Reading Terminal, on Fibert Street. EUROPEAN, \$1.00 PER DAY AND UP. AMERICAN, \$2.50 PER DAY AND UP. The only moderate-priced hotel of reputation and consequence in PHILADELPHIA.

The Cough Syrup that rids the system of a cold by acting as a cathartic on the bowels is

BEES LAXATIVE COUGH SYRUP

Bees is the original laxative cough syrup, contains no opiates, gently moves the bowels, carrying the cold off through the natural channels. Guaranteed to give satisfaction or money refunded.

FOLEY'S KIDNEY CURE

Makes Kidneys and Bladder Right

They Want What They Want When They Want It.

People in the great cities fill many pages of the big newspapers with WANT ADS. When they want what they want when they want it, they patronize the WANT AD. columns.

The same thing can be done in this town and this paper—the introduction of the want-to the wantee.

If you have anything for sale, for rent, for exchange, if you want to buy or rent anything, if you want to get a position or if you want to hire somebody—

A little WANT will bring you what you want.

The cost is insignificant compared to the satisfactory result.

WHAT DO YOU WANT?

WANT COLUMN.

For Sale, For Rent, Lost, Found, Etc.

LOTS FOR SALE?—Three lots fronting on Ord street, opposite the school house. Apply to M. H. Boucher, Meyersdale, Pa. tf

WANTED!—All kinds of sewing. Done quickly and neatly. Reasonable prices. Mrs. A. L. WILLIAMS. tf

FOR SALE at a bargain!—As good and handsome a Double-Barrel Hammerless Shotgun as there is in Salisbury; 12 gauge, 30-inch barrels, guaranteed for smokeless powder, brand new. Inquire at STAR office. tf

FOR SALE!—A Child's Bed; large enough for two; cost \$6.00; will sell for \$3.00; in good condition. Inquire at STAR office. tf

FOR SALE!—A \$10.00 Rochester Students' Lamp, good as new; only \$3.00. Inquire at STAR office. tf

FOR SALE!—A few Somerset County Directories containing names and addresses of all taxable inhabitants of county in 1908; also contains township, railroad and mineral map of county; 50c. each. STAR office. tf

FOR SALE!—Good Oil Heater; used only a few weeks; good as new; a good bargain for somebody. Inquire at STAR office. tf

WANTED!—Rents to collect, Deeds, Mortgages, Pension Vouchers, etc., to fill out and attest. Satisfaction guaranteed. P. L. LIVENGOOD, STAR OFFICE. tf

FOR SALE at a bargain!—A new and handsome Stevens Ideal Rifle, 25-20 caliber, brand new, 28-inch half octagon barrel. Inquire at STAR office. tf

IT IS BAD BUSINESS to allow people to look in vain through the columns of THE STAR for an advertisement of your business. tf

WANTED, MEN AND WOMEN TO SWEAR and affirm before the undersigned, when they have documents to which lawful affidavits are required. I also draw up all manner of deeds, leases, mortgages, etc., neatly and accurately, according to the requirements of the law. Typewritten work a specialty. A full line of legal blanks always on hand. P. L. LIVENGOOD, Notary Public and Conveyancer. STAR OFFICE, Elk Lick, Pa. tf

TO LAND OWNERS!—We have printed and keep in stock a supply of trespass notices containing extracts from the far-reaching trespass law passed at the 1905 session of the Pennsylvania Legislature. The notices are printed on good cardboard with blank line for signature, and they will last for years in all kinds of weather. Every owner should buy some of them, as the law requires land owners to post their lands if they want the protection of the latest and best trespass law ever passed. Send all orders to THE STAR, Elk Lick, Pa. tf

BUY A TYPEWRITER!—See the Pittsburg Visible, at THE STAR office. None better, no other quite so simple in construction. Holds world's record for speed. Very easy to operate. Price very reasonable. P. L. LIVENGOOD, Agent. tf

ASKS US TO PRINT.

Tells How To Prepare a Simple Mixture To Overcome Disease.

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrus Sarsaparilla, three ounces.

These harmless ingredients can be obtained from our home druggist, and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses.

This prescription forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple recipe will no doubt be greatly valued by many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve, are scarce indeed, and when you need it, you want it badly.

Salisbury Girl Wins First Prize at Florida Flower Show.

Miss Agusta Wilhelmi, eldest daughter of Mr. and Mrs. H. G. Wilhelmi, recently won first prize for best individual flower at a flower show recently held under the auspices of the Pensacola School Improvement Association. In writing to THE STAR of Augusta's success, of which her many Salisbury friends will all be glad to learn, her father says: "This is called the Land of Flowers, but it took a Salisbury girl to grow the prize winner."

Mr. Wilhelmi also encloses several newspaper clippings, one of which strongly favors the repeal of the Fifteenth amendment, which it is intimated would make the South Republican territory. The Southern people see that they are handicapped in national affairs by adhering to the Democratic party, yet the majority of them do not feel like uniting with the Republican party so long as the G. O. P. stands for equal rights and suffrage of the White and Black races. It is needless to say that Mr. Wilhelmi, like most men who have gone from the North to the South, takes the same view of the race problem as is held by the native Southerner. He goes on to say in his letter that the birth rate among the Blacks in the South is twice as great as that of the Whites, and he adds that "it's dangerous to be safe."

