#### "REFORM !"

Many of our readers will be suprised that after the reforms made by the American Bourd of Directors, at the Poor House, in reducing the high salaries of the officers of that Institution, and which had been increased by Locofocoism, from about what they have now been reduced to, for the purpose of rewarding political favorites, and also abolishing the office of Attorney, which was about as necessary as the fifth wheel to a wagon, and saving over three hundred dollars to the tax payers, the Bedford Gazette comes out against the Reform. and advocates an increase of the salaries even above what they have lately been under Locofoco rule. Mr. Bowman savs that the Poor House Physician's salary should have been increased from \$100 to \$200, instead of being decreased to \$60! And as a matter of course, he advocates the in crease of the salaries of all the other officers of that Institution, to double what they has a letter dated Leavenworth, Dec. 1. 6 have all along been. So that whilst the P. M., which says: American party has reduced the salaries, which were already too high, saving over \$300 to the people, the Locofocos advocate their increase that much, which is a differ- cutting the door around the lock. ence in favor of the people of over \$600 in this one matter ! Resolved. That necessary steps are to be taken to prevent their transportation back to this country.

The Staats Zietung treats the matter very gravely, so that it caunot be a joke, as the state of the route admits! Two meetings reader might at first suppose. It appears that in consequence of the general outery on this side of the ocean against the deluge of foreign paupers poured inte our country, the New York Commissioners of Emigration have done, what it was clearly their duty to have always done, but what they have shrunk had. Their report, in part, was made to from attempting-they have sent back to Europe many foreign immigrants who have arrived at New York helpless from sickness or other infirmity. An item in the Tribune which we lately copied, informed the public that the authorities of Great Britain had letermined to take steps to prevent the return of foreign pauper emmigrants to that country after they had been sent to the United States. The action of the authorities of Wurtemberg is of the same kind, and it is therefore clear that this matter is rapidly approaching an important crisis. As these anners, when not sent back to Europe, are distributed by the New York authorities very freely over the Northern States to be supported, this is a question of great interest

WASHINGTON, Friday, Dec. 6, 1855. "We all do fade as a leaf." That is the ultimate mundane result, prior and prefatory to which, we are unmistakably growing old. I realize it nowhere more forcibly than ble on returning, after a prolonged absence, to the Senate chamber of the United States .-The first thought here is inevitably of the great departed-of Clay and Webster, Calhoun and Forsyth, Silas Wright and Peindexter, whom with younger eyes and a fresher heart, a more hopeful spirit, I saw sitting here on my first visit, nearly twenty years ago.
