J. A. RHODES, Esq.: Dear Sh—As I took your medicine to sell on consignment, "no cure no pay," I take pleasure in stating its effects as reported to me by three brothers who live in this place, and their testimony is a fair specimen of sill I have received:

W.S. CONKIN to 2 me—'I had taken nine bottles of Christle's Agne Balsam, and continually run down while using it until my lungs and liver were Congested to 'that degree that blood discharged from my mouth sad bowels, so that all thought it impossible for me to live through another chill. The above speaks for itself. Good proof as it is, it is of no better tenor than the wast rumber of like certificates I have already published, and the still greater amount that is continually pouring in to me.

One thing more. Last year I had occasion to Caution the Public in these words:

"I notice one firm who have taken one of my general circulars, substituted the name of their nostrum for my medicine, and then with brazen impudence end their pamphlet with the exclamation, Let the proprietor of any other medicine say is much if he dares," &c.

Tonics won't Do!

Tonics won't Bo:

They never did do more than give temporary relief and they never will. It is because they don't touch the CAUSE of the disease. The CAUSE of all ague and billious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its NATURAL AN-TIDOTE, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this Autidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, ef New York, to this effect, is attached to every bottle; therefore if it does no good it can do no harm.

This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use

no harm.

This is more than can be said of Quinline, Arsunic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

GEORGETOWN, OHIO, March, 17, 1856.

JAS. A. RHODES Eq.—Dear Sir: Yours of 2d inst. is at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine,—not knowing I presume that the remedy they useded to escape taking Quinine, contained the DRUG ITSELF!

This remedy, (known as "Smith's Tonic,") would invariably EREAK an ague, but it did not CURE it, as it would often return with renewed vigor. This one cheumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result:

Three persons took yeur "Cure," all of which were cases of "Quotidian Intermittent Fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally missing a chill, but it was, (as in all such cases,) slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cuve of all three of these

other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would as before stated, break the chill, but after a period or two had elapsed it would return.

I think there will be no difficulty now in giving to your Cure the vantage ground of any other remedy now in use here, etc., etc.
