

NOTICE AND CHRONICLE.

BEDFORD, Pa. Friday Morning, April 11, 1856

"Fearless and Free."

DAVID OVER, EDITOR AND PROPRIETOR

FOR PRESIDENT: MILLARD FILLMORE, OF NEW YORK. FOR VICE PRESIDENT: ANDREW JACKSON DONELSON, OF TENNESSEE.

UNION TICKET.

Canal Commissioner: THOMAS E. COCHRAN, Of York County. Auditor General: DARWIN PHELPS, Of Armstrong County. Surveyor General: BARTHOLOMEW LAPORTE, Of Bedford County.

THE NEW LICENSE LAW.

On the fourth page of our paper we publish the new license law, in full, and we wish our readers to examine it carefully for themselves. It will be recalled that last summer the Locofocos threw all the blame of the late Jug Law on the American party, when we showed from the records, that to the Locofoco party itself, in the Senate, was the blame of its passage to be laid, as more of that party voted for it than of the Americans. Yet, with the aid of the greatest exertions, and the most notorious lies, by such papers as the Bedford Gazette, the Locofocos carried the House of Representatives by a large majority, and the Senate also by a decided majority. They promised the people that they would repeal the Jug Law the first thing they did, and return to the old license laws. How have they fulfilled their promises? They were three months engaged in repealing the Jug Law, and have substituted this monstrous bill, which nearly all admit is much worse and more stringent in its provisions than the Jug Law. It only allows about one-half as many taverns as the necessity of the public demands, and the persons taking out licenses under its odious provisions in this Borough have to pay FOUR TIMES the amount as usual for their licenses, and in other parts of the County TWICE as much. Indeed, we have heard many of this class of our citizens say they would not take out license at all, under this Locofoco law, were they not in self defence compelled to do so, on account of a few others taking out license under its unjust provisions.

The people will certainly now see what reliance to place on Locofoco promises, and not again be deceived by them. They had the majority in the Senate and House to unconditionally repeal that law, but every Locofoco that voted in the Senate, voted for this new abomination, as also nearly every one in the House. We ask the honest people how they like the new Locofoco Liquor Law? If you don't like it, you have Locofocism to thank for it.

UNION TICKET.

We published last week in full the proceedings of the Union State Convention, which met in Harrisburg. This week we give the names of the candidates nominated to our mast-head, and we have not a doubt of their triumphant success, next fall, by a large majority. The nominations are received by all classes of the opposition to Locofocism with unbounded approbation, which augurs well for the State contest.

THOMAS E. COCHRAN, of York County, the candidate for Canal Commissioner, is an able lawyer, has been in the State Senate, and for many years edited the York Republican. He is an old line Whig, and will make a good Canal Commissioner.

DARWIN PHELPS, of Armstrong County, is the candidate for Auditor General. He belongs to the American party, is a member of the House of Representatives, and will make the right kind of an officer.

BARTHOLOMEW LAPORTE, of Bedford County, is the candidate for Surveyor General. He is an American Republican, formerly a Democrat, and is a member of the House of Representatives. He is represented as a first-rate man, and will secure to the ticket an immense majority in the Northern part of the State.

Such is the ticket now before the opponents of the present national administration, and no reasonable doubts exist as to its election.

A new weekly paper is about to be started at Harrisburg, to advocate the principles of the American party and support the nominations of Fillmore & Donelson. It is promised that it shall be a handsome sheet and conducted with ability.

We wish the enterprise abundant success.

Veto of the Printing Bill.

The Harrisburg Union raves greatly on account of Gov. Pollock's veto of the Printing Bill, which lately passed the Legislature of this State. The governor shows in his veto message, that the average cost for printing under the present law, for the last twelve years since it has been in operation is \$36,779 05 less per year than it was under the old law. In the twelve years under the present bill Pennsylvania has saved altogether \$441,348 00—nearly half a million! Yet the Union would like to have the new bill fastened on the people in order that it might, by its provisions, siphon from the Treasury of the State hundreds of thousands of dollars—and because Gov. Pollock, true to his oath of office, and true to his known care over the interests of the people, vetoed this monstrous, which would enable this Harrisburg bloodsucker to be elected State printer, and charge the State what it pleased, is attempting to blacken the character of the Governor, by gross personal attacks, which show as plainly as words can express them, the personal disappointment it feels at being thwarted in its efforts to dig deep into the public Treasury.

Gov. Pollock deserves well of the taxpayers for his watchfulness in guarding over their interests. The slanders of interested plunderers will have no other effect upon him than to place him still stronger in the confidence and respect of the people.

In answer to our query of last week, we would state that the charge of \$5.50 for work in the Poor House Report, should be for Frederick Friend instead of Frederick Turner. The "hand of write" was not very plain, and the compositor was as likely to make the one name as the other out of it. Besides the late Treasurer took the manuscript and a copy of our paper the first week the Report was published, for the purpose of comparing them, and was at liberty to correct any errors he might discover; but this was not done.

