

INQUIRER & CHRONICLE.

BEDFORD, Pa.

Friday Morning, Nov. 13 1857.

"Fearless and Free."

DAVID OVR, EDITOR AND PROPRIETOR.

GOVERNOR WALKER.

The news from Washington strongly indicates that Gov. R. J. Walker must resign, or submit to the modification of a removal. A southern man, and a slaveholder, he could not do enough to satisfy the negro drivers in Kansas. In throwing out the fraudulent pro-slavery democratic vote in the Oxford district, and granting certificates of election to the Republican delegates, he has exceeded his instructions, and given mortal offence to the Dark Power who controls Buchanan and the administration. He will be either recalled, or left to the tender mercies of the ballot stuffers of Kansas.

So they go. Four stragglers in less than a year. Kansas has been truly called the "slaughter house" of democratic politicians. It matters not how zealously they have served the party in former days, if they faltered one moment in aiding the slave lords to fasten their rule upon the territory, they were brought to the guillotine. There was no grateful remembrance of past services, nor forgiveness of offenses the most trivial on the part of their inexorable masters.

First, Reeder. He was a regular Kansas-Nebraska Popular Sovereignty Democrat. He was a favorite with the party in Pennsylvania, and his appointment was popular throughout the State. But because he manifested an unwillingness to assist the bogus legislators in carrying out their iniquitous purposes in Kansas, they denounced him and demanded his removal. Pierce yielded, and he was recalled.

Next went Shannon, of Ohio. He had faithfully served the party in Congress, had been Governor of his State, and while in Congress had voted for the repeal of the Missouri Compromise. He was indignantly repudiated by his constituents for his treason to Freedom, and Pierce healed his lacerated breast by making him Governor of Kansas. Shannon was an easy, good natured Bonaparte, perfectly indifferent as to the course of events in the territory, as long as he was left undisturbed by his petty companions and his potatoes. But his neutrality was a constant reproach, and the Border Ruffians compelled him to retire.

Then they got Jno. W. Geary, the very impersonation of all that is odious in the character of a doughface. A fawning, cringing Mac Sycophant, from a contractor and tyrannical overseer of Irish on the Fort and Railroad, he managed to find favor with some of the little great men of the State, and obtained the command of a regiment in the Mexican war. Like Cushing, he fell into a ditch, and was just a little too late to go into the fight at Chapultepec. He returned from California, and is said to have joined the Know Nothings. His career in Kansas was brief as those of his predecessors. He tried to play fast and loose with both parties for awhile, but it would not last. A Border Ruffian spat in his face, and he made his exit rather abruptly from the territory. He came home and told an old woman's story about his fears that the Border Ruffians would assassinate him.

The fate of Walker is the most melancholy. His fall is the hardest. He should not have gone to Kansas. The fate of those who preceded him should have taught him that no laurels were to be gained there. He had been for many years a member of the Senate of the United States from his adopted State, Mississippi. As Secretary of the Treasury, he had gained himself a high reputation, with his party, at least, throughout the country; and he even had aspirations to presidential honors. But in an evil hour he permitted himself to accept the post of strap in Kansas, in the vain expectation that he could satisfy the impartial lovers of freedom in the territory, and at the same time do nothing to offend the prepa-gandists of slavery.

Who will be the next Governor of Kansas? If neither an independent Northern man like Reeder, nor a doughface like Geary, nor a gallant southern like Walker will satisfy the party or the administration, they must look about for some other material. It must be some man who is willing to give himself up, body and soul, to the slave drivers, and do their bidding without hesitation or scruple. It will have to be an overseer, like Legree, with a hundred bloodhounds, to hunt out the "abolitionists," or John Mitchell, with a brigade of liberty-loving Irish.

BEARS.—The bears, we learn, are getting quite numerous in this neighborhood. In some instances, they have been exterminated, approaching to the very farm house door. A son of Mr. Stiffler, in Bedford township, shot one last week, in a field not far from his father's house.

Mate Elections.

MARYLAND, O. K.—The election for Governor, members of Congress, &c., came off on Wednesday week. Baltimore city gloriously sustains her devotion to American principles, giving OVER NINE THOUSAND MAJORITY! The vote for Governor stands—Hicks, (American) 15,963; Groove, (Loco) 6,328. Fillmore had 7,020 majority at the last Presidential election. The vote was pretty full, and the day passed off without any special difficulty. At one or two of the polls, fracas occurred, resulting in knock downs and bloody noses, but the prompt interference of the police quelled the disturbances. What excuse the Foreign journals will now make for the utter route of their forces, we cannot imagine. It won't do to talk about votes being driven from the polls. The comparatively full vote in the city crushes out that game. Hicks' majority in the State is 10,825; Fillmore's was 8,847.

NEW YORK.—There was a triangular contest in this State, the Americans and Republicans dividing their strength on separate tickets. The result is a Locofovo victory. In New York city the Foreign party have a plurality of about 23,000. The Locofovo plurality in the State is about 10,000.

