ATROCITY. One of the most atrocious deads recurred near Lowrence. A lady living a short distance from the town, had been there to nurse a wounded relative; and during her stay, had made some statements toughing the murder of Major Hoer, which are supposed to have been reported to the ruffians. On her return home, she stepped out of doors in the evening in her night dress, and was in mediately seized by four men hit blackaned faces, who gagged her by a handkerehief drawn through her mouth and tied around her head, and carried her some distance from the house, where they stripped her maked bound her limbs, drew out her tongue, tied a string around it and around her neck, and left her ! After someting she succeeded in getting back to the house, and by means of knocking her head against the window, attracted atten. tion and gained admittance.

### 50,000 LABORERS WANTED! AT TEN CENTS A DAY 1!

Read the following extracts from a speech of Mr. Buchanan, in the United States Senate, in 1840, in which he advocated the re-duction of wages to the European standard! We understand the hocofocos, in case Mr. Buchanan is elected, intend to put down the price of labor to ten cents a day mme dialely. They now want 50,000 laborers at ten cents a day to try the experiment on ! Won't some of our hard listed laboring tuen apply to Mr. Buchman at Wheatland for situation without delay?

Here's his arguments in favor of the re-Juction

"In Germany, where the currency is purely metalic, and the cost of everything is RLDUC-ED to a hard money standard, a piece of stroad-cloth can be menutic tured for fitty dollars; the elosh can be maxufa tured for fifty dullars; the manufacture of which, in our country from the cypansion of paper currency would cost one budded dollars. The foreign French and German manufacturer imports this cloth into our country and solls at for a hundred. Does not every person perceive that the redited arcy of our currency is equal to a premium of one hundred per cent, in favor of the manufacturer. "No tariff of protection, unless it amounted to prohlabilion, could counteract these advanta-ges in favor of foreign manufactures. I would to Heaven that I could aronse the attention of every manufacturer of the nation to this impor-tant subject. "What is the reason that, with all these ad-vantages and with the protective duties which

anteges and with the protective duties which in Laws afford to the domestic manufacture of otton, we cannot obtain exclusive possession of cotton, we cannot obtain exclusive possession of the none market, and successfully contend for the markets of the world? It is simply because we manufacture at the nominal prices of our own inflated currency, and are compalled to sell at the real prices of other mations. REDUCE OUR NOMINAL TO THE REAL STAND-ARD OF PRICES THROUGHOUT THE WORLD OF PRICES THROUGHOUT THE ARD OF PRICES TEROUGHOUT THE WORLD, and you cover our country with blessings and benefits. • The comparative LOW PRICES of France and Germany have allorded such a stimulous to their munifactares, that they are now rapidly ex-tending themselves, and would obtain possession in no small degree, even at the Erglish home market, 14, 17, WERE, NOT FOR THEIR PROTECTING DUTIES: While British manu-factures are now languishing, those of the continent are smining into a health and ings and benefits. continent are springing into a healthy and vigorous existence."
