rangues are equally injurious to the general welfare.

"It is currently reported that there will be an attempt to pass resolutions through the Democratic State Convention which meet at Harrisburg on Tuesday uext, condemnatory of the sale of the Main Line.

Gleveland, 7 00 Cincinnati, 7 50 Louisville, 7 25 St. Louis, 7 00 Pittsburg. 7 00 Rochester, 7 00 Albany; 7 00 meet at Harrisburg ou Tuesday text, con-demnatory of the saie of the Main Line. We trust that no such insane measure will be countenanced by that body. Senseless agitators desire to turn the matter to their own personal political account, regardless alike of its effect upon the Democratic party and the welfare of the Commonwealth. There may be some such in the Philadelphia delegation to that Convention; but we think that they are limited in number, and bankrupt in both influence and knowledge. By a prudent management of party affairs, leaving all extraeous subjects out of the Convention, and limiting its action to the nomination of two Judges of the supreme Court, we shall be successful at the October election, beyond the chance of defeat. But if we are to multiply issues, and court opposition, and probably a disruption of our party, when all is peace and harmony, we cannot reasonably expect to succeed in the contest, nor be able to sustain the General Administration of our own choosing.

Those Democratic members of the Legislature who voted for the sale of the Main

Line, no doubt acted conscientiously, and they wil certainly have pride in justifying their conduct. Will they quietly permit themselves to be assailed by a Convention, elected for a special purpose, having no reference to the question of the Main Line? This would be looking for more abjectness than human nature is often willing to assume. The Legislature is responsible to the whole people. A partizan Convention, elected for one purpose, and transacting business of another sort, is responsible to nobody, nor does its action represent the iment of any consituency. It is usurping a power more delegated to it, and endangering the unity of those whose confidence it has abused. If the act authorising the sale is unconstitutional, there is a proper legal tribunal to determine the question, and to it, we presume, it will be submitted. No risk, therefore, should he run in dragging it into the canvas for Governor and members of the Legislature.

The experience of thousands of Farmers from Nova Scotia to Texas, have united in the common opinion that it is a very cheap source of wealth to those who own Stock and cultivate the soil. In different parts of the United States the scientific Farmers have subjected it to rigid tests, yet all are compelled to unite in awarding it the merit of greatly enhancing the value of Stock, even to a surprisnancing the value of Stock, even to a snipris-ing degree. When we reflect that a Horse takes into his system over 13 pounds, and a Cow over 11 pounds of Oxygen every 24 hours, and that this Oxygen can only combine in the body with Hydrogen and Carbon, and is thrown off in the form of watery vapor and Carbonic acid; it atonce becomes apparent that if this Oxygen doud be made to combine with agents, without ctesoying any of the really nutritive portions of the food, that much more good would result from the same amount of food than otherwise. from the same amount of food than otherwise. This discovery has been made by the Proprietors, and has been honestly tested by the experience of thousands of frugal and industrious Farmers. Frequent demands have been made by the "wise ones" to disclose the elements and the mode of Manufacturing it, and thus give a free scope to such a valuable discovery. There is no opportunity equal to it now offered to the man who wants to provide himself a home in an easy way, and make a settlement where he can live in prosperity and independence in a climate PERFECTLY HEALTHY.

No case of the fever has ever been known to occur in this settlement. It is not like going to the backwoods of the west, among perhaps intolerant people, where there is no society, thurches or schools, where the price of land is high, and where the emigrant, after being used to the healthiest climate in the world, has to endure sickness and pain, and perhaps rain his health and that of his family. But here is a a thriving settlement, having three towns, containing churches, schools, hotels, stores, saw mills, grist mills, and every tang desired.—

There is a cash market at hand. The lumber trade last year amounted to over two hundred million feet of lumber. In a short time, owing to the coal, it will become still more valuable, as a number of iron works and manufactories will soon be started; they are at present starting them extensively at Warren. Even for these who do not wish to go there, the payments are such that they can easily buy a farm to save their rising families from want in the future, or to gain a competence by the rise which will take place in the value of lands. By un outlay scarcely missed, a substant al provision can be made.