MASSACHUSETTS.—Banks, (the American Republican candidate) is elected Governor by some 20,000 plurality. The Americans also ran a straight-out ticket, for which they polled a heavy vote, beside that cast for Banks. The Foreign Democracy are nowhere. In all but four towns the vote stands—Banks, (Amer. Repub.) 61,407; Gardner, (Amer.) 37,644; Beach, (Loco) 31,000.

NEW JERSEY.—The election in this State has resulted in favor of Locofovoism, by about the same vote as last year.

LOUISIANA.—But few returns. New Orleans gives a heavy American majority.

WISCONSIN.—Returns come in slowly, and nothing definite. Ten counties give Randall (Republican) 800 majority for Governor.

OHIO.—The plurality for Chase, Republican, is 1503. The other Republican State officers are all Republican, except one, who was defeated on account of some local question.

IOWA.—Has the Republican by about 4000 majority.

ACCIDENT.—On Sunday afternoon last, Mr. John Shartzer, of Bedford township, was thrown out of his carriage, a short distance above town, and had his leg broken. The coat which he was driving took flight at a drove of cattle through which he was passing, and became unmanageable. His wife and two children were with him, but fortunately escaped with a few slight bruises. He was taken to the house of Mr. Johnston Hater, where every kindness was rendered, until surgical aid could be procured. He was removed the same evening to his home, and is now doing well.

MONEY! MONEY!—The approaching Court will afford many of our delinquent friends an opportunity of paying off the printer. We hope all who are arrears will come forward promptly and settle off as we need money badly. The notes of all current banks will be taken by us.

We are under obligations to Mr. J. Ben. son Akers, for a Catalogue of Dickinson College for the Academic year, 1856-7.

The Blind Family will give a Concert at the Court House to-night. They are among the greatest wonders of the age. Call and see them.

See GEORGE W. ELLIOTT'S advertisement for Agents headed, "A Book for Every Man's Library."

ELECTION FRAUDS IN KANSAS.—The following paragraph which we copy from a Kansas letter (says the Pittsburg Commercial Journal) is quite interesting and suggestive: "On Gov. Walker's return from the precinct of Oxford he halted at Lawrence, and taking out of his portfolio a large roll of paper, said to the crowd that he would show them a curiosity, if they promised not to destroy it. He then unrolled the returns of the precinct of Oxford, (in Kansas,) which contained one thousand six hundred and one names, all written in the same hand writing, and which measured exactly fifty-four feet in length! All the names, except one hundred and twenty, were copied from "Williams' Cincinnati Directory," those commencing with the same letter following each other as regularly as they do upon the pages of that book!"

FATAL ACCIDENT FROM BURNING FLUID.—On Wednesday evening, the 21st, says the Lancaster Express, a German woman whose name we understand is Clemens, living near Smoketown, in East Lampeter township, attempted to fill a lamp fluid while it was lighted, when an explosion took place, by which she and two of her children were dreadfully burned. One of the children died almost immediately, and both the mother and the other child are so badly injured that the physician in attendance has but little or no hope of their recovery.

No WHERE in the world has the industry of man been rewarded as in the United States, with so many tokens of universal prosperity.—Fornay's Press.

Suspended banks, broker merchants, and people out of employment are the "signs of universal prosperity" which appear upon every side.—Norristown Defender.

THE WAY THE LAND WENT.

When the Congress of the United States were enacting the swamp land laws of 1849 and 1850, they little supposed that they were making a donation of fifty-four millions of acres of land to the States' inured. It had been represented that a few hundred thousand acres of overgrown land in these States were entirely worthless, and that the general health of the country required their being drained and brought into cultivation. Such lands it was intended to convey to the State as an indemnity for any improvement which might be put upon them. The law has been made to cover in its operations much of the very best lands of the whole western country. Particularly has this been the case in Louisiana. Under the act of 1849, the approval of the department passed the fee. This has Louisiana received a title to upwards of seven and a half millions of acres. One million nine hundred thousand acres have been patented to Missouri.

SUSPENDED RAILROADS.—Within the last thirty days, the following railroads companies are reported as having either gone to protest on their floating debt, suspended, or made an assignment of their property:

Table with 2 columns: Name, Total Liabilities. Includes New York & Erie (\$38,000,000), Illinois Central (24,000,000), Philadelphia & Reading (20,000,000), Michigan Central (14,000,000), Michigan Southern (18,000,000), Cleveland & Toledo (7,500,000), Milwaukee & Mississippi (7,000,000), La Crosse & Milwaukee (14,000,000), Cleveland & Pittsburgh (6,000,000), Del., Lackawanna & Western (10,000,000), Chicago, St. Paul & Fond Du Lac (5,000,000), North Pennsylvania (6,000,000), Cumberland Coal Company (6,000,000), Huntington & Broad Top (1,200,000), Steubenville & Indiana (5,000,000).

