Eat What

You want of the food you need Kodol will digest it.

You need a sufficient amount of good wholesome food and more than this you need to fully digest it.

Else you can't gain strength, nor can you strengthen your stomach if it is weak.

You must eat in order to live and maintain strength.

You must not diet, because the body requires that you eat a sufficient amount of food regularly.

But this food must be digested, and it must be digested thoroughly. When the stomach can't do it, you must take something that will help the stomach.

The proper way to do is to eat what you want, and let Kodol digest the food.

Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.

Our Guarantee

Go to your druggist today, and purchase a dollar bottle, and if you can honestly say, that you did not receive any benefits from it, after using the entire bottle, the druggist will refund your money to you without question or delay.

We will pay the druggist the price of the bottle purchased by you.

This offer applies to the large bottle only and to but one in a family.

We could not afford to make such an offer, unless we positively knew what Kodol will do for you.

It would bankrupt us.

The dollar bottle contains 2½ times as much as the fifty cent bottle.

Kodol is made at the laboratories of E. C. DeWitt & Co., Chicago.

THE HOME MODEL WASHER

contains new features worthy of your consideration. The tub is made of cypress wood. The inside is corrugated like a washboard. The lid fits tight and prevents the escape of steam and heat. The agitator or rub board is different from all others and a big improvement. You should know all about it. The lever, shaft and agitator are all connected together in a way so there is no lost motion. It cannot tear the clothes, and is rust-proof. By means of a thumb nut the lever can be set for long or short leverage and to turn the handle downward so the operator can be seated. Send for circular which shows and explains all the features. Guaranteed. Manufactured by

GUARD YOUR KIDNEYS

Does your back ache? Is your skin leathery and yellow. Is your urine murky? These symptoms are sure signs of the dreaded kidney trouble. Nine out of ten persons have kidney trouble. They don't always have it bad. That's why they neglect it. The kidneys have few nerves. They are ailing a long time before the terrible pain begins. In fact, kidney trouble may be well advanced before you feel it.

That is why it is so necessary to notice the slightest irregularity. If anything is wrong with your kidneys it should be attended to at once. Don't take strong, drastic drugs. They are dangerous.

You will be perfectly safe and sure of a permanent cure by taking

DR. THACHER'S LIVER & BLOOD SYRUP

This great home remedy cures kidney trouble by removing the cause and driving the inflammation and the disease out of the affected organs.

TEXAS AN ORANGE STATE.

Claimed That California Has Three Freezes to One on the Gulf.

Texas is a mighty big state, and her people are doing, all they can to persuade Northerners to settle where there is room and to spare. Recent Texas newspapers report the arrival at Houston and Galveston of thousands of home-seekers. In Houston such visitors are greeted with roses, each home seeker receiving one, the product of the home gardens in mid-winter. It is claimed that hundreds of these prospective settlers had sold their farms in the North and stood ready to buy in the Lone Star State. "They prefer working a ten-acre tract that will produce as much as twice that acreage in the North, and putting the rest in their pockets." Meanwhile attention is called to the growth of the orange industry in the Texas coast country from the Sabine to the Rio Grande. It is claimed that the California orange district has three frosts and freezes to one in the Texas coast country, and that the quality of the Texas yield is the best.

This Ever Happen to You?

"Here, girl," called out the man in the restaurant, sharply, glaring at the little waitress from over the top of his menu, "aren't you going to take my order to-day? I've been waiting here for about ten minutes to give my orders to somebody."

The girl, hustled over to his table. "What will you have?" she inquired. The man continued to look at the sheet of food quotations.

"Hum," he grunted, apologetically, "I have not decided what I want yet."

"I'll be back in just a minute," said the girl. "You can be pickin' out what you want." And away she went. The man scowled after her and then went at the job of picking out enough things for a meal. It was some moments before the girl got back, but the man didn't say anything. It's embarrassing sometimes not to have your order ready.

Fishing By Telephone.

Consul Louis Goldschmidt, of Nantes, France, makes the report that a use for the telephone in fishing has just been invented in Norway. A microphone, the role of which consists in amplifying submarine sounds, is shut up in a thin, water-tight steel box and kept in constant communication by metallic wires with a telephonic receiver installed on the fishing boat. It is stated that with this apparatus the fisherman is always informed of the approach of fish. Moreover, it is said that each kind of fish gives in the instrument a particular sound. Thus the arrival of herring is signaled by a sort of whistling; the codfish announces its arrival in the neighborhood by a sort of grunting.—Consular Report.

What He Needed.

Supt. McLaren, of San Francisco's system of public parks, was inspecting the work of restoring Union Square to its former beauty, now that the little St. Francis has been removed.

"I'm for heavin' this un out; it's a bum little bush," remarked a gardener with a brogue.

"Which one?" inquired McLaren. "You don't mean this beautiful little Scotch heather? All it needs is more water, and it will grow as tall as you are."

"You're not very tall yourself, Mr. McLaren."

"Not extraordinarily so."

"I say, Mr. McLaren," reflected the gardener, thoughtfully, "did you ever try water yourself?"

The Ideal Listener.

An attentive listener is a joy, but an inattentive one is a trial to the soul. Listen with your eyes, your whole face, your heart and your mind and you will achieve a triumph. Look directly at the person talking to you and never allow your gaze to be deflected to other things which may be happening about you, for this at once shows lack of genuine interest in what is being said to you, and natural 'ly gives offense.

Italian Villa Habit.

It is impossible for the Italians to get away from their villa habit. In Italy every little shanty you meet on the roadside is a villa something or other, the smaller the shanty the longer the name. Down in Grand street you come across the grandiose name, of Villa Penza, Villa Gordiolo, Villa Marcaroni above the measiest of small places, where they dish up spaghetti for the sum of ten cents with a small glass of wine for five.

Japanese Sleeve Dog.

The Japanese spaniel, or sleeve-dog of Japan, is one of the long-coated varieties which is much admired. They have been hard to acclimatize and many discouragements have been met with in their introduction. They have large heads, with big dark eyes set wide apart and very full. Their little tails curl up over their backs like feather dusters. One pound is the true sleeve-dog weight.

Names of Provinces.

Names of Chinese provinces have a personal interpretation, the same as Indian names. For example, the Kansuh province signifies Sweet-Sedate, while Chih Li translated, reads Direct Rule, and An-Hwei means Peace-Glory.

Not a Bark.

"Then you don't have any dog-watch on this cratt?" inquired the anxious passenger, according to a writer in Life. "No. This is a cat boat."