The Gazette wishes to know who appointed Mr. Jordan a delegate to the late Harrisburg Convention. In answer to our friend, we would state, that he was appointed at a County Convention held here last month, and which all were at liberty to enter—and also with the consent of the counties of Cambria and Fulton. Mr. Austin was also appointed in the usual way, with the consent of Bedford, Somerset and Fulton. Does this satisfy you, Mr. Bowman?

We call the attention of our readers to the advertisement of new Store in St. Clairsville, by Messrs. Hinsling & Bridham. Their goods are new and they offer bargains. Also, the advertisement of Major Rapp. He has a new and splendid lot of cheap goods, and bargains may be expected. Give him a call. See the advertisement for the sale of coal land by Mr. John Dicksey, Adm'r of the Estate of S. L. Tobias, dec'd. Also, Card of Dr. Fields, Bedford Hall Association. Assignees Notice, Administrators Notice, List of Causes, Sheriff's Sales, Register's Notice, &c. &c.

We were present on Sunday last at the Methodist Church, and heard a sermon from the Rev. Mr. Gibson, the new preacher, deputed to labor among us for the coming year. We candidly say we have never heard one who pleased us better. He is all that a congregation could wish, solemn, impressive, and eloquent; and calculated to impress deeply the hearts of his hearers. That he will, during his ministry among us, be eminently successful, and bring many to repentance, we firmly hope and believe.

SPRING ELECTIONS.—So far as we have seen in our exchanges, the Spring Elections all over Pennsylvania, appear to have gone for the Americans. The signs of the times are propitious, and everything promises success to our party next fall.

BLACKWOOD'S EMERALD MAGAZINE, for March has been received. It is one of the best and most interesting numbers that we have seen for some time. The articles in it are of the most interesting and instructive character, and contain the news of all the most important events transpiring in both hemispheres. Send on to Leonard Scott & Co. New York, and get the Magazine.

The American party did truthfully, as we published a few weeks ago, carry Bedford County, and we think we can prove this fact, from the statement of Mr. John Cessna, when it appears, as promised, in the Gazette.

CANDID AND HONEST.—The Middlebury Vt. Register, a Republican journal, thus rebukes those Republican hypocrites who denounce and malign Mr. Fillmore, and yet profess to be for Judge McLean.

Judge McLean, of Ohio, is a prominent candidate of the Republicans for the Presidency. On the Fugitive Slave law his position is as bad as Mr. Fillmore's or worse. The Judge in his official capacity, has repeatedly pronounced that law constitutional. Mr. Fillmore, in accordance with the principles avowed by the party that elected him, during all the canvass, could not veto that act unless deemed unconstitutional. If one is condemned, the other must be, also.

Cor. Inquirer and Chronicle.

HARRISBURG, April 7, 1856.

Mr. Editor.—What is called the appropriation bill has passed the Senate with amendments, after having passed the House early last week. It contains the usual heavy appropriations of hundreds of thousands of dollars for the State canals and railroads, no doubt to be squandered as usual among political favorites; and to be followed by similar appropriations next year, and every year, so long as the State owns a canal or a railroad. It is amazing with what tensible powers that be hold on to these public works, which are the sink-hole into which the revenues of the State are annually buried, at the rate of half a million or more. Knowing the political complexion of the legislature, and their views upon this subject, the minority made no serious effort for this session, to pass any law for the sake of what are called the State improvements. The minority could not carry through any such project, and the majority would not. Recently however, those friendly to getting rid of the main line were cheered with a prospect of success; and that prospect has again been dashed to pieces by the majority. The Union Canal Company offered to lease the main line from Columbia west, for twenty years, to be terminated sooner on notice, on being permitted to set apart a certain part of the revenues annually for the widening and deepening of the canal and keeping it in good repair, and dividing the remaining proceeds equally between the company and the State. The Union Canal, extending as it does from Mid-Letown in this county (where it connects with the main line) to Philadelphia, it would of course be the interest of the company to keep the whole line open and in good order, so as to make a good feeder for the canal they now own; and thus that part of the State along the line of the improvement would have been accommodated as heretofore. At the same time the State would have been relieved from the great cost of keeping up this most expensive and unprofitable portion of her public works. The Columbia road, the Delaware Division, and the North Branch, each pay something; but this main line from Columbia west, so far from paying anything, absorbs annually from one hundred thousand to three hundred thousand dollars over and above all receipts. This can be demonstrated by the official reports for many years past; and yet the present legislature has refused to make the proposed lease, and thus get rid of this enormous expense to the taxpayers of the State. The canal commissioners exerted themselves to defeat the bill authorizing the lease, and by invoking party prejudices they succeeded, and the bill was defeated in the House by some three or four majority.

Besides the usual items in the appropriation bill, there are some items decidedly new and unusual. Among the latter is one creating a new office on the public works, called a State Engineer, to be appointed by the canal commissioners, at an annual salary of three thousand dollars per annum. It had hitherto been supposed that our public works were overstocked with officials, whose pay consumed the revenues, and whose rascality was a reproach to the State. This economical democratic legislature however, has discovered that a new and highly skilled officer is wanted in addition to all others, and they have therefore very kindly supplied the omission, and appropriated the \$3000 to pay him annually, for an indefinite series of years.

