The late Philadelphia Election Frauds Proved.

The late Presidential Election was vie tually decided, and the election of Buchanan secured, by the result of the State Election in Pennsylvania on the second Tuesday in October last. That result was produced by money contributed in this City and expended in Pennsylvania just before that election. Had the vote been taken two weeks earlier, Buclianan would have lost the State by from five to ten thousand majority. His leading supporters knew it-was against them when they came hore and pressed our Pro-Slavery hakers, brokers and office-holders into giving them the requisite money wherewith to reverse the popular verdict. And they know now that Mr. Buchanan was made President by that levy, lood ods ao saw ouren sid