St. Paul, January, 1, 1865.

PROFESSOR O. J. WOOD:

DEAR SIR: Unsolicited, 1 send you this certificate. After being nearly bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, 1 was induced, on hearing of yours to give it a trial. I placed myself in the hands of a barbar, and nad my head rubbed with a good stiff brush, and the Restorative then applied and well rubbed in, till the scalp was aglow. This I repeated every morning, and in three weeks the young hair appeared and grew rapidly from August last till the present time, and is now thick, black and strong—soft and pleasant to the touch; whereas, before, it was barsh and wiry, what little there was of it, and that little was disappearing very repidly. I still use your restorative about twice a week, and shall soon have a good and perfect crop of hair. Now, I had read of these things—and who has not?

Missins and Gentleman's Fur. restorative about twice a week, and shall soon have a good and perfect crop of hair. Now, I had read of these things—and who has not! but have not seen hitherto any case where any person's hair was really benefitted by any of the hair tonic, etc., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to thers, and it already has a large and general sale throughout the Territory.—The people here know its effects, and have confidence in it. The supply you sent us, as wholesale agents for the Territory, is nearly exhausted, and daily inquiries are made for it. You deserve credit for your discovery; and I, for one, return you my thanks for the benefit it has done me, for I had certainly despaired long ago of ever effecting such a result.

Yours, hastily.

Dear Str. Having become prematurely quite gray, I was induced, some six weeks since, to make a trial of your Restorative. I have used less than two bottles, but the gray hairs have all disappeared; and although my hair has not fully attained its original color, yet the process of change is gradually coing on, and I am cess of change is gradually going on, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which before was harsh and dry, and 7 00 it has ceased to come out as formerly.

Resp ctfully yours,

My hair was becoming, as I thought, prematurely gray, but by the use of the "Restorative," it has resumed its original color, and I have no doubt permanently so.

TITLE IN TERMS:

This Convention of Delegates, representing the Freemen of Pennsylvania, opposed to the leading measures of the late National Administration; pive to training measures of the late National Administration, and the continuance of the principles promulgated in the Declaration of Independence, and embodied in the Federal Constitution, the liberties of the people, the sovereign rights of the States, and the Union of the States, must and shall be preserved.

Resolved, That with our Republican fathers, we hold it to be a self-evident truth, that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness; that to secure these rights; to all persons under its exclusive jurisdiction. That, as our Republican fathers abolished Slavery in all the national territory, and ordained in the Constitution that no person shall be deprived of life, liberty or property, without due process. persons under its executive jurispection. That, as our Republican fathers abolished Slavery in all the national territory, and ordained in the Constitution that no person shall be deprived of life, liberty or property, without due process of law, it becomes our duty to maintain this provision of the Constitution against all attempts to violate it, for the purpose of establishing Slavery in the territories of the United States. That we deny the authority of Congress, of the Supreme Court, of a Territorial Legislature, of any individual or association of individuals, to give legal existence to Slavery in any territory of the United States, while the Constitution shall be maintained.

Resolved, That the Constitution confers upon Congress sovereign power over the Territories of the United States, for their government; a power not controverted for the first sixty years of our national existence, but exercised by the general concurrence of all departments of the Government, through every Administration from Washington to Policy and that in the exercise of this unquestionable power, it is the days of Congress to probibility in the Territories.

ercise of this unquestionable power, it is the duty of Congress to prohibit in the Territories; those twin relics of barbarism, polygamy and

Slavery.

Resolved, That we are yet Freemen, and that Resolved, That we are yet Freenen, and that while we retain the inestimable rights of Freenen, secured to us by the sacrifices, sufferings and blood of our Revolutionary fathers, we will not submit to have a new Constitution imposed upon us by the extra-judicial opinions of Judges of the Supreme Court—opinions subversive of the rights of human nature—in conflict with the truth of history, with the unbroken action of the government and the law of the land, as heretofore pronounced by the Federal Judiciarry, and the Courts of nearly every State in the American Union.

ry, and the Courts of nearly every State in the American Union.

