

PERUNA

For Catarrh of the Throat of Two Years' Standing.

"I was afflicted for two years with catarrh of the throat. At first it was very slight, but every cold I took made it worse."

"I followed your directions and in a very short time I began to improve. I took one bottle and am now taking my second. I can safely say that my throat and head are cleared from catarrh at the present time, but I still continue to take my usual dose for a spring tonic, and I find there is nothing better." Mrs. W. Pray, 260 Twelfth St., Brooklyn, N. Y.

An Instantaneous Cure.

During the cattle plague of 1866 a farmer who had lost a number of his cows grew so depressed that he fully persuaded himself he had also contracted the disease. The medical man whom he consulted tried in vain to laugh him out of his fears, but subsequently, being fond of a joke, pretended to agree with the patient's views, and solemnly told him if he would attend to his instructions he would be cured. He then gave the farmer a prescription, which he directed should be taken to a neighboring druggist, but when the latter opened the envelope he read the contents he was as much startled as the farmer. For the prescription was as follows: "This man has the cattle plague. Take him into the back yard and shoot him, according to act of parliament." Needless to say, the cure was instantaneous.—Dundee Advertiser.

FOUND THE CAUSE.

After Six Years of Misery and Wrong Treatment.

John A. Enders, of Robertson Avenue, Pen Argyl, Pa., suffered for six years with stinging pain in the back, violent headaches and dizzy spells, and was assured by a specialist that his kidneys were all right, though the secretions showed a reddish, brick-dust sediment. Not satisfied, Mr. Enders started using Doan's Kidney Pills. "The kidneys began to act more regularly," he says, "and in a short time I passed a few gravel stones. I felt better right away, and since then have had no kidney trouble."

"No; but he is roasted before he finishes springing off chestnuts about being detained at the office and having to show an old customer to the station."—Chicago News.

FINANCE AND TRADE REVIEW

CONFIDENCE RETURNING

Signs of Activity in Dry Goods and Structural Steel. New York.—R. G. Dun & Co.'s "Weekly Review of Trade" says: "Although confidence in the future is more noticeable than satisfaction with present conditions, yet one by one disturbing elements are gradually disappearing. While the tariff is still under discussion and is checking full activity in industries most concerned, yet the reports from most of the cities show their trade to be in a fairly satisfactory state, the centers farthest removed from the industrial areas are naturally making the best exhibits. While the iron and steel trade is still in the unsettling process of readjustment, yet it makes the best showing in exactly that line—the structural—which is a sign of building activity.

"In the primary cotton goods market the most interesting feature of the week has been the activity in wide convertibles of print, cloth yarn, converters and cutters now showing for the first time a disposition to operate freely, while manufacturers as a rule are reluctant to make contracts except at a material advance. Buyers of men's wear woolen fabrics are now going on the road and fewer cancellations than usual as a result of failure to deliver simple pieces in time are reported. There appears to be a decided shortage on spring goods, stocks on hand having been sold at full prices and in some instances commanding premiums.

"The noteworthy feature in foot wear is the buying of sole leather by several large manufacturers, indicating that some contracts are being placed. New England salesmen on the road report an improvement in fall orders, and as both retail and wholesale stocks are much below normal, renewed activity cannot be long delayed.

"Sales of domestic packer hides for the week have aggregated between 50,000 and 60,000, prices remaining steady with a firm tendency. The market on country hides is weaker, while foreign hides are firm, prices advancing slightly all around at the monthly auction sales in Paris.

The Sword Swallower. Blobs—I don't imagine that Gortox was born with a silver spoon in his mouth. Slobs—No, I dined with him the other evening, and if anything I think it must have been a silver knife.—Philadelphia Record.

The Ingenuity of Inventors.

The ingenuity of inventors and manufacturers is ever at work in the endeavor to reduce the expense of production, and at the same time to improve the quality of articles having large sale. This is not only beneficial to the purchasing public, but it inures to the benefit of the producer in increasing sales and preventing competition. This has been so in the case of farm machinery, clothing, shoes, bicycles, etc., and now it is apparent in the safety razor field. Thousands of this style of razor have been sold at from \$1.50 to \$5 each and given satisfaction. Recently manufacturers have applied more scientific principles and improved methods in their manufacture, and the result is seen in the "Shrp Shavr" razor, which is sent postpaid for twenty-five cents in stamps by the Book Publishing House, 134 Leonard street, New York. It is superior to any razor sold, being bought largely by those already owning the highest priced razors. Not every one knows that the best results are obtained by having two or three razors and alternating them in use. This practice of alternating possibly accounts for the very large sale of this low priced implement.

The Weight of Touch. A wonderful instrument is that which has recently been invented for the purpose of measuring the sense of touch. The device consists of a series of little disks, suspended by fine, delicate threads from wooden handles, the last being stuck into holes around a block. The lightest disk is taken out and brought into contact with the skin of the subject, the latter having closed his eyes. If nothing is felt a heavier disk is employed, and so on until the pressure becomes noticeable. Through the medium of these disks it has been found that the sense of touch is acute on the forehead and temple. A touch of a disk weighing three one-hundredths of a grain was observable on the temple; one weighing five one-hundredths on the nose or chin, and one weighing nine one-hundredths on the inside of a finger.—Pathfinder.

Couldn't Stand the Test. "Porter." Thus the passenger for London hailed a railway servant at a small Scottish station. "Yesir?" The man instinctively held out his hand. "Do you think this parcel well enough tied to trust going in the van?" "Weel, I'll see," answered the porter, dropping the parcel with a bang. "That'll get that here, and she'll get that at the junction"—giving it another drop—"and she'll get THAT at Perth"—banging it so lustily that all the contents scattered over the pavement. "Weel, sir, if she be goin' father than Perth, she'll see do what-ever!"—Illustrated Mail.

Many Marriages Declared Illegal. London.—The country of Buckingham has been thrown into a fever at the discovery that all marriages celebrated at the parish church of St. James, Bradwell, during the last 50 years, are illegal. This church has been the scene of thousands of weddings of couples from all parts of the country. It now appears that the church never was licensed to celebrate marriages. Steps will be taken to legalize the ceremonies performed in this church.

AFTER SUFFERING TEN YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

MARLTON, N. J.—I feel that Lydia E. Pinkham's Vegetable Compound has given me new life.

I suffered for ten years with serious female troubles, inflammation, ulceration, indigestion, nervousness, and could not sleep. Doctors gave me up, as they said my troubles were chronic. I was in despair, and did not care whether I lived or died, when I read about Lydia E. Pinkham's Vegetable Compound; so I began to take it, and am well again and relieved of all my suffering."—Mrs. GEORGE JORDY, Box 40, Marlton, N. J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.