HERMAN'S TINKERABLE can be beat.—His shop is a few doors West of the old Globe Hotel. He is an old and good mechanic, and makes all his work himself, and sells cheaper than anybody else. All who wear tinware will save money by calling on him. He follows no other business and pays all his attention to making and selling good, substantial, and cheap work. May 22, 1857.

WOMEN AND CREAM.—A Poet for beautifying the Hair.—A highly prepared, superior to any other article imported, and of half the price. For dressing ladies' Hair it has no equal, giving it a bright glossy appearance.—It causes Gentlemen's Hair to curl in the most natural manner. It removes dandruff, always gives the Hair the appearance of being fresh shampooed. Price only fifty cents. None genuine unless signed.

PHILADELPHIA, Wednesday, Nov. 4, 1857. Richard Carter, President of the Anthracite Bank of "Annapolis," was shot dead this evening in the parlor of the St. Lawrence Hotel, by Thomas Washington Smith of Cecil County, Maryland. Smith fired three balls from his revolver, and two more after Carter had fallen on the floor. Carter is a middle aged man, wealthy, and has a family. Smith is aged 30 years, and was laboring under great excitement. Carter had accused Smith of the seduction of a ward or adopted daughter of his. Smith states that he met the girl at a boarding-school and married her. He subsequently discovered that she had been the mistress of Carter. She had a child four months after marriage. The shooting was in revenge. Smith was arrested, and is awaiting a hearing at the Mayor's office.

REAL ESTATE.—It is one of the phenomena of the times that real estate does not seem to be affected by the failures of the merchants, brokers, bankers, &c.—The reason is, that these men do not own real estate. In 1857, every merchant who failed had real estate assets. Now they have only "paper." In some cases their wives own the houses they live in, but as a general rule the Island of Manhattan is owned by men, women and children who are not known in the commercial world. Hence their failures throw no real estate upon the market.—N. Y. Mirror.

AN UNLucky FATE.—One of the Sepoy murders in India was Mrs. Parquison, the wife of Col. Parquison, late of the 7th Fusiliers, a beautiful and elegant woman.—One account says she was burnt alive after the most frightful atrocities were committed on her person; but the Dublin Evening Post says a private letter has been received in that city stating that after suffering a series of indescribable barbarities, she was placed alive between two boards, and cut through with a saw.

THE HOG MARKET.—The Louisville (Ky.) Courier of Wednesday last says:—"The market for hogs for packing is flat, with no buyers at any price, with, in fact, no price offered. Those who contracted some time ago will lose, as contracts for over 25,000 hogs were made by one or two packers at 64 cents."

The Locos are again beginning to fear a reorganization of the Whig party, and consequently show a disposition to pitch into it right briskly. After the many enormities they have been passing on the Whig party and Whig principles for the last two years, those anathemas are now a little inconsiderable. Wouldn't it be funny if the Whigs would "kick" Locofovoism "out of its boots" in 1860.—Lebanon Courier.

THE MARKETS. PHILADELPHIA Nov. 7, P. M. The Flour market is firm, a sale of 600 barrels good Western extra at \$6 par barrel, and 175 barrels fancy family at \$7.—There is some inquiry for superfine at 5 25, but holders now generally refuse this figure. Sales in lots to the trade at \$5 37 1/2 up to \$6 for common and extra brands, and \$6 25 for extra family and fancy. Rye Flour is steady at 4 50. Corn Meal is unchanged.

A RETIRED PHYSICIAN.

Who's sons of life have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and general debility. The remedy was discovered by him when his only child, a daughter, was given to die. He had heard much of the wonderful restorative and healing qualities of preparations made from the East India Hemp, and the thought occurred to him that he might make a remedy for his child. He studied hard, and succeeded in realizing his wishes. His child was cured, and is now alive and well. He has since administered the wonderful remedy to thousands of others in all parts of the world, and he has never failed in making them completely healthy and happy. Wishing to do as much good as possible, he will send to such of his afflicted fellow-beings as request it, his recipe, with full and explicit directions for making it up, and using fully using it. He requires each applicant to enclose him one shilling—three cents to be returned as postage on the recipe, and the remainder to be applied to the payment of this advertisement. Address Dr. H. DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY

IS AN ARTICLE THAT EVERY BODY needs who is not in a perfect state of health for the Liver is second only to the heart in our human economy, and when that is deranged the whole vital machinery runs wrong. To find a medicine peculiarly adapted to this disease has been the study of one of the proprietors, in a large and extended practice for the past twenty years, and the result of this experiment is the Invigorator, as a never-failing remedy where medicine has any power to help. As a Liver Remedy it has no equal, as all testify who use it. A lady writing from Brooklyn, says, "I would like to express in this short letter the value of your Invigorator, has been to me in raising a large family of children, for it has never failed to relieve all affections of the stomach, bowels or attacks of worms. If mothers once had this remedy placed within their reach, and were taught how to use it, a fearful and untold amount of agony might be saved."