Resolved, That the recent opinions of the majority of the Judges of the Supreme Court, in a case over which they decided the Court had no jurisdiction, and, therefore, no authority to pronounce the law arising therein, is but another step in consummation of that conspiracy against our free institutions, which had its insecution in the repeal of the Missouri Compro-

against our free institutions, which had its inception in the repeal of the Missouri Comprosise: that it is the direct result of the late triumph of the Slave Power in the election of its candidate, James Bruhanan, to the Presidency, and unless prompty rebixed by the people at the ballot-box, may be followed by other usurpations fatal to the independence of the Free States and the liberties of our people.

Resolved, That the constitutional rights of the people of Kansas have been fraudently and violently taken from them. Their territory has been invaded by an armed force; spurious and pretended legislative, judicial and executive officers have been set over their, by whose usurped authority, sustained by the military power of the Federal Government, tyrannical and unconstitutional laws have been enacted and enped authority, sustained by the military power of the Federal Government, tyrannical aid unconstitutional laws have been enacted and enforced; the right of the people to keep and bear arms has been infringed; test oaths of an extraordinary and entangling nature have been imposed as a condition of exercising the right of suffage and holding office; the right of an accused person to a speedy and public trial by an impartial jury has been denied; or nel and annusual punishments have been infleted upon the innocent, while murders, robberies and arsons have been instigated and encouraged, and the offenders have been allowed to go unpunishod; the right of the people to be secure in their persons, houses, papers and effects against unreasonable scarches and sefzures, has been violated; they have been deprived of life, liberty and property, without due process of law; the freedom of speech and of the press has been abridged; the right to choose their representatives has been made of no effect. That all these things have been done with the knowledge, sanction and procurement of the Federal Government, in violation of the plainest mandates of the Constitution; That the usurpation by which a spurious Legislature was imposed upon Kansas, and its neonle subjected pation by which a sparious Legislature was im-posed upon Kansas, and its people subjected to a code of laws unparalleled for cruelty in the history of civilized nations, is still in full force, and the people are denied the right peacefully to assemble and petition for a redress of griev-ances; the National Executive has permitted two Governors of his appointment to be driv-en from the Territory under fear of assassination, and has not dared to exert its power for their protection against the lawless minions of Stavery, while judicial monsters and men whose hands are red with innocent blood, are retained in office, to carry on the work of subjecting free territory to the cause of Slavery. Kansas has been denied admission under a free consti-tution, and fraudulent means are now in progress to secure its admission as a Slave State at the next session of Congress. Against this stupendous wrong, we protest, in the name of, God and humanity—by all teat is glorious in GOD AND HUMANITE—by all test is glorious in our history, and by the nemory of the great and good men who established our liberties.

Resolved, That it is a fraud upon our laws, and fraught with danger to our institutions; to admit to a full participation in their benefits, any man who acknowledges a foreign supremacy, which he cannot conscientionsly and without mental reservation, abjure and forever renounce; whether that supremacy be civil or spiritual.

or spiritual. Resolved. That the stupendons frauds by which our popular elections are swayed against a majority of the legally qualified voters, strikes at the foundation and life of our system of government; and unless speedily corrected, will lead to violence and anarchy; and we urge upon all good citizens to unite for the suppres-

on of tais evil; and we call upon our own Legislature to gnard by effective and stringent laws the purity of the ballot box. Resolved, That the saie of the Main Line of our improvements, is demanded by every con-sideration that should weigh with intelligent and hopest men. As a source of revenue, it is wholly worthless to the State, while it is notoriously used as a mean of peculation and plunder, thereby inflicting supon the State pe-cuniary loss, and also irreparable injury, in the almost universal demoralization and political profligacy engendered throughout its entire

Resolved. That we invite the affiliation and co-operation of men of all parties, however differing with us in other respects, in support of the principles therein declared; and believing that the spirit of our institutions, as well as the Constitution of our country, guarantees liberty of conscience and equality of rights among citizes, we oppose all le gislation im-

pairing their security. NOTICE!
