These women are only a few of thousands of living witnesses of the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. Not one of these women ever received compensation in any form for the use of their names in this advertisement—but are willing that we should refer to them because of the good they may do other suffering women to prove that Lydia E. Pinkham's Vegetable Compound is a reliable and honest medicine, and that the statements made in our advertisements regarding its merit are the truth and nothing but the truth.

RIVAL OF MAMMOTH CAVE

Said to Have Been Discovered in the Adirondack Mountains.

Seemingly as deep as the famous Mammoth Cave in Kentucky, and containing a succession of wonderful caverns, chambers and abysses, an enormous cavern has been discovered in one of the wildest portions of the Adirondacks by Capt. E. R. Thomas, a woodsman of wide experience. Already it has been explored in several directions for a distance of approximately 1,000 feet, and Capt. Thomas is of the opinion that it would require miles of travel to investigate all of the subterranean passages.

As an indication of the depth of some of the yawning chasms encountered, the Captain says that twenty seconds elapsed before stones dropped into the pits were heard to strike.

A CURE FOR FITS.

The Treatment is to Accomplish What Science Has Been Struggling to Attain for Centuries.

The intense interest that has manifested throughout the country by the wonderful cures that are being accomplished daily by epileptic still continues. It is really surprising the vast number of people who have already been cured of fits and nervousness. In order that everybody may have a chance to test the medicine, large trial bottles, valuable literature, History of Epilepsy and testimonials, will be sent by mail absolutely free to all who write to the Dr. May Laboratory, 548 Pearl Street, New York City.

FINANCE AND TRADE REVIEW

WEEKLY TRADE SUMMARY

Business Failures Fewer in Number and Better Feeling Obtains.

New York.—"Bradstreet sums up the situation as follows: "The introduction of the new tariff bill in Congress and the advance of the spring jobbing season toward its close have made for a rather quieter tone in trade this week. A fair business is doing in nearly all lines, and the turn-over is in excess of a year ago at this date, but conservatism rules. Spring jobbing activity has passed its zenith, buying is only to cover immediate necessities, the results of Easter trade at retail are awaited with interest, collections are only fair, and the volume of business done this spring so far is, in some respects, disappointing. Jobbing trade seems to have quieted down at a number of markets East and west, Chicago and St. Louis, Kansas City in the West and New York, Philadelphia, Baltimore and Boston in the East, reporting some reduction in demand, partly explainable by the advance of the season and the return of buyers to their homes.

"Price reductions in iron and steel have brought out some new business, but unsettlement still rules. Pig iron stocks are accumulating and prices weak. The same is largely true of other metals. Additional reports of wage reductions come from iron and steel interests.

"In the cotton goods line the spring rush is over, print cloths are quieter and bleached goods and cotton yarns are weaker, but an important revival in export trade goods is noted.

"The leather trade is quiet, as is also the market for hides. Shoe manufacturers are approaching the end of the spring run. Eastern shipments are 24 per cent larger than a year ago.

"Business failures in the United States for the week ending with March 18 were 224, against 254 last week, 303 in the like week of 1907, 157 in 1907, 170 in 1906, and 204 in 1905.

"Business failures in Canada for the week number 32, which compares with 40 last week and 39 in the same week of 1908.

LEMONGRASS MILK SHERBET.

Put one quart of fresh milk, two cups of sugar and the thin yellow rind from two lemons in the double boiler and let it come to a scald. Remove the peel and let the liquid cool. When cold freeze until almost solid enough to remove the beater, then add the juice of four large lemons, or five medium sized ones, mixed with three tablespoonfuls of sugar and the whites of three eggs beaten stiff. Mix thoroughly with the frozen mixture, then cover the freezer, and stir until frozen quite hard. Remove the beater, scrape off the ice, beat and pack closely in the can. Put a cork into the opening in the cover, lay the crosspiece on top to keep the can down in the ice, and cover with an old piece of carpeting wet in salt water. Let it stand an hour and serve. If it is to be kept longer, draw off the water and pack with more ice and salt.—New York Telegram.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product, has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed, because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States, in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

Superstitions of the Sea.
Superstitions of the sea should have their edge taken off by the disaster off the coast of Malta last fall. The Sardinia was due to sail from the home port on Friday, November 13, a day which was doubly unlucky. It is even difficult to get a sailor to sail on Friday, let alone the 13th of so horrid a month as November. So the men demanded delay—and they sailed on November 14, and came to grief notwithstanding.

Deafness Cannot Be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or ringing in the ears, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of this tube the hearing will be permanently lost. It can be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Covered with Hives.
Child a Mass of Dreadful Sores, Itching, Irritating Humor for 2 Months—In Terrible Plight—Disease Cured by Cuticura.
"My six year old daughter had the dreadful disease called hives for two months. She became afflicted by playing with children who had it. By scratching she caused large sores which were irritating. Her body was a complete sore but it was worse on her arms and back. We employed a physician who left medicine but it did not help her and I tried several remedies but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. Mrs. G. L. Fridhoff, Warren, Mich., June 20 and July 13, '06."