Another new feature in this bill consists in the fact that it increases the annual salaries of the Judges of the Supreme Court eight hundred dollars each; and the annual salaries of all the President Judges of the State four hundred dollars each. It is hoped the taxpayers of the State will be able to appreciate the liberality of this economical and democratic legislature, and that they will especially remember them about the second of Tuesday of October next. The salary of the Chief Justice of the Supreme Court is now three thousand two hundred dollars per annum, besides three dollars per day for every day spent in the discharge of his official duties. The salaries of the President Judges out of the cities of Philadelphia and Pittsburgh, are by this bill raised up to two thousand dollars per annum, besides mileage, and five dollars per day when holding special courts; and in the cities named the annual salaries are raised to twenty-five hundred dollars. For want of room I will give you no more items from this beautiful bill for the present, but will drop the subject, with the remark that by putting these handsome particulars in the appropriation bill, the Governor has been prevented from vetoing them; because a veto of this bill would put a dent lock on the whole machinery of government, and injure the credit of the State almost as bad as repudiation.

On Friday evening last, Gen. J. H. Lane United States Senator elect from Kansas, delivered a lecture upon Kansas affairs in the Hall of the House of Representatives. He is of medium stature, rather under than over size, but I have never yet seen a man better suited in all respects to perform well his part in all the troubles of that embryo State.

He is a man of massive mind, of muscle, and of nerve; and has more of the Davy Crockett about him than any man I have seen for many a day. He was formerly a Democrat, and voted in Congress for the Kansas Nebraska bill. He early went to Kansas, took sides with the Free State "squatter sovereigns," and was chosen Commander-in-Chief at the siege of Lawrence, last fall. He is a ready speaker, and from actual knowledge and observation, portrayed in glowing colors the manifold wrongs and sufferings inflicted upon Kansas by the border ruffians, backed up by the present national administration. He denounced the Missouri elected legislature as a fraudulent usurpation to which Kansas would never submit, and Pierce's Kansas message as a tissue of falsehood and misrepresentation. He showed by the history of the past, that Kansas in adopting a free constitution and demanding admittance as a free state, is only following in the footsteps of Michigan, California and other States; and demands for her admittance into the Union upon the same terms. So ably and clearly did he state and defend his position that at the close of his address, an active Democrat offered a resolution declaring it to be the sense of the meeting that Kansas should be admitted without delay; and the resolution passed unanimously, notwithstanding a large portion of the audience were Democrats. Some of the politicians squirmed under the telling truths proclaimed; and I more than suspect that if the General should desire to deliver another lecture in Harrisburg, he would have to do it somewhere else than in the Hall of the House of Representatives.

The Democratic majority in the Senate, after staying the matter off from time to time on various pretexts, was at last forced to a vote on the bill providing for the prepayment of the State interest, and every man of them voted against it, and of course defeated it. I have no room to enlarge upon this party vote, by which the State will lose some thirty or forty thousand dollars, and by which no one can gain anything unless it be the present State Treasurer elect.

Last week the Governor vetoed a bill for establishing a new system of doing the public printing. The veto was sustained, and the bill is of course dead. The 15th and the 22d of April are spoken of as the day of adjournment, but the day is not finally determined.

Yours truly, SPECTATOR.

Central American Affairs.

THE WAR COMMENCED.

The latest advices from our Central American cousins are of the most varilike tenor. The following proclamations will show the state of affairs between the opposing powers. On the first of March, Juan P. Mora, President of the Republic of Costa Rica, issued the following proclamation. The President of the Republic of Costa Rica to its inhabitants: Fellow Citizens.—To arms! The hour has arrived which I announce to you. Let us march on Nicaragua to destroy that impious platoon which has reduced her to the most oppressive slavery. Let us march to fight for the liberty of our brethren. They call us, they expect to raise her up against her tyrants. Her cause is our cause. Those who to day will rob and assassinate her audaciously defy us, and wish to bind upon us the same bloody chains.—We fly to burst asunder those of our brethren, and to exterminate to the last man their executioners. We do not go to contend for a piece of land, not to acquire ephemeral powers, not to follow up miserable conquest, nor, much less, for sacrilegious purposes. No! we go to struggle for the redemption of all our brethren from the most iniquitous tyranny, we go to help them in the fruitful work of their regeneration, we go to tell them—Brethren of Nicaragua; arise! annihilate your oppressors, we come here to fight by your side, for your liberty, for your country! Union, Nicaraguans, union! Your feuds bury in oblivion. No more partisanship, no more fratricidal discords! Peace, justice and liberty for all—war only for filibusters! To the conflict, then, Costa Ricans—I march at the head of the national army. I that rejoice to see this day your noble enthusiasm, which makes me so proud to call you my sons, I wish always to share with you your dangers and glory. Your mothers, wives, sisters and daughters animate you. Their patriotic virtues will make you invincible. In fighting for the salvation of your brethren, we will vouch likewise for them, for their honor, for their existence, for our Holy country, and Spanish American Independence. All the loyal sons of Guatemala, San Salvador and Honduras, are in march on that herd of banditti—our cause is holy, triumph certain. God will give us victory, and with that the peace, concord, liberty and union of the great Central American family.