Those of the Negroes who become educated, he says, are the mischief breeders, as they become very arrogant, overbearing and intolerable, and he thinks they are not a fit people to be placed on an equality with the White race. He favors taking the ballot from the Negroes, and he thinks if that were done, the South would soon be as progressive and solidly Republican as the North. In writing of the Florida climate, Mr. Wilhelmi says: "The evenings here are getting quite cool. I have a slight attack of rheumatism. Too much fishing, I suppose. Balance of family all well."

MIND YOUR BUSINESS! If you don't, nobody will. It is your business to keep out of all the trouble you can, and you can and will keep out of liver and bowel trouble if you take Dr. King's New Life Pills. They keep biliousness, malaria and jaundice out of your system. 25c. at E. H. Miller's drug store. 12-1

Cement as a Substitute for Wood.

The relation between the increasing use of cement and the diminishing timber supply in the United States has been the subject of some interesting correspondence between the Geological Survey and the Forest Service at Washington. In a letter to the Forester, the Director of the Survey took occasion to quote from a statement of a large Philadelphia firm to the effect that it would be difficult to estimate what the additional drain on the lumber supply would have been during the last few years had not cement come into such general use. The Forester replied in part as follows:

"The Forest Service is watching with a great deal of interest the increasing use of cement and other substitutes for wood. They are undoubtedly having some influence on the price of lumber, though I do not think that up to the present time they have greatly retarded the advance in lumber prices. The fact is that our industrial progress has been so great that our requirements for every kind of structural material have increased tremendously. We are using at the present time more lumber per capita than ever before, and probably twice as much per capita as we did fifty years ago. The conclusion can not be escaped, therefore, that in the future we must depend more than in the past on other materials than wood, for certain purposes at least. As

to the increase that will take place in the production of cement, my impression is that this will be very great."

If the increase in the use of cement in the United States in past years is to be regarded as any index to its future use, the conclusions of the Forester are well founded. The statistics of the production of minerals show that our output of cement has more than doubled in the last five years, and it is well known that its use is being very widely extended. This is due to two conditions: In the first place, excellent cement materials are common in almost all sections of the country; in the second place, reinforced concrete for heavy building material is receiving increased favor among engineers, while in the country regions large amounts of cement are being used for building blocks for smaller structures. Reports received by the Survey during the six years from 1902 to 1907 show that the production of cement in the United States has increased from 25,600,000 barrels, valued at approximately \$25,000,000, to 51,000,000 barrels, valued at \$55,000,000, the annual statistics showing a steady increase in production with some slight fluctuations in price.

To Study Timber Conservation.

The future development of the lumber industry in this country lies in the direction of a closer utilization of forest products. Both foresters and practical lumbermen now agree on this point.

Just what can be done in this field is well illustrated in the operations of the mill of the Great Southern Lumber Company, which has just reopened its plant at Bogalusa, Louisiana, in response to the increased demand for lumber after the recent slump in business. This is perhaps the largest sawmill in the United States, if not in the world, and is capable of turning out the enormous amount of 600,000 feet of sawn lumber, board measure, per day. A reader can get a fair idea of this quantity of lumber when he is told that its output is enough to build a little town of 40 houses, along with a good-sized church and a school house every day.

This company was quick to grasp the significance of the rapid depletion of timber resources. Last year it began a co-operative investigation in wood utilization with the United States Forest Service, and arrangements have just been completed for a renewal of the experiments. The work will be along practical lines, and will be aimed to secure a closer utilization of the products of the Southern lumber mills, and at the same time produce a margin of profit in excess of that obtained by the methods which are now practiced.

The field for work along this line is broad. It is well known that the superior grades of lumber are obtained from old, mature trees, provided they are not weakened by decay or other influences. In other words, a thousand feet board measure of lumber, sawed from a tree two feet in diameter, costs less and is worth more than a thousand feet sawed from a tree only eight inches in diameter. Moreover, timber cut from young trees usually contains a large amount of sapwood. If ties, poles, etc., are cut from such material, they will decay far more rapidly than if cut from heartwood. It is not good business policy, however, in a great many cases, to saw the most valuable timber into commodities which are relatively low in cost, such as ties and poles. It is the intention, therefore, of the company to find out just what size and classes of timber can be best utilized for the cheaper commodities when given a preservative treatment.

To this end a careful study will be made to ascertain the amount and value of the products sawed from trees of different sizes, and just how each can be best utilized so as to secure greatest economy and profit. For example, can a tree eight inches in diameter be best utilized for ties or for flooring, and how will the profits compare if treated with those sold untreated? It seems reasonable to suppose that the profits derived from the sale of treated timber will exceed those from untreated timber.

Moreover, the greater use of chemically preserved wood will undoubtedly result in that wood giving a greater life in service. Hence, the amount of timber cut annually in the United States, simply to replace that which has decayed, will be materially decreased, and a further conservation of forest resources will result. Recent estimates by the Forest Service place this reduction at 10 per cent. of the total timber cut. The practical benefits of these experiments, and of the investigations for the utilization of sawmill waste, are at once apparent.

THE BLANKS WE KEEP.

The following blanks can be obtained at all times at THE STAR office: Leases, Mortgages, Deeds, Judgment Bonds, Common Bonds, Judgment Notes, Receipt Books, Landlord's Notice to Tenants, Constable Sale Blanks, Summons Execution for Debt, Notice of Claims for Collection, Commitments, Subpoenas, Criminal Warrants, etc. tf

WEDDING Invitations at THE STAR office. A nice new stock just received. tf
